## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of North West Company Fund and The North West Company Inc. are responsible for the preparation, presentation and integrity of the accompanying financial statements and all other information in this annual report. The consolidated financial statements have been prepared by management in accordance with generally accepted accounting principles in Canada and include certain amounts that are based on the best estimates and judgment by management.

In order to meet its responsibility and ensure integrity of financial reporting, management has established a code of business ethics, and maintains appropriate internal controls and accounting systems. An internal audit function is maintained that is designed to provide reasonable assurance that assets are safeguarded, transactions are authorized and recorded and that the financial records are reliable.

Ultimate responsibility for financial reporting to unitholders rests with the Trustees of the Fund and the Board of Directors of the Company. The Audit Committee of the Board, consisting of outside Directors, meets quarterly with management, Trustees and with the internal and external auditors to review the audit results, internal controls and accounting policies. Internal and external auditors have unlimited access to the Audit Committee. The Audit Committee meets separately with management and the external auditors to review the financial statements and other contents of the annual report and recommend approval by both the Trustees and the Board of Directors. The Audit Committee also recommends the independent auditor for appointment by the unitholders.

PricewaterhouseCoopers LLP, an independent firm of auditors appointed by the unitholders, have completed their audit and submitted their report as follows.

## AUDITORS' REPORT

PRICEWATERHOUSE(OOPERS 图
To the Unitholders of North West Company Fund: We have audited the consolidated balance sheets of North West Company Fund as at January 25, 2003 and as at January 26, 2002 and the consolidated statements of earnings and retained earnings and cash flows for the fiscal years then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Fund as at January 25, 2003 and January 26, 2002 and the results of its operations and its cash flows for the fiscal years then ended in accordance with Canadian generally accepted accounting principles.

\section*{Notes to Consolidated Financial Statements January 25, 2003}

\section*{1. ORGANIZATION}

The North West Company Fund (NWF) is an unincorporated open-ended mutual fund trust, governed by the laws of the Province of Manitoba and the laws of Canada and created pursuant to a Declaration of Trust. The beneficiaries of the Fund (the 'unitholders') are holders of trust units issued by the Fund (the 'Trust Units'). The Fund is a limited purpose trust whose purpose is to invest in securities of its wholly owned subsidiary The North West Company Inc. (NWC), administer the assets and liabilities of NWF and make distributions to the unitholders all in accordance with the Declaration of Trust.

\section*{2. SIGNIFICANT ACCOUNTING POLICIES}

Basis of Presentation The consolidated financial statements of the Fund are prepared in accordance with Canadian generally accepted accounting principles. All amounts are expressed in Canadian dollars unless otherwise noted.

These consolidated financial statements include the accounts of NWF, NWC and its wholly owned subsidiaries (the 'Company'), Alaska Commercial Company (AC) and the group of Tora companies, operating as Giant Tiger stores. All significant inter-company amounts and transactions have been eliminated on consolidation.

Fiscal Year The fiscal year ends on the last Saturday in January. Accordingly, the 2002 fiscal year ended January 25, 2003 ( 52 weeks) and the 2001 fiscal year ended January 26, 2002 ( 52 weeks). Approximately every five years an additional week of sales and expenses are included in the financial results to bring results back in line with the 52 week year.

Revenue Recognition Revenue on the sale of goods and services is recorded at the time the sale is made to the customer. Service charges on credit card receivables are accrued each month on balances outstanding at each account's billing date.

Accounts Receivable Accounts receivable classified as current assets include customer installment accounts of which a portion will not become due within one year.
Inventories Inventories are valued at the lower of cost and net realizable value less normal profit margins. The cost of warehouse inventories is determined by the average cost method. The cost of retail inventories is determined primarily using the retail method of accounting for general merchandise inventories and the cost method of accounting for food inventories.

Property and Equipment Property and equipment are recorded at cost. Amortization is provided using the straightline method over their estimated useful lives, as follows:
Buildings ...........................................................................5\% - \(20 \%\)
Leasehold improvements ................

Fixtures and equipment .............................................. \(8 \%\)
Computer equipment and software ............... \(12 \%-33 \%\)
Other Assets The investments in transportation companies are accounted for on the equity basis. Deferred financing costs are being amortized over the life of the instrument. Prepayments under lease agreements are being amortized over their respective lease terms.

Unit Purchase Loan Plan Loans issued to officers to purchase units of the Fund under the unit purchase loan plan are treated as a reduction of equity.
Foreign Currency Translation The accounts of Alaskan operations have been translated into Canadian dollars using the current rate method whereby assets and liabilities are translated at the year-end exchange rate and revenues and expenses at the average rate for the period. Foreign exchange gains or losses arising from the translation of the net investment in self-sustaining Alaskan operations and the portion of the U.S. denominated debt designated as a hedge against this investment are deferred and included in a separate component of equity as a cumulative currency translation adjustment. These cumulative currency translation adjustments are recognized in income when there has been a reduction in the net investment in the self-sustaining foreign operation.
Income Taxes The Fund is an inter vivos trust for income tax purposes. All income of the Fund is distributed to unitholders and, as such, no income tax is payable by the Fund.

The Company accounts for income taxes using the liability method of tax allocation. Under the liability method, future income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using substantively enacted tax rates and laws that are expected to be in effect in the periods in which the future income tax assets or liabilities are expected to be realized or settled. A valuation allowance is provided to the extent that it is more likely than not, that future income tax assets will not be realized. The provision for income taxes is recorded in the Company at applicable statutory rates.

Pensions in Canada The Company accrues its obligations under employee benefit plans and related costs, net of plan assets. Current service costs are charged to operations as they accrue using the projected benefit method, pro-rated on services and management's best estimate of expected plan investment performance, salary escalation, and retirement ages of employees. For the purpose of calculating the expected returns on plan assets, those assets are valued at market related value based on a five year moving average. Past service costs and the net transitional asset are amortized on a straight line basis over the average remaining service period of employees. The excess of the net experience gain (loss) over \(10 \%\) of the greater of the benefit obligation and the market related value of the plan assets is amortized over the average remaining service period of active employees.

\section*{Employee Savings Plan in Alaska AC sponsors} an employee savings plan covering all employees with at least six months service. Under the terms of the plan, AC is obligated to make a \(50 \%\) matching contribution up to \(3 \%\) of eligible compensation, otherwise contributions are discretionary. Contributions to this plan are expensed as incurred.

\section*{Unit Appreciation Rights (UARs) Plans}

Compensation expense under the Company's UARs plans is charged to operations as it accrues using the fair value method. No units of the Fund are issued under these plans.

Financial Instruments The Company uses various financial instruments to reduce its exposure to fluctuations in interest and U.S. currency exchange rates. The Company does not hold or issue any derivative financial instruments for speculative trading purposes. The interest differential to be paid or received under interest rate swap agreements is recognized over the life of the contracts as an adjustment to interest expense. The Company translates its U.S. denominated debt that is hedged by cross-currency swaps at the rate implicit in the swap agreement.

Use of Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Future events could alter such estimates in the near term.

\section*{5. BANK ADVANCES AND SHORT-TERM NOTES}

The Canadian operation has operating loan facilities of \(\$ 85\) million at interest rates ranging from prime to prime plus \(.75 \%\). These facilities are secured by a floating charge against the assets of the Company on a parri-passu basis with the senior note holders. As at January 25, 2003, the Company had drawn \(\$ 25.5\) million.

The Alaskan operation has an operating loan facility of US \(\$ 4\) million at an interest rate of prime plus 1.0\% secured by a floating charge against the assets of the Company. As at January 25, 2003, the Alaskan operations had drawn US \(\$ 1.8\) million.

\section*{6. LONG-TERM DEBT (\$ in thousands)}

\hline
\end{tabular}

\section*{6. LONG-TERM DEBT (CONTINUED)}
1. The US\$65 million senior notes mature on June 15, 2009 and bear an interest rate of \(5.89 \%\) payable semi-annually. Repayment of \(20 \%\) of the principal is required on June 15, 2007 and June 15, 2008. The notes are secured by a floating charge against the assets of the Company. The Company has entered into various cross currency interest rate and interest rate swaps resulting in floating interest costs on its senior notes. After giving effect to the interest rate swaps and cross currency interest rate swaps the effective interest rate is \(5.5 \%\).
2. The bonds became due and were paid on August 28, 2002. Deferred warrant proceeds, less expenses, represented the amount received related to the issuance of the bonds and were fully amortized to income by August 28, 2002. In addition, the foreign exchange contract was settled on August 28, 2002.
3. The Alaska Industrial and Economic Development Export Authority (AIDEA) and two Alaskan-based banks have provided real estate loans of US \(\$ 3.8\) million (2001 US \(\$ 4.2\) million) to assist in the financing of new stores. The loans mature August 1, 2017 and bear interest at the equivalent to 90 -day commercial paper plus \(2.6 \%\) for the AIDEA loans that represent \(80 \%\) of the principal. The interest on the bank portion of these loans is approximately U.S. prime plus \(0.65 \%\). Blended monthly payments totaling US \(\$ 631,000\) annually are required to be made on these loans. These loans are secured by the Alaskan store buildings and related equipment.
4. The Manitoba Development Corporation Ioan bears interest at the rate charged by the Manitoba Government to Crown Corporations and is repayable in four equal annual payments of \(\$ 1,250,000\), with the final payment due December 31, 2003. The loan is secured by a first fixed charge against the leasehold title to the land, a first fixed charge against the building, and a first fixed charge on all present and future processing equipment connected with the project. Interest is forgiven if the Company attains agreed upon annual job creation targets. Management anticipates that the agreed targets will be met; accordingly, no interest has been accrued.
5. The obligation under a capital lease of US \(\$ 1.3\) million (2001 - US \(\$ 1.4\) million) is repayable in blended principal and interest payments of US \(\$ 200,000\) annually. The obligation will be fully repaid on October 31, 2013.

The Company's principal payments of long-term debt over the next five years are as follows:
\begin{tabular}{|c|c|}
\hline Years Ending January & (\$ in thousands) \\
\hline 2004 & \$ 1,843 \\
\hline 2005 & 592 \\
\hline 2006 & 604 \\
\hline 2007 & 486 \\
\hline 2008 & 20,320 \\

\end{tabular}

\section*{7. CAPITAL (\$ in thousands)}

Authorized The Fund has an unlimited number of units.
\begin{tabular}{lrrrr} 
Year Ended & January 2003 & & January 2002 \\
\hline & Units (000's) & Units (000's) & \\

\hline Balance, end of year & 16,126 & \(\$ 165,205\) & 16,126 & \(\$ 165,205\) \\
\hline
\end{tabular}

Treasury Offering On December 5, 2001, the Fund completed a treasury equity issue of \(1,435,000\) units at \(\$ 14.75\) per unit for proceeds of \(\$ 19.7\) million.

\section*{8. UNIT PURCHASE LOAN PLAN}

During the year the Company issued loans to officers to purchase units under the unit purchase loan plan. These loans are non-interest bearing and are repayable from the after tax distributions or if the officer sells the units or leaves the Company. The loans are secured by a pledge of 178,457 units of NWF with a quoted value of \(\$ 3,710,121\). Loans receivable at January 25, 2003 of \(\$ 3,365,239\) are recorded as a reduction of equity. Additional loans may be made over the next four years. The maximum value of the loans under the plan will not exceed \(\$ 7,500,000\).

\section*{9. CUMULATIVE CURRENCY TRANSLATION ADJUSTMENTS (\$ in thousands)}
\begin{tabular}{lrr}

\hline Balance, end of year & \(\$ 5,379\) & \(\$ 5,177\) \\
\hline
\end{tabular}

The cumulative currency translation adjustments account represents the net changes due to exchange rate fluctuations in the equivalent Canadian dollar book values of the net investment in self-sustaining Alaskan operations since the date of acquisition. A portion of the U.S. denominated senior notes in the amount of US \(\$ 43\) million has been designated as a hedge against the Alaskan operations. A foreign exchange gain was realized on the reduction of US \(\$ 4\) million in the Company's net investment in \(A C\) during the year.

\section*{10. INCOME TAXES (\$ in thousands)}

Significant components of the Company's future tax assets are as follows:
\begin{tabular}{lrrr}

\section*{11. NET EARNINGS PER UNIT}

Basic net earnings per unit are calculated based on the weighted-average units outstanding of 16,007,481 (2001 - 14,896,000). The diluted net earnings per unit takes into account the additional income that would have been earned by the Company had interest costs not been incurred on the unit purchase loan plan and had the respective units been outstanding during the year.

\section*{13. EMPLOYEE FUTURE BENEFITS} (\$ in thousands)

The Company sponsors both defined benefit and defined contribution pension arrangements covering substantially all employees. The Company uses actuarial reports prepared by independent actuaries for funding and accounting purposes. The accrued pension benefits and the market value of the plans' net assets were last determined by actuarial valuation as at January 1, 2002. The following significant actuarial assumptions were employed to determine the periodic pension expense and the accrued benefit obligations:
\begin{tabular}{lcr} 
Year ended & January 2003 & January 2002 \\
\hline Expected long-term rate of return & & \\
on plan assets & \(7.0 \%\) & \(7.0 \%\) \\

\end{tabular}

The Company maintains an employee savings plan for substantially all of its U.S. employees and recorded an expense of US\$118,000 (2001 - US\$106,000) for this plan.

\section*{14. COMMITMENTS AND CONTINGENCIES}

Canada Customs and Revenue Agency is currently conducting an audit for the taxation years 1996-1999. The Company has not received notices of reassessment with respect to all of the matters raised, however, management has recorded a provision based on their estimate of the potential liability. It is the opinion of management that the pending reassessments will be resolved without material effect on the financial statements.

On July 10, 2002, the Company signed a 30-year Master Franchise Agreement with Giant Tiger Stores Limited, based in Ottawa, Ontario. The agreement grants the Company the exclusive right to open Giant Tiger stores in western Canada. Under the agreement, Giant Tiger will provide product sourcing, merchandising, systems and administration support to the Company's Giant Tiger stores in return for a royalty based on sales. The Company will be responsible for opening, owning and operating the stores. The Company's exclusivity right requires that a minimum number of Giant Tiger stores be opened each year, based on an expected rollout of 72 stores over the term of the agreement. As at January 25,2003 , the Company has opened three Giant Tiger stores, with one located in Thompson and the other two in Winnipeg, Manitoba.

In 1992, the Company entered into an agreement to lease the land on which the Winnipeg Logistics Service Centre is located from the City of Winnipeg for \(\$ 1\) per year for 15 years subject to attaining agreed-upon job creation targets. Management anticipates that the agreed targets will be met; accordingly, no additional lease payments have been accrued. The Company is obligated to buy the land for the greater of \$1,710,000 or fair market value at August 31, 2007.

The Company has future commitments under operating leases as follows:
\begin{tabular}{|c|c|}
\hline Years Ending January & Minimum Lease Payments (\$ in thousands) \\
\hline 2004 & \$10,969 \\
\hline 2005 & 9,367 \\
\hline 2006 & 8,165 \\
\hline 2007 & 6,914 \\
\hline 2008 & 6,490 \\
\hline Thereafter & 50,806 \\
\hline
\end{tabular}
15. UNIT APPRECIATION RIGHTS (UARs) PLANS The Company has two UARs plans, non-contingent and performance contingent, which form part of the long-term incentive program for senior management. UARs are granted to senior management at the discretion of the Board. Compensation expense incurred during the year under the plan was \$1,773,000 (2001 - \$1,735,000).

Non-Contingent Plan A summary of the Company's non-contingent plan and changes during the year is presented below:
\begin{tabular}{|c|c|c|c|c|}
\hline Year Ended & \multicolumn{2}{|r|}{January 2003} & \multicolumn{2}{|r|}{January 2002} \\

\hline UARs exercisable at year-end & 148 & & 232 & \\
\hline
\end{tabular}
* Weighted-average

The non-contingent UARs vest over five years and expire after six years. As of January 25, 2003, the 294,000 non-contingent UARs outstanding under this plan have exercise prices between \(\$ 10.50\) and \(\$ 15.05\).

Performance Contingent Plan The Company granted qualifying senior management UARs where vesting was contingent upon reaching predetermined financial targets by January 26, 2002, and the personal ownership of units equal to the number of UARs granted. These contingent UARs commenced vesting in 2002 and vest over three years and expire after four years. A summary of the Company's performance contingent plan and changes during the year is presented below:
\begin{tabular}{lrrrrr} 
Year Ended & \multicolumn{2}{c}{ January 2003 } & \multicolumn{2}{c}{ January 2002 } \\

As of January 25,2003 , the 30,000 performance UARs outstanding under the plan have exercise prices between \$14.00 and \$15.05.

\section*{16. FINANCIAL INSTRUMENTS (\$ in thousands)}

Short-Term Financial Instruments Short-term financial instruments are valued at their carrying amounts included in the balance sheet, which are reasonable estimates of fair value due to the relative short period to maturity of the instruments.

Long-Term Financial Instruments The Company has the following long-term financial instruments outstanding as at January 25, 2003:
\begin{tabular}{lllllr} 
& Maturity & Interest Rate \({ }^{1}\) & \multicolumn{2}{c}{ Amount } & Fair Value \\
\hline & & & US \(\$\) & CDN\$ & US\$ \\

\hline
\end{tabular}
1. Weighted-average 2. London Interbank Offered Rate \(\quad\) 3. Bankers' Acceptances

Interest Rate Risk The Company has exposure to interest rate fluctuations on the swapped amount of its senior notes and real estate loans.

Credit Risk The Company is exposed to credit risk, primarily in relation to credit card customer accounts and notes receivable from First Nations governments. The Company performs regular credit assessments of its customers and provides allowances for potentially uncollectible accounts receivable.

\section*{17. COMPARATIVE AMOUNTS}

The comparative amounts have been reclassified to conform with the current year's presentation.```
