MANAGEMENT'S DISCUSSION & ANALYSIS

Unless otherwise stated, this Management's Discussion & Analysis ("MD&A") for The North West Company Inc. ("NWC") and its subsidiaries (collectively, "North West Company", the "Company", "North West", or "NWC") is based on, and should be read in conjunction with the 2025 annual audited consolidated financial statements and accompanying notes. The Company's annual audited consolidated financial statements and accompanying notes for the year ended January 31, 2026 are in Canadian dollars, except where otherwise indicated, and are prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

The Board of Directors, on the recommendation of its Audit Committee, approved the contents of this MD&A on April 8, 2026 and the information contained in this MD&A is current to April 8, 2026, unless otherwise stated.

FORWARD-LOOKING STATEMENTS

This MD&A contains forward-looking statements about the Company including its business operations, strategy, expected financial performance and condition, and legal matters. Specific forward-looking statements in this MD&A include, but are not limited to, future or conditional future financial performance (including sales, earnings, growth rates, capital expenditures, dividends, debt levels, financial capacity, access to capital and liquidity), ongoing business strategies or prospects, the Company's plans regarding sales of private label products and intentions regarding a normal course issuer bid and the number of shares purchased, the potential impact of a pandemic on the Company's operations, supply chain and the Company's related business continuity plans, the realization of cost savings from cost reduction plans, the anticipated impact of The Next 100 strategic priorities and possible future action by the Company. Forward-looking statements are contained throughout this MD&A and are typically identified by words such as "expects", "anticipates", "plans", "believes", "estimates", "intends", "targets", "projects", "forecasts", "foresees", "could", "goals", "intends", "seeks", "strives", "will", "may", "should" and other similar expressions, or negative versions thereof, as they relate to North West and its management.

Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company, economic factors and the retail industry in general.

Forward-looking statements reflect the Company's estimates, beliefs and assumptions, which are based on management's perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances. The Company's estimates, beliefs and assumptions are inherently subject to significant business, economic, competitive and other uncertainties and contingencies regarding future events and, as such, are subject to change. The Company can give no assurance that such estimates, beliefs and assumptions will prove to be correct. Numerous risks and uncertainties could cause the Company's actual results to differ materially from those expressed, implied or projected in the forward-looking statements, including those described in this MD&A and the Company's 2025 Annual Information Form. Such risk and uncertainties include, but are not limited to: changes in inflation, tariffs, commodity prices, interest and foreign exchange rates, government fiscal health and changes in government policy that result in a reduction in financial support for programs benefiting

individuals including Nutrition North Canada ("NNC"), Jordan's Principle and Inuit Child First Initiative ("ICFI") in Canadian Operations, and the U.S. Supplemental Nutrition Assistance Program ("SNAP") and Alaska by-pass mail system in International Operations, which contribute to lower living costs for eligible customers, the expected impact from settlement payments to Indigenous Peoples including First Nations Child and Family Services and Jordan's Principle, the Company's ability to maintain an effective supply chain, changes in accounting policies and methods used to report financial condition, uncertainties associated with critical accounting assumptions and estimates, including estimates of contingent consideration, the effect of applying future accounting changes, business competition, technological change, changes in government regulations and legislation, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, the Company's ability to complete and realize benefits from capital projects, E-Commerce investments, strategic transactions and the integration of acquisitions, the Company's ability to realize benefits from investments in information technology ("IT") and systems, including IT system implementations, or unanticipated results from these initiatives and the Company's success in anticipating and managing the foregoing risks.

The reader is cautioned that the foregoing list of important factors that may affect the Company's forward-looking statements is not exhaustive. Other risks and uncertainties not presently known to the Company or that the Company presently believes are not material could also cause actual results or events to differ materially from those expressed in its forward-looking statements. Additional risks and uncertainties are discussed in the Company's materials filed with the Canadian securities regulatory authorities from time to time, including, without limitations, the Risk Factors sections of the 2025 Annual Information Form, and in our most recent consolidated financial statements, management information circular, material change reports and news releases. The reader is also cautioned to consider these and other factors carefully and not place undue reliance on forward-looking statements, which reflect the Company's expectations only as of the date of this MD&A. Other than as specifically required by applicable law, the Company does not intend to update any forward-looking statements whether as a result of new information, future events or otherwise.

Additional information on the Company, including our Annual Information Form, can be found on SEDAR+ at www.sedarplus.ca or on the Company's website at www.northwest.ca.

President & CEO Message

The past year was one of continued progress for The North West Company despite a challenging operating environment. We delivered solid financial results while continuing to advance key operational and strategic priorities that support the long-term strength of our business. Results were achieved in a year marked by significant reductions to certain support and subsidy programs, including the Inuit Child First Initiative, as well as prolonged store closures caused by an intense wildfire season. Across northern Canada, Alaska, the South Pacific and the Caribbean, our teams remained focused on serving customers reliably and maintaining essential operations, while continuing to strengthen the foundations of our business.

Our Next 100 transformations continue to guide this work. Over the past year, we executed against our objectives and embedded changes needed to operate more efficiently and consistently across our network. Our efforts remain centred on advancing our core business priorities across assortment, operations, supply chain and scalable growth.

We made meaningful progress across each of these areas. We successfully delivered key elements of our technology and data roadmap, strengthening the tools that support better decision-making across the business. Our upgraded Warehouse Management System will soon be launching as part of our supply chain optimization initiative, which will further improve product flow and operational efficiency. At the same time, our teams have remained focused on improving on-shelf availability, ensuring customers can depend on our stores for the products they need.

Our merchandising strategy continues to focus on quality, choice, and value. This year we expanded our private label offering in meaningful ways. Our "Oh So Good" brand is now available across all international markets, while Loblaw's private brands are on shelves in every Canadian store and have recently been introduced in the British Virgin Islands market. These partnerships are helping us expand more affordable, high-quality options for customers while strengthening our product selection.

Technology and security remain critical priorities. This past year, we completed a Cybersecurity Maturity Status assessment, benchmarking our capabilities against industry standards and identifying opportunities to further strengthen our systems. We also enhanced IT support and service delivery models across the organization to ensure reliable and consistent technology operations.

Our Compass learning platform continues to play an important role in strengthening leadership capability across the business. With clearer processes and guidance now in place, adoption among managers continues to grow, helping reinforce operational alignment and leadership development at every level.

Alongside these operational improvements, we continued to invest in our stores, infrastructure and supply chains. In Canada, we completed a transformative renovation of our fresh departments at our NorthMart store in Iqaluit, Nunavut, and upgrades at our Northern store in La Romaine, Quebec, enhancing both product selection and the customer experience. In Alaska, we reopened a second location in Utqiagvik, providing the community with a larger store, better serving the community's needs.

Across our International markets, we are investing for the future. Construction of our new Cost-U-Less store in Agaña, Guam – our largest store build to date – is progressing steadily and expected to open later this year. In the British Virgin Islands, we expanded our Roadtown Wholesale Trading location in Virgin Gorda, creating additional capacity to meet growing demand and better service the island community.

We also strengthened our supply chain capabilities through infrastructure investments. North Star Air opened a new 37,000-square-foot hangar in Thunder Bay, Ontario, improving our ability to reliably serve northern communities.

Serving remote regions where extreme and unpredictable weather is more common carries a unique responsibility, and one our teams approach with care and a deep commitment to the communities we serve. Over the past year, Nor'Westers demonstrated that commitment during several significant events. Across northern Canada, our teams worked closely with community leaders and emergency responders to support residents and first responders during widespread wildfire evacuations, ensuring access to essential goods and supplies during a challenging summer. In Alaska, our AC teams stepped up following Typhoon Halong, helping communities recover and restore access to critical goods and household products.

Our commitment to responsible business practices remains central to how we operate. We continue to advance our Indigenous Cultural Safety Training strategy and uphold Our Promise to Indigenous Peoples. In 2025, over 360 employees, including 98% of Director level and above, completed Indigenous Cultural Safety training, deepening their understanding and commitment to cultural awareness and reconciliation.

Through the Healthy Horizons Foundation, we continue to invest in community-led initiatives that support health, wellness, and opportunity across the regions we serve. We are also encouraged by the continued expansion of Northy Club, with additional programs set to launch in the coming year.

Throughout this work, our Core Principles – Customer Driven, Passion, Enterprise, Accountability, Trust and Personal Balance remain at the heart of everything we do. Guided by these values, NorWesters across the organization demonstrate the commitment and resilience needed to serve the communities that rely on us every day.

Looking ahead, our focus remains clear: continue executing our strategy, strengthening our operational capabilities, and investing in the systems and infrastructure that will support long-term growth.

I want to thank all NorWesters for their dedication and hard work. I also want to thank our customers, suppliers, shareholders, and community partners for their continued trust in The North West Company.

Daniel G. McConnell

President & CEO

April 8, 2026

Chair of the Board Message

As I look back on the past year, I'm encouraged by the important steps our Company has taken. North West continued to show its resiliency in 2025, delivering meaningful operational improvements borne out of our Next 100 strategy.

Now in its second full year of execution, the Next 100 strategy is focused on building a stronger, more robust company to create value for our customers and our shareholders into the future. Benefiting from foundational work the Board has overseen since its implementation, and leveraging the power of data through new tools and analytics, labour productivity gains and other cost saving initiatives drove reductions in expenses. Next 100 initiatives also delivered enhanced value for our customers through better assortments, including our private label program and the introduction of "President's Choice" and "No Name" products in northern Canada and our "Oh So Good" in-house brand in our International markets. These programs have provided greater affordability and an expanded assortment for our customers. As our Next 100 strategy matures, the Board is confident our initiatives and investments will continue to deliver annualized incremental EBIT through strategic priorities focusing on operational excellence, investing to grow our business, and optimizing our logistics capabilities and IT infrastructure.

The retail economic environment for North West overall in 2025 was difficult, but the breadth and diversity of North West's operations helped navigate through the challenging conditions. Although sales and earnings gains in 2025 were modest, they built on significant earnings growth in 2023 and 2024. In our Canadian Operations, Government funding changes led to both inflationary pressures and a reduction in support payments for northern residents. Changes to subsidy programs, including the elimination of the Inuit Child First Initiative food voucher program and reduced support through Jordan's Principle, have made it more difficult for customers in northern Canada to afford and access nutritious food. We also felt the significant impact of climate change in 2025, as wildfires forced an unprecedented number of emergency evacuations, impacting many communities in which we operate. While performance in our International Operations was stronger in 2025 with sales and earnings gains, the benefits from improved economic conditions in certain Caribbean and Alaskan markets were partially offset by a decrease in the Alaska Permanent Fund Dividend and weaker economic conditions in the South Pacific. Fortunately our Next 100 initiatives, which drove earnings gains in excess of investments in resources and technology and one-time costs, allowed the Company to effectively navigate these more challenging times.

The Board recognizes that sustainability is core to our business, and 2025 brought advancements to North West's ESG strategy, positioned as *People, Planet and Partnerships*. The Company's Promise to Indigenous Peoples is firmly entrenched into our business, with objectives focused on building more collaborative relationships that enhance the inclusion and social well-being of Indigenous People of Canada. Sustainability highlights included increased economic inclusion of Indigenous businesses, and products and services with purchases of approximately \$43 million, reflecting our commitment to strengthening local economies while aligning with the Truth and Reconciliation Commission's Call to Action. We are also committed to increasing Indigenous employment, retention and promotion which is embedded in our strategy.

During 2025 and early 2026, we added two Directors that bring significant depth and breadth of experience to our Board. In August 2025, we appointed Gregg Saretsky to our Board. Gregg is a seasoned airline executive and corporate director with experience in global aviation, having served as the CEO of WestJet Airlines Ltd. and as a Board Director of publicly traded airline companies. In April 2026, we also appointed Paul Soubry to our Board. Paul served as CEO of NFI Group Inc. from 2009 to January 2026. NFI is a leading global provider of sustainable bus and motorcoach solutions. Paul has a sales, marketing, business development and operations background with substantial experience in business transformations and LEAN operational practices. We are excited to have added these two highly qualified and experienced individuals to our Board.

In closing, the Board is confident that our focus on the Next 100 strategy puts North West on a path for continued success into the future. Under Dan's leadership and with oversight from the Board, Next 100 initiatives will continue to enhance our business and position us well to drive efficiency, support growth and create value for both our shareholders and our customers.

On behalf of the Board, I want to thank all Nor'Westers for their dedication to our mission of making people's lives better in the communities we are privileged to serve and for the energy, passion and commitment they bring to our Next 100 program. I also wish to thank our shareholders for their continued support in our pursuit of our mission, as well as the communities we serve for the privilege of allowing us to serve them.

Brock Bulbuck
Chair of the Board
April 8, 2026

Management's Discussion & Analysis

OUR BUSINESS TODAY

The North West Company is a leading retailer to rural and developing small population communities in the following regions: northern Canada, rural Alaska, the South Pacific and the Caribbean. Our stores offer a broad range of products and services with an emphasis on food and a compelling value offer of being the best local shopping choice for everyday household and lifestyle needs.

North West's core strengths include: our ability to adapt to varied community preferences and priorities; our on-the-ground presence with hard-to-replicate operating skills, customer insights and facilities; our logistics capability in moving product to remote markets; and, our ability to apply these strengths within complementary businesses.

North West has a rich enterprising legacy as one of the longest continuing retail enterprises in the world. The Company traces its roots back to 1668 and many of our stores in northern Canada have been in operation for over 200 years.

Our stores in Alaska and northern Canada serve communities with populations ranging from 200 to 8,500. A typical store is 6,500 square feet in size and offers food, family apparel, housewares, appliances, outdoor products and services such as fuel, post offices, pharmacies, quick-service prepared food, prepaid card products, ATMs, cheque cashing, income tax return preparation and proprietary credit programs.

Growth at North West is driven by market share capture within existing locations and from applying our expertise and infrastructure to new product categories, markets and complementary businesses. The latter includes vertical investments in shipping and air cargo, wholesaling to independent stores, and retailing through mid-sized warehouse and supermarket format stores serving the South Pacific islands and the Caribbean.

A key strength and ongoing strategy of North West is our ability to seize unique community-by-community selling opportunities better than our competition. Flexible store models, store management selection and education, store-level merchandise ordering, community relations and incentive plans are all ingredients of our approach to sustain a leading market position. Our enterprising culture, our execution skills in general, and our logistics and selling skills specifically, are also essential components to meeting customer needs within each market we serve.

North West delivers its products and services through the following retail, wholesale and complementary businesses:

Canadian Operations

- **121 Northern** stores, offering a combination of food, financial services and general merchandise to remote northern Canadian communities;
- **5 NorthMart** stores, targeted at larger northern markets with an emphasis on an expanded selection of fresh foods, apparel and health products and services;
- **30 Quickstop** convenience stores, offering extended hours, ready-to-eat foods, fuel and related services in northern Canadian markets;
- **5 Giant Tiger ("GT")** junior discount stores, offering family fashion, household products and food in northern market locations;
- **3 Valu Lots** discount centres and direct-to-customer food distribution outlets for remote communities in Canada;
- **1 Solo Market** store, targeted at less remote, rural markets;
- **3 Pharmacy and Convenience** stores, stand-alone northern pharmacies and convenience stores;
- **2 NWC Motorsports** dealership offering sales, service, parts and accessories for Ski-doo, Honda, Can-Am and other premier brands;
- **Crescent Multi Foods ("CMF")**, a distributor of produce and fresh meats to independent grocery stores in Saskatchewan, Manitoba and northwestern Ontario;
- **North West Telepharmacy Solutions**, a leading provider of contract telepharmacist services to rural hospitals and health centres across Canada; and
- **Transport Nanuk Inc. and North Star Air Ltd. ("NSA")**, water and air-based transportation businesses, respectively, serving northern Canada.

International Operations

- **35 Alaska Commercial Company ("AC")** stores, similar to Northern and NorthMart, offering a combination of food and general merchandise to communities across remote and rural regions of Alaska;
- **4 Quickstop** convenience stores within rural Alaska;
- **1 AC Motorsports** dealership offering sales, service, parts and accessories for Honda, Yamaha, Ski-doo and Can-Am brands;
- **Pacific Alaska Wholesale ("PAW")**, a leading distributor to independent grocery stores, commercial accounts and individual households in rural Alaska;
- **11 Cost-U-Less ("CUL")** mid-size warehouse stores, offering discount food and general merchandise products to island communities in the South Pacific and the Caribbean; and
- **9 Riteway Food Markets and a significant wholesale operation (collectively "RTW")** in the British Virgin Islands.

VISION

At North West our mission is to be a trusted provider of goods and services within harder-to-access, under-served communities. Our vision is to help our customers live better. This starts with our customers' ability and desire to shop locally with us for the widest possible range of products and services that meet their everyday needs. We respond by striving to be innovative, reliable, convenient, welcoming and adaptable, at the lowest local price, within what are typically higher cost environments. For our associates, we strive to be a preferred, fulfilling place to work. For our investors, we strive to deliver sustainable, total returns through earnings growth, dividends and disciplined capital allocation.

PRINCIPLES

The way we work at North West is shaped by six core principles: *Customer Driven, Enterprising, Passion, Accountability, Trust, and Personal Balance.*

Customer Driven refers to looking through the eyes of our customers while recognizing our presence as a supportive community citizen.

Enterprising is our spirit of innovation, improvement and growth, reflected in our unrelenting focus on new and better products, services and processes.

Passion refers to how we value our work and the opportunity to make a positive impact in our customers' lives.

Accountability is our management approach to getting work done through effective roles, tasks and resources.

Trust at North West means doing what you say you will do, with fairness, integrity, inclusion and respect.

Personal Balance is our commitment to sustaining ourselves and our organization, so that we work effectively and sustainably in our roles and for our customers and communities.

STRATEGIES

The strategies at North West are guided by our vision and aligned with a total return approach to investment performance. We aim to deliver top-quartile returns through earnings growth and dividend yield with opportunities considered in terms of their growth potential and ability to sustain an attractive cash return within a lower business risk profile.

The Company's overriding goal is to offer essential products and services that help our customers to live better and to deliver sustainable growth through operational excellence and by continuing to build capability for the future through the following priorities:

- striving for operational excellence in all facets of our business with a priority on ensuring in-stock availability on essential products that our customers rely on and reducing costs to help provide value to our customers;
- investing to grow our business through store openings in new and existing markets, store renovations, refined merchandise assortments and expanded product categories and services, including pursuing wholesale and B-to-B opportunities, consistent with our core capability as an essential everyday products and service provider in remote markets;

- building a superior logistics and supply chain capability with an ongoing focus on optimizing our transportation mix and air cargo capability to provide faster, more reliable and lower cost service to our stores and customers in remote markets;
- optimizing the IT infrastructure for our stores and support offices to deliver efficiencies and more streamlined processes and drive improvements in category management, pricing, data analytics, forecasting, replenishment and inventory management; and
- delivering on the priorities aligned within our Environmental, Social and Governance ("ESG") framework developed around People, Planet and Partnerships. This includes ensuring that we attract, develop and retain top talent that is inclusive of the diverse peoples and cultures that are represented within the communities we serve and that we are responsible towards the planet, the communities we serve and other stakeholder interests.

Collectively these priorities are referred to as "The Next 100", which is focused on driving operational excellence, expanding our capabilities and pursuing value for our customers, our employees, our shareholders and the communities we serve. The initiatives within the Next 100 program noted above leverage the power of data through new tools and analytics, and will be enabled by investments in technology and training which will help sustain the benefits of this work in the years to come. The Next 100 touches on every aspect of our business and aims to drive annualized incremental EBIT, which ramped-up through 2025 and is expected to continue through 2026 and 2027 as our initiatives reach maturity. As we lay the groundwork for these improvements, we are investing in additional resources and technology to support the execution of the Next 100 program. In addition to this investment in resources, we anticipate incurring one-time costs, including professional fees and other expenses, in advance of the incremental EBIT being realized.

Following is an update on the work in 2025 related to these strategic priorities:

Operational Excellence We continue to focus on being in-stock on food and other essential items such as transportation, home furnishings and appliances, while striving to provide value for our customers within a high cost environment by minimizing as much as possible the impact of cost increases from suppliers. In addition, we continue to seek opportunities to deliver cost savings in other aspects of our business through improved store labour planning, lower inventory shrink and other expense management initiatives.

In 2025, we implemented an inventory forecasting and replenishment application in our stores in northern Canada and plan to extend the roll-out of this application to our stores in Alaska in late 2026. The implementation of forecasting and replenishment is expected to improve our in-stock position on essential food items, reduce inventory shrink and enable more efficient logistics planning.

Investing in Stores, Products and Services As part of the refinement of merchandise assortments included in our Next 100 work, the Company added Loblaw Companies Ltd. as a supplier and began incorporating Loblaw private label products in the new merchandise assortments in its northern Canada stores throughout 2025. In addition, the assortment of private label products in our International Operations was expanded in 2025.

Building a Superior Logistics and Supply Chain Capability NSA's cargo aircraft utilization rates and service levels continue to meet targets and deliver consistent service to northern Canada and were a key factor in maintaining good in-stock rates in our stores. Third party cargo, charter and scheduled passenger business contributed to earnings gains in 2025. A PC-12 Pilatus aircraft was acquired late in the second quarter of 2025 to provide additional capacity in our scheduled and charter passenger business and to help maintain service levels during planned maintenance cycles. NSA also completed the construction of a hangar in Thunder Bay, Ontario to support its cargo and passenger business.

Optimizing our IT Infrastructure Investments continue to be made in upgrading hardware and replacing legacy applications in 2025, including the development of an inventory forecasting and replenishment application for stores in northern Canada. In 2026, the Company expects to implement a new warehouse management system ("WMS") in International Operations which is anticipated to be fully operational in the third quarter. In addition, the Company will be replacing its legacy payroll system and implementing a new prepaid card in Canadian Operations in 2026.

Environmental, Social and Governance In 2025, we made progress on our three strategic pillars: **People, Planet** and **Partnerships**, focusing on priorities that matter to our customers, employees and community partners, while adapting to evolving regulatory expectations.

People: We continue to provide access to nutritious food and essential services in the communities we serve and contribute to local economic vitality through job creation and strong supplier partnerships. In 2025, we created business relationships with Indigenous and local suppliers, progressed initiatives to advance Indigenous representation within our operating regions, and supported community health, nutrition and education programs through our Healthy Horizons Foundation (HHF). We also responded to natural disaster events affecting the communities we serve, providing relief and support when and where needed.

Planet: In 2025, we advanced operational efficiency and resource management across our business. We strengthened our greenhouse gas (GHG) inventory and data-collection processes in anticipation of emerging reporting standards. We also improved food waste monitoring across our store operations. While we have made progress, we recognize that this pillar is at an early stage of development.

Partnerships: We remain committed to doing business with integrity, exercising strong governance, protecting human rights across our operations and value chain, while responsibly using data and technology. To support embedding ESG within the business, we have enhanced the development of monitoring systems and dashboards to track progress of prioritized sustainability objectives under the Next100.

Further information on our ESG Strategy is provided in the Corporate Social Responsibility and Sustainability section.

KEY PERFORMANCE DRIVERS AND CAPABILITIES REQUIRED TO DELIVER RESULTS

The financial capability to sustain the competitiveness of our core strengths and to pursue growth: Our investment priorities centre on our store management and front line people, lower costs to help mitigate inflationary price increases, next level technology and superior logistics.

The ability to be a leading community store in every market we serve: We strive to connect with the customers and communities we serve in a highly valued way. It starts with being able to tailor our store formats, product/service mix, community support and store compensation, while still realizing the efficiencies of our size. Investing in relationships, embracing a broad range of products, services and store sizes, flexible technology platforms and “best practice” work processes, are required to achieve this goal.

Our ability to build and maintain supportive community relations: To preserve our community access we must be trusted, open, respectful, adaptable and socially helpful. Store leases and business licenses are often subject to community approval and depend on our track record in these areas and the perceived community and customer value of our retail store compared to other options.

Our ability to develop highly capable store level employees and work practices: Store work and related processes must drive sales and efficiently enable our store-level personnel to manage the other key facets of their store. This enables our full potential to realize local selling opportunities, meet our customer service commitments and build and maintain positive community relationships. It recognizes that our store roles must be compelling and provide opportunities to learn and reach their full potential in order to attract and retain the best people, including our on-going ability to hire within community.

Our ability to deliver merchandise and information through our unique store network: The integration and build-out of our air cargo capability in northern Canada enables us to deliver and receive products faster, cheaper and more reliably compared to third-party providers. Similar advantages are possible through our investment in information technology.

Consolidated Results

2025 Highlights

- Net earnings increased \$2.6 million or 1.9%.
- Return on average equity⁽¹⁾ was 18.2%.
- Return on net assets⁽¹⁾ was 17.1%.
- Debt-to-Equity was 0.38 at January 31, 2026 and has remained below 1.0 since 2000.
- Quarterly dividends increased \$0.01 per share or 2.5% to \$0.41 per share in September 2025 and annual dividends per share have increased 3.0% on a compound annual growth basis over the past 10 years.
- North Star Air acquired a PC-12 Pilatus aircraft and opened a hangar in Thunder Bay, Ontario.
- A new AC store offering an expanded assortment of produce, deli, bakery and grocery opened in Utqiagvik, Alaska, increasing the number of stores in the community to two.

FINANCIAL PERFORMANCE

Some of the key performance indicators used by management to assess results are summarized in the following table:

Key Performance Indicators and Selected Annual Information

(\$ in thousands, except per share)	2025	2024	2023
Sales	\$2,598,209	\$ 2,576,344	\$ 2,471,678
Same store sales % increase ⁽²⁾	0.3 %	4.4 %	2.9 %
EBITDA ⁽¹⁾	\$ 332,644	\$ 325,165	\$ 301,173
Earnings from operations	\$ 212,036	\$ 209,546	\$ 195,897
Net earnings	\$ 145,929	\$ 143,253	\$ 134,291
Net earnings attributable to shareholders of the Company	\$ 139,485	\$ 137,296	\$ 129,391
Net earnings per share - diluted	\$ 2.87	\$ 2.83	\$ 2.67

(1) See Non-GAAP Financial Measures section.

(2) All references to same store sales exclude the foreign exchange impact.

(3) See Consolidated Liquidity and Capital Resources section.

Following is an analysis of the significant factors that impacted the financial results and key performance indicators:

Consolidated Sales Sales for the year ended January 31, 2026 ("2025") increased 0.8% to \$2.598 billion compared to \$2.576 billion for the year ended January 31, 2025 ("2024"), and were up 5.1% compared to \$2.472 billion for the year ended January 31, 2024 ("2023"). The increase in sales compared to 2024 was due to same store sales gains in International Operations and the impact of foreign exchange on the translation of International Operations sales. These factors were partially offset by lower same store sales in Canadian Operations which were negatively impacted by a decrease in funding to individuals from Inuit Child First and Jordan's Principle programs and wildfire-related community evacuations. Excluding the foreign exchange impact, sales increased 0.2% from 2024 and were up 3.7% compared to 2023. The increase in sales compared to 2023 is largely due to same store sales gains, the impact of foreign exchange and sales from new stores.

On a same store basis, sales were up 0.3% compared to a same store sales increase of 4.4% in 2024 and a 2.9% increase in 2023 as shown in the following table:

Same Store Sales

(% increase/(decrease))	2025	2024	2023
Food	1.1 %	4.5 %	3.4 %
General merchandise (GM)	(4.5)%	4.1 %	(0.1)%
Total food & GM sales	0.3 %	4.4 %	2.9 %

Consolidated food sales increased 1.2% from 2024 and were up 0.4% excluding the foreign exchange impact. Same store food sales increased 1.1% on top of a 4.5% increase last year. On a quarterly basis, same store food sales increased 4.0% in the first quarter followed by decreases of 0.4% and 0.3% in the second and third quarter respectively, and an increase of 1.1% in the fourth quarter. Canadian food sales decreased 0.9% and International food sales increased 2.1% excluding the foreign exchange impact.

Consolidated general merchandise sales decreased 4.7% compared to 2024 and were down 5.2% excluding the foreign exchange impact. Same store general merchandise sales decreased 4.5% for the year compared to a 4.1% increase last year. On a quarterly basis, same store general merchandise sales increased 0.4% in the first quarter followed by decreases of 5.4%, 10.8% and 2.7% in the second, third and fourth quarter respectively. Canadian general merchandise sales decreased 6.1% and International general merchandise sales decreased 2.5% excluding the foreign exchange impact.

Other sales, which include airline revenue, financial services, fuel and pharmacy, increased 4.5% compared to 2024 and were up 5.8% compared to 2023 primarily due to higher airline revenue in North Star Air ("NSA") and an increase in pharmacy sales.

Sales Blend The table below shows the consolidated sales blend over the past three years:

	2025	2024	2023
Food	77.5 %	77.2 %	76.9 %
General merchandise and other	22.5 %	22.8 %	23.1 %

Canadian Operations accounted for 56.5% of total sales (57.3% in 2024 and 57.4% in 2023) with International Operations accounting for the remaining 43.5% (42.7% in 2024 and 42.6% in 2023).

Sales & EBITDA⁽¹⁾ (\$ in millions)

(1) See Non-GAAP Financial Measures section.

Gross Profit Gross profit increased 1.5% to \$881.1 million compared to \$868.3 million last year due to higher sales and a 21 basis point increase in the gross profit rate. The higher gross profit rate compared to last year was largely due to changes in sales blend, including a lower blend of wholesale sales, and the positive impacts of our Next 100 work including refinements of our merchandise assortment and procurement. These factors were partially offset by higher markdowns and inventory shrink compared to last year.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") of \$669.1 million increased \$10.3 million or 1.6% compared to last year and were up 18 basis points as a percentage of sales. The increase in Expenses is largely due to higher staff costs related to inflationary and minimum wage increases, an investment in staff resources and an increase in technology costs to support the Next 100 operational excellence work, an increase in depreciation and the impact of foreign exchange on the translation of International Operations Expenses. These factors were partially offset by a decrease in share-based compensation costs and lower annual incentive plan costs. During the year, the Company incurred \$6.4 million in one-time costs for professional fees related to our Next 100 work compared to \$1.0 million last year. Excluding the impact of share-based compensation costs and the Next 100-related one-time costs, Expenses increased \$6.4 million or 1.0% compared to last year and were up 4 basis points as a percentage to sales. Further information on the Next 100 is provided in the Strategies and Outlook sections.

Earnings from Operations (EBIT) and EBITDA⁽¹⁾ Earnings from operations or earnings before interest and income taxes ("EBIT") increased \$2.5 million or 1.2% to \$212.0 million compared to \$209.5 million last year, and increased \$16.1 million or 8.2% compared to \$195.9 million in 2023. Earnings before interest, income taxes, depreciation and amortization ("EBITDA⁽¹⁾") increased 2.3% to \$332.6 million compared to \$325.2 million last year, and was up \$31.5 million or 10.4% compared to 2023. The increase in EBIT and EBITDA compared to 2024 and 2023 is due to the sales, gross profit and Expense factors previously noted. Adjusted EBITDA⁽¹⁾, which excludes the impact of share-based compensation, one-time Next 100 costs and the Fox Lake store fire loss in 2023, increased \$11.4 million or 3.3% to \$351.8 million compared to \$340.4 million last year and was up \$33.7 million or 10.6% compared to 2023. The impact of the Next 100 one-time costs was more than offset by higher gross profit, labour productivity gains and other cost savings from the Next 100 initiatives.

Additional information on the financial performance of Canadian Operations and International Operations is provided on pages 13 and 15 respectively.

Interest Expense Interest expense decreased 4.6% to \$17.5 million compared to \$18.3 million last year as the impact of lower average interest rates more than offset an increase in average long-term debt. The average cost of long-term debt was 4.1% compared to 4.3% last year. Average long-term debt levels increased 0.7% compared to last year mainly due to an increase in amounts drawn on revolving loan facilities. Further information on interest expense is provided in Note 20 to the consolidated financial statements.

Income Tax Expense Income taxes increased to \$48.7 million compared to \$48.0 million last year and the effective tax rate for the year was 25.0% compared to 25.1% last year. The increase in income tax expense is due to higher earnings partially offset by a lower effective tax rate compared to last year. The decrease in the effective tax rate is mainly due to the blend of earnings across the various tax rate jurisdictions, including an increase in global minimum tax expense compared to last year. Changes in the effective income tax rate may also occur as a result of various factors, including changes in tax law, the impact of discrete items, including the taxation of share-based compensation, withholding taxes and changes in tax estimates. Further information on income tax expense, the effective tax rate, global minimum tax, and deferred tax assets and liabilities is provided in Note 10 to the consolidated financial statements.

EBITDA⁽¹⁾ & Net Earnings⁽²⁾ (\$ in millions)

(1) See Non-GAAP Financial Measures section.

(2) Net earnings attributable to shareholders of the Company.

Net Earnings Consolidated net earnings increased \$2.6 million or 1.9% to \$145.9 million compared to \$143.3 million last year, and are up \$11.6 million or 8.7% compared to 2023. Net earnings attributable to shareholders of the Company were \$139.5 million compared to \$137.3 million last year and diluted earnings per share were \$2.87 per share compared to \$2.83 per share last year due to the factors previously noted. Excluding the after-tax impact of the share-based compensation, one-time Next 100 costs and the Fox Lake store fire loss in 2023, adjusted net earnings⁽¹⁾ increased \$5.2 million or 3.4% to \$160.0 million compared to \$154.8 million last year, and were up \$13.0 million or 8.9% compared to 2023 adjusted net earnings⁽¹⁾ of \$147.0 million. In 2025, the average exchange rate used to translate International Operations sales and expenses was 1.3920 compared to 1.3775 last year and 1.3504 in 2023.

The Canadian dollar's depreciation versus the U.S. dollar compared to 2024 had the following net impact on the 2025 results:

Sales.....increase of \$11.8 million or 1.1%
 Earnings from operations.....increase of \$0.7 million
 Net earnings.....increase of \$0.6 million
 Diluted earnings per share.....increase of \$0.01 per share

Total Assets Consolidated total assets for the past three years is summarized in the following table:

(\$ in thousands)	2025	2024	2023
Total assets	\$ 1,567,080	\$ 1,527,505	\$ 1,396,010

Consolidated assets increased \$39.6 million or 2.6% compared to 2024 and were up \$171.1 million or 12.3% compared to 2023. The increase in consolidated assets compared to last year and 2023 is largely due to an increase in property and equipment and higher current assets, mainly driven by higher cash. Further information on the change in current assets is provided in the working capital section below. The increase in property and equipment is largely due to store renovations and investments in fixtures and equipment. An increase in property and equipment in NSA, including the construction of a hangar in Thunder Bay, Ontario and the purchase of a PC-12 aircraft was also a factor. Further information on property and equipment is provided in Note 7 to the consolidated financial statements. The year-end foreign exchange rate used to translate International Operations assets was 1.3615 compared to 1.4485 last year and 1.3412 in 2023.

Consolidated working capital for the past three years is summarized in the following table:

(\$ in thousands)	2025	2024	2023
Current assets	\$ 556,988	\$ 550,268	\$ 502,905
Current liabilities	\$ (264,651)	\$ (274,854)	\$ (250,658)
Working capital	\$ 292,337	\$ 275,414	\$ 252,247

Working capital increased \$16.9 million or 6.1% to \$292.3 million compared to \$275.4 million in 2024 and increased \$40.1 million or 15.9% compared to \$252.2 million in 2023. Current assets increased \$6.7 million or 1.2% compared to last year and were up \$54.1 million or 10.8% compared to 2023. The increase in current assets compared to 2024 and 2023 is primarily due to an increase in cash partially offset by lower accounts receivable and prepaid expenses. An increase in inventories compared to 2023 was also a factor. Further information on current assets is provided in the Net Assets Employed sections under Canadian Operations and International Operations. Further information on the increase in cash is provided in the consolidated statements of cash flows and the Consolidated Liquidity and Capital Resources section.

Current liabilities decreased \$10.2 million or 3.7% to \$264.7 million compared to \$274.9 million last year but were up \$14.0 million or 5.6% compared to \$250.7 million in 2023 substantially due changes in accounts payable and accrued liabilities primarily related to the timing of payments of trade accounts payable. Further information on working capital for the Canadian Operations and International Operations is on page 13 and page 15 respectively.

The following graph shows the RONA and ROE for the past three years:

Return on Net Assets⁽¹⁾ & Equity⁽¹⁾ (%)

(1) See Non-GAAP Financial Measures section.

Return on net assets employed ("RONA") decreased to 17.1% compared to 17.8% in 2024 and was down compared to 17.7% in 2023. The decrease compared to last year is due to a 5.4% increase in average net assets employed partially offset by a 1.2% increase in EBIT due to the factors previously noted. Additional information on net assets employed for the Canadian Operations and International Operations is on page 14 and page 16 respectively.

Return on average equity ("ROE") decreased to 18.2% compared to 19.3% in 2024 due to the impact of higher average equity mainly related to an increase in retained earnings compared to last year partially offset by a 1.9% increase in net earnings. Further information on shareholders' equity is provided in the consolidated statements of changes in shareholders' equity in the consolidated financial statements.

Total Long-Term Liabilities Consolidated total long-term liabilities for the past three years is summarized in the following table:

(\$ in thousands)	2025	2024	2023
Total long-term liabilities	\$ 479,596	\$ 457,937	\$ 439,579

Consolidated long-term liabilities increased \$21.7 million or 4.7% to \$479.6 million compared to 2024 and were up \$40.0 million or 9.1% from 2023.

The increase in long-term liabilities compared to 2024 and 2023 is largely due to higher long-term debt resulting from an increase in amounts drawn on revolving loan facilities and an increase in lease liabilities and other long-term liabilities. An increase in defined benefit plan obligations and the impact of foreign exchange on the translation of U.S. denominated liabilities compared to 2023 were also factors. Additional information on long-term debt, lease liabilities and defined benefit plan obligations is provided in Note 12, Note 8 and Note 13 respectively to the consolidated financial statements.

Canadian Operations

FINANCIAL PERFORMANCE

Canadian Operations results for the year are summarized by the key performance indicators used by management as follows:

Key Performance Indicators

(\$ in thousands)	2025	2024	2023
Sales	\$ 1,468,863	\$ 1,475,039	\$ 1,418,961
Same store sales % increase/(decrease)	(1.0)%	5.8 %	5.7 %
EBITDA ⁽¹⁾	\$ 224,262	\$ 223,546	\$ 204,089
Earnings from operations	\$ 145,968	\$ 146,875	\$ 133,909
Return on net assets ⁽¹⁾	19.8 %	21.0 %	19.8 %

(1) See Non-GAAP Financial Measures section.

Sales Canadian Operations sales decreased \$6.2 million or 0.4% to \$1.469 billion compared to \$1.475 billion in 2024 but were up \$49.9 million or 3.5% compared to 2023. The decrease in sales compared to 2024 was due to a decrease in same store sales and lower wholesale food sales. These factors were partially offset by higher airline revenue and pharmacy sales compared to last year.

Food sales accounted for 66.7% of total Canadian Operations sales compared to 67.0% last year. The balance was made up of general merchandise and other sales at 33.3% (33.0% in 2024). Other sales consist primarily of airline revenue, financial services revenue, fuel and pharmacy.

Food sales decreased by 0.9% from 2024 but were up 3.7% compared to 2023. Same store food sales were flat for the year compared to strong increases of 6.1% in 2024 and 5.9% in 2023. On a quarterly basis, same store food sales increased 5.1% in the first quarter but decreased 1.5%, 1.2% and 1.8% in the second, third and fourth quarter respectively largely due to the elimination of the Inuit Child First Initiative food voucher program beginning in the second quarter and a decrease in distribution of funding from Jordan's Principle programs. These factors were partially offset by the impact of higher food cost inflation.

General merchandise sales decreased 6.1% from 2024 and were down 2.3% compared to 2023. Same store sales in 2025 decreased 5.6%, compared to a 4.3% increase in 2024 and a 5.3% increase in 2023. On a quarterly basis, same store general merchandise sales decreased 0.9%, 3.5%, 11.1% and 6.6% in the last four quarters respectively.

Further information on food and general merchandise same store sales is provided in the Same Store Sales section below.

Other sales increased 5.6% from 2024 and were up 7.1% compared to 2023. The increase in sales compared to 2024 and 2023 was mainly due to higher airline revenue related to an increase in third-party cargo volumes and higher passenger-related revenues. An increase in pharmacy sales was also a factor.

Sales Blend The table below shows the sales blend for the Canadian Operations over the past three years:

	2025	2024	2023
Food	66.7 %	67.0 %	66.6 %
General merchandise and other	33.3 %	33.0 %	33.4 %

Same Store Sales Canadian Operations same store sales for the past three years are shown in the following table. Sales in 2025 were negatively impacted by a decrease in the distribution of funding to individuals from First Nations Child and Family Services programs, including the elimination of the Inuit Child First food voucher program and reduced payments from Jordan's Principle programs, that help provide greater access to nutritious food. A decrease in First Nations Drinking Water Settlements payments to individuals compared to last year and the impact of wildfire-related community evacuations in 2025 were also factors. Sales in 2024 were positively impacted by increased consumer demand in certain communities arising from payments to individuals from First Nations Drinking Water Claim Settlements and from First Nations Child and Family Services programs, including Jordan's Principle and Inuit Child First programs. Sales in 2023 were positively impacted by government inflation relief payments to individuals to help mitigate higher cost of living. The decrease in general merchandise same store sales in 2025 was due to lower First Nations Drinking Water Settlement payments and the impact of consumers allocating more of their spending to food and reduced purchases of general merchandise as a result of the decrease in funding for the Inuit Child First and Jordan's Principle programs.

Same Store Sales

(% increase/(decrease))	2025	2024	2023
Food	0.0 %	6.1 %	5.9 %
General merchandise (GM)	(5.6)%	4.3 %	5.3 %
Total food & GM sales	(1.0)%	5.8 %	5.7 %

Gross Profit Gross profit dollars increased 0.6% compared to last year as the impact of lower sales was more than offset by an increase in the gross profit rate largely related to changes in sales blend, including the impact of lower wholesale food sales and the positive impact of our Next 100 work, including refinements of our merchandise assortment and procurement. These factors were partially offset by higher inventory shrink compared to last year.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") increased 1.0% from 2024 and were up 38 basis points as a percentage of sales. The increase in Expenses is primarily due to higher staff costs related to inflationary and minimum wage increases, higher depreciation, an investment in staff resources and an increase in technology costs to support the Next 100 operational excellence work, and a \$3.7 million increase in one-time costs related to our Next 100 work. These factors were partially offset by lower share-based compensation costs and annual incentive plan expense compared to last year. Excluding the impact of share-based compensation costs and the Next 100-related one-time costs, Expenses increased 0.3% compared to last year and were up 20 basis points as a percentage to sales.

Earnings from Operations (EBIT) and EBITDA⁽¹⁾ Earnings from operations decreased \$0.9 million or 0.6% to \$146.0 million compared to \$146.9 million in 2024 but were up \$12.1 million or 9.0% compared to \$133.9 million in 2023. Earnings from operations as a percentage of sales was flat to last year at 10.0% but up compared to 9.4% in 2023. EBITDA⁽¹⁾ increased \$0.7 million or 0.3% to \$224.3 million compared to \$223.5 million last year and was up \$20.2 million or 9.9% compared to 2023. EBITDA as a percentage of sales was 15.3% compared to 15.2% in 2024 and 14.4% in 2023. The change in EBIT and EBITDA compared to 2024 and 2023 was due to the sales, gross profit and Expense factors previously noted. Adjusted EBITDA⁽¹⁾, which excludes the impact of share-based compensation, Next 100 one-time costs and the Fox Lake store fire loss in 2023, increased \$3.4 million or 1.4% compared to last year and was up \$19.6 million or 9.0% compared to 2023. The impact of the Next 100 one-time costs was more than offset by higher gross profit, labour productivity gains and other cost savings from the Next 100 initiatives.

Canadian EBIT & EBITDA⁽¹⁾ Margins (% of sales)

(1) See Non-GAAP Financial Measures section.

Net Assets Employed Net assets employed increased 6.6% to \$756.4 million compared to \$709.9 million last year and were up 12.4% compared to \$672.8 million in 2023 as summarized in the following table:

(\$ in millions at the end of the fiscal year)	2025	2024	2023
Accounts receivable	88.1	99.0	103.9
Inventories	199.8	186.1	178.3
Property and equipment	\$ 486.9	\$ 457.7	\$ 417.5
Right-of-use assets	60.4	60.6	62.0
Other assets	129.2	111.9	105.0
Liabilities	(208.0)	(205.4)	(193.9)
Net assets employed	\$ 756.4	\$ 709.9	\$ 672.8

The increase in property and equipment compared to last year and 2023 was largely due to investments in stores, including store renovations, fixtures and equipment replacements, investments in staff housing and an increase in property and equipment in NSA mainly due to the purchase a PC-12 aircraft and the construction of a hangar in Thunder Bay, Ontario.

Inventory increased \$13.7 million or 7.4% compared to 2024 and was up \$21.5 million or 12.1% compared to 2023 mainly due to the impact of higher cost inflation and an increase in centre store grocery and motorsports inventory. Average inventory levels in 2025 increased \$15.6 million or 8.4% compared to 2024 and were up \$15.3 million or 8.3% compared to 2023. Inventory turnover decreased to 4.8 times compared to 5.2 times last year and 4.9 times in 2023.

Accounts receivable decreased \$10.9 million or 11.0% compared to last year and were down \$15.8 million or 15.2% compared to 2023. The decrease compared to last year and 2023 is substantially due to a decrease in consumer and commercial account receivable. Further information on accounts receivable is provided in Note 5 to the consolidated financial statements. Average accounts receivable decreased \$3.0 million or 3.1% compared to 2024 and were down \$5.8 million or 5.9% compared to 2023.

Other assets increased \$17.3 million or 15.5% compared to last year and were up \$24.2 million or 23.0% compared to 2023. The increase compared to last year and 2023 is largely due to an increase in cash, deferred tax assets and defined benefit plan assets. These factors were partially offset by a decrease in prepaid expenses compared to 2024. Further information on deferred tax assets and liabilities is provided in Note 10 to the consolidated financial statements and further information on defined benefit plan assets and obligations is provided in Note 11 and Note 13 to the consolidated financial statements.

Liabilities increased \$2.6 million or 1.3% from 2024 and were up \$14.1 million or 7.3% compared to 2023. The increase compared to 2024 is primarily due to an increase in income tax payable and asset retirement obligations partially offset by a decrease in accounts payable and accrued liabilities mainly related to the timing of payments. The increase compared to 2023 is largely due to an increase in accounts payable and accrued expenses and higher asset retirement obligations and defined benefit plan obligations.

Return on Net Assets (RONA⁽¹⁾) The return on net assets employed for Canadian Operations decreased to 19.8% from 21.0% in 2024 but was flat compared to 19.8% in 2023. The decrease compared to last year is due to a 0.6% decrease in EBIT and a \$35.2 million or 5.0% increase in average net assets due to the factors previously noted.

Canadian Return on Net Assets⁽¹⁾

(1) See Non-GAAP Financial Measures section.

International Operations

(Stated in U.S. dollars)

FINANCIAL PERFORMANCE

International Operations results for the year are summarized by the key performance indicators used by management as follows:

Key Performance Indicators

(\$ in thousands)	2025	2024	2023
Sales	\$ 811,312	\$ 799,496	\$ 779,559
Same store sales % increase/ (decrease)	2.1 %	2.4 %	(1.1)%
EBITDA ⁽¹⁾	\$ 77,861	\$ 73,770	\$ 71,893
Earnings from operations	\$ 47,463	\$ 45,496	\$ 45,903
Return on net assets ⁽¹⁾	13.1 %	13.2 %	14.5 %

(1) See Non-GAAP Financial Measures section.

Sales International sales increased 1.5% to \$811.3 million compared to \$799.5 million in 2024, and were up \$31.8 million or 4.1% compared to 2023. The increase in sales compared to 2024 and 2023 was due to same store sales gains and the impact of new stores. These factors were, partially offset by lower retail gasoline sales and wholesale sales. Same store sales increased 2.1% compared to a 2.4% increase in 2024 and a 1.1% decrease in 2023. Food sales accounted for 91.5% (90.9% in 2024) of total sales with the balance comprised of general merchandise and other sales at 8.5% (9.1% in 2024). Other sales consist primarily of retail fuel sales and financial services revenue.

Food sales increased 2.1% from 2024 and were up 4.9% compared to 2023 due to new stores and the impact of higher inflation. Same store food sales were up 2.5% compared to a 2.3% increase in 2024 and a 0.3% increase in 2023. On a quarterly basis, same store food sales increased 2.6%, 1.1%, 1.0% and 5.2% in the four quarters respectively.

General merchandise sales decreased 2.5% from 2024 and were down 0.9% from 2023. On a same store basis, general merchandise sales were down 1.3% compared to a 3.5% increase in 2024 and a 13.3% decrease in 2023. On a quarterly basis, same store general merchandise sales increased 5.2% in the first quarter, followed by decreases of 11.2% and 9.9% in the second and third quarter respectively, and an increase of 9.5% in the fourth quarter.

Other sales, which consist primarily of retail fuel sales and financial services revenue, were down 34.6% from 2024 and down 39.1% from 2023 substantially due to lower retail fuel sales resulting from discontinuing fuel dispensing in one store.

Sales Blend The table below shows the sales blend for the International Operations over the past three years:

	2025	2024	2023
Food	91.5 %	90.9 %	90.7 %
General merchandise and other	8.5 %	9.1 %	9.3 %

Same Store Sales International Operations same store sales for the past three years are shown in the following table. Same store sales in 2025 were positively impacted by improved tourism in certain Caribbean markets and market share gains in certain Alaska markets. These factors were partially offset by the impact of a decrease in the Alaska Permanent Fund Dividend ("PFD") to \$1,000 in 2025 compared to \$1,702 in 2024 and \$1,312 in 2023, poor commercial fishing in certain Alaska markets and weaker economic conditions in certain islands in the South Pacific.

Same Store Sales

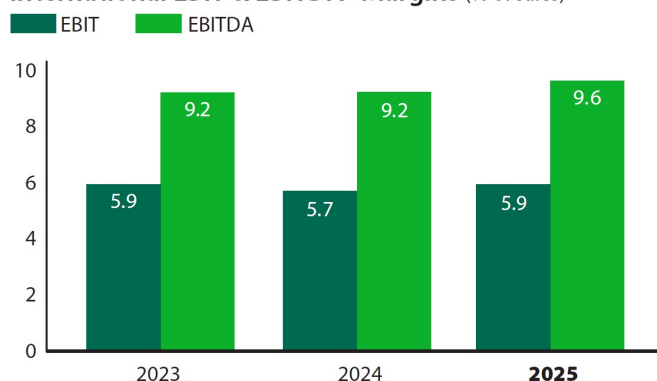

(% increase/(decrease))	2025	2024	2023
Food	2.5 %	2.3 %	0.3 %
General merchandise (GM)	(1.3)%	3.5 %	(13.3)%
Total food & GM sales	2.1 %	2.4 %	(1.1)%

Gross Profit Gross profit dollars increased 2.0% due to the impact of higher sales and an increase in the gross profit rate largely related to changes in sales blend and positive changes from our Next 100 work. These factors were partially offset by higher markdowns and inventory shrink compared to last year.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") increased 1.4% compared to last year but were down 2 basis points to last year as a percentage of sales. The increase in Expenses is mainly due to higher depreciation, the impact of new stores, higher staff costs related to inflationary wage increases and an increase in information technology costs to support the Next 100 operational excellence work. A \$1.2 million increase in professional fees and one-time costs related to our Next 100 work was also a factor. These factors were partially offset by lower share-based compensation costs compared to last year.

Earnings from Operations (EBIT) and EBITDA⁽¹⁾ Earnings from operations increased \$2.0 million or 4.3% to \$47.5 million compared to \$45.5 million in 2024 and were up \$1.6 million or 3.4% compared to \$45.9 million in 2023 due to the sales, gross profit and Expense factors previously noted. Earnings from operations as a percentage of sales was 5.9% compared to 5.7% last year. EBITDA⁽¹⁾ increased \$4.1 million or 5.5% to \$77.9 million and was 9.6% as a percentage of sales compared to 9.2% in 2024. Adjusted EBITDA⁽¹⁾, which excludes the impact of share-based compensation and Next 100 one-time costs, increased \$4.9 million or 6.5% to \$81.4 million compared to \$76.5 million last year. The impact of the Next 100 one-time costs was more than offset by higher gross profit, labour productivity gains and other cost savings from the Next 100 initiatives.

International EBIT & EBITDA⁽¹⁾ Margins (% of sales)

(1) See Non-GAAP Financial Measures section.

Net Assets Employed International Operations net assets employed of \$371.2 million increased \$21.0 million or 6.0% compared to last year and were up \$44.3 million or 13.6% compared to 2023 as summarized in the following table:

(\$ in millions at the end of the fiscal year)	2025	2024	2023
Property and equipment	\$ 187.5	\$ 181.0	\$ 169.4
Right-of-use assets	43.1	39.9	39.4
Inventories	103.3	107.9	100.7
Accounts receivable	15.2	13.8	13.2
Other assets	94.3	80.9	73.2
Liabilities	(72.2)	(73.3)	(69.0)
Net assets employed	\$ 371.2	\$ 350.2	\$ 326.9

Property and equipment increased \$6.5 million or 3.6% compared to last year primarily due to investments in new stores, store renovations and fixtures and equipment replacements. In 2025, investments in new stores included a store in Utqiagvik, Alaska which doubles the number of AC stores serving that community. The construction of a new store in Guam, which is expected to open later in 2026, was also a factor.

Inventories decreased \$4.6 million or 4.3% compared to last year but were up \$2.6 million or 2.6% from 2023 as higher inventory earlier in 2025 was reduced by the end of the year. Average inventory levels in 2025 increased \$6.2 million or 5.9% compared to 2024 and were up \$13.7 million or 14.0% compared to 2023. Inventory turnover decreased to 5.2 times compared to 5.4 times in 2024, and was down compared to 5.7 times in 2023.

Other assets increased \$13.4 million or 16.6% compared to last year and were up \$21.1 million or 28.8% compared to 2023 primarily due to an increase in cash and deferred tax assets.

Liabilities decreased \$1.1 million or 1.5% compared to 2024 but were up \$3.2 million or 4.6% compared to 2023 mainly due to trade accounts payable related to the timing of payments.

Return on Net Assets (RONA⁽¹⁾) The return on net assets employed for International Operations decreased to 13.1% compared to 13.2% in 2024 due to a 4.3% increase in EBIT and a \$16.2 million or 4.7% increase in average net assets.

International Return on Net Assets ⁽¹⁾

Consolidated Liquidity and Capital Resources

The following table summarizes the major components of cash flow:

(\$ in thousands)	2025	2024	2023
Cash provided by (used in):			
Operating activities before change in non-cash working capital and other	\$ 273,011	\$ 274,448	\$ 256,402
Change in non-cash working capital	5,182	(14,276)	(23,233)
Change in other non-cash items	1,402	453	(2,742)
Operating activities	279,595	260,625	230,427
Investing activities	(137,845)	(131,004)	(107,701)
Financing activities	(115,339)	(119,047)	(128,270)
Effect of foreign exchange	(3,422)	3,452	94
Net change in cash	\$ 22,989	\$ 14,026	\$ (5,450)

Cash from Operating Activities Cash flow from operating activities increased \$19.0 million or 7.3% to \$279.6 million compared to \$260.6 million in 2024 largely due to the change in non-cash working capital mainly related to the change in accounts receivable, inventories and prepaid expenses compared to the prior year. Further information on working capital is provided in Note 22 to the consolidated financial statements and in the Canadian and International Net Assets Employed sections on pages 14 and 16 respectively.

Over the past three years, cash flow from operating activities has increased 15.2% on a compound annual basis. Cash flow from operating activities and unutilized credit available on existing loan facilities are expected to be sufficient to fund operating requirements, pension plan contributions, sustaining and planned growth-related capital expenditures as well as anticipated dividends during 2026.

Cash Flow from Operating Activities (\$ in millions)

Cash Used in Investing Activities Net cash used in investing activities was \$137.8 million compared to \$131.0 million in 2024 and \$107.7 million in 2023. The increase compared to 2024 and 2023 is largely due to investments in stores, including store renovations, equipment replacements and new stores. Investments in aircraft, a hangar in Thunder Bay, Ontario, staff housing and information technology were also factors. Further information on purchases of property and equipment and intangible asset additions is provided in Note 7 and Note 9 to the consolidated financial statements.

Net investing in Canadian Operations was \$97.8 million compared to \$87.5 million, net of \$15.0 million in proceeds from the promissory note receivable in 2024 and \$59.4 million, net of \$15.0 million in proceeds from the promissory note receivable in 2023. A summary of the Canadian Operations investing activities is included in net assets employed on page 14.

Investing in International Operations was \$40.0 million compared to \$43.5 million in 2024 and \$48.3 million in 2023. A summary of the International Operations investing activities is included in net assets employed on page 16.

The following table summarizes the number of stores and selling square footage under North West's various retail banners at the end of the fiscal year:

	Number of Stores		Selling square footage	
	2025	2024	2025	2024
Northern	121	121	701,484	701,484
NorthMart	5	5	128,185	128,185
Quickstop	34	34	46,846	46,846
Giant Tiger	5	5	90,470	90,470
Alaska Commercial	35	34	284,836	277,519
Cost-U-Less	11	12	312,960	318,846
Riteway Food Market	9	9	66,733	61,899
Other Formats	10	10	68,037	68,037
Total at year-end	230	230	1,699,551	1,693,286

In Canadian Operations, total selling square footage was the same as last year at 1,022,735. In International Operations, an AC store opened in Utqiagvik, Alaska and a small CUL store in Nadi, Fiji was closed. Total selling square footage in International Operations increased to 676,816 compared to 670,551 last year.

Cash Used in Financing Activities Net cash used in financing activities decreased to \$115.3 million compared to \$119.0 million in 2024 and \$128.3 million in 2023 primarily due to changes in long-term debt related to amounts drawn on revolving loan facilities and share purchases under the normal course issuer bid ("NCIB"). Further information on dividends, the NCIB, interest and long-term debt is provided in the following sections.

Shareholder Dividends The Company paid dividends of \$77.5 million or \$1.62 per share compared to \$75.5 million or \$1.58 per share in 2024. The following table shows the quarterly cash dividends per share paid for the past three years:

	2025	2024	2023
First Quarter	\$ 0.40	\$ 0.39	\$ 0.38
Second Quarter	0.40	0.39	0.38
Third Quarter	0.41	0.40	0.39
Fourth Quarter	0.41	0.40	0.39
Total	\$ 1.62	\$ 1.58	\$ 1.54

The payment of dividends on the Company's common shares is subject to the approval of the Board of Directors and is based on, among other factors, the financial performance of the Company, its current and anticipated future business needs and the satisfaction of solvency tests imposed by the Canada Business Corporations Act ("CBCA") for the declaration of dividends. The dividends were designated as eligible dividends in accordance with the provisions of the Canadian Income Tax Act.

The following table shows dividends paid in comparison to cash flow from operating activities for the past three years:

	2025	2024	2023
Dividends	\$ 77,460	\$ 75,525	\$ 73,533
Cash flow from operating activities	\$ 279,595	\$ 260,625	\$ 230,427
Dividends as a % of cash flow from operating activities	27.7 %	29.0 %	31.9 %

Dividends as a percentage of cash flow from operating activities decreased to 27.7% compared to 29.0% in 2024, and was down compared to 31.9% in 2023, substantially due to the changes in cash flow from operating activities as previously noted. Dividends as a percentage of cash flow from operating activities has averaged 31.9% over the past five years.

The Company has a well established track record of increasing dividends. Over the past ten years, the dividend has increased at a compound annual growth rate ("CAGR") of 3.0% as shown in the following graph:

On April 8, 2026, the Board of Directors approved a quarterly dividend of \$0.41 per share to shareholders of record on April 15, 2026 and to be paid on April 24, 2026.

Normal Course Issuer Bid On November 20, 2025, the Company renewed its Normal Course Issuer Bid ("NCIB"). Under the NCIB, the Company may acquire up to a maximum of 4,752,020 of its shares, or approximately 10% of its float for cancellation over the following 12 months. During the year ended January 31, 2026, the Company purchased 309,564 common shares having a book value of \$1.2 million for cash consideration of \$15.0 million. The excess of the purchase price over the book value of the shares of \$13.8 million was charged to retained earnings. All shares purchased were cancelled. During the year ended January 31, 2025, the Company did not purchase any common shares.

In connection with the NCIB, the Company has established an automatic securities purchase plan with its designated broker to facilitate the purchase of shares under the NCIB at times when the Company would ordinarily not be permitted to purchase its shares due to regulatory restrictions or self-imposed blackout periods. Under the plan, before entering a self-imposed blackout period, the Company may, but is not required to, ask the designated broker to make purchases under the NCIB within specific parameters.

Sources of Liquidity At January 31, 2026, the Company has US\$70.0 million in senior notes it issued in two tranches; US\$35.0 million due June 16, 2027 with a fixed interest rate of 2.88% and US\$35.0 million due June 16, 2032 with a fixed interest rate of 3.09%. Interest is payable semi-annually on both tranches. The Company also has outstanding \$100.0 million senior notes that mature September 26, 2029 and have a fixed interest rate of 3.74%. All of the senior notes are secured by certain assets of the Company and rank *pari passu* with the Company's other senior debt comprised of the \$400.0 million loan facilities and the US\$52.0 million loan facilities (collectively "Senior Debt"). The US\$70.0 million senior notes have been designated as a hedge against the U.S. dollar investment in the International Operations. For more information on the senior notes and financial instruments, see Note 12 and Note 16 to the consolidated financial statements.

Canadian Operations have \$400.0 million in committed, revolving loan facilities that mature on March 1, 2027. These loan facilities bear a floating rate of interest based on the Canadian Overnight Repo Rate or the Canadian prime interest rate. These facilities are secured by certain assets of the Company and rank *pari passu* with the Company's other Senior Debt. At January 31, 2026, the Company had \$116.3 million outstanding on these facilities (January 31, 2025 - \$94.5 million). In April 2026, the Company extended the maturity date on these facilities to April 8, 2031.

Canadian Operations also have US\$52.0 million committed, revolving loan facilities that mature on March 1, 2027. These loan facilities, which bear interest at SOFR plus a spread, are secured by certain assets of the Company and rank *pari passu* with the Company's other Senior Debt. At January 31, 2026, the Company had US\$NIL outstanding on these facilities (January 31, 2025 - US\$NIL). In April 2026, the Company extended the maturity date on these facilities to April 8, 2031.

International Operations have a US\$50.0 million revolving loan facility that matures January 25, 2028. This facility bears a floating rate of interest based on SOFR plus a spread and is secured by certain accounts receivable and inventories of the International Operations. At January 31, 2026, the International Operations had US\$NIL outstanding on this facility (January 31, 2025 - US\$NIL).

The loan facilities and senior notes contain covenants and restrictions including the requirement to meet certain financial ratios and financial condition tests. The financial covenants include an interest coverage ratio and a leverage test. At January 31, 2026, the Company is in compliance with the financial covenants under these facilities. Current and forecasted debt levels are regularly monitored for compliance with debt covenants.

Interest Costs and Coverage

	2025	2024	2023
Coverage ratio	12.1	11.5	10.3
Earnings from operations (\$ in millions)	\$ 212.0	\$ 209.5	\$ 195.9
Interest (\$ in millions)	\$ 17.5	\$ 18.3	\$ 19.1

The coverage ratio of earnings from operations ("EBIT") to interest expense increased to 12.1 times compared to 11.5 times in 2024 and 10.3 times in 2023. The increase in the interest coverage ratio compared to 2024 is due to a \$0.8 million or 4.4% decrease in interest expense and a 1.2% increase in consolidated EBIT as previously noted. Additional information on interest expense is provided in Note 20 to the consolidated financial statements.

Contractual Obligations and Other Commitments

Contractual obligations of the Company at January 31, 2026 are listed in the chart below:

(\$ in thousands)	Total	0-1 Year	2-3 Years	4-5 Years	6 Years+
Long-term debt ⁽¹⁾	\$311,556	\$ —	\$163,903	\$100,000	\$47,653
Lease payments	163,015	26,264	42,956	29,990	63,805
Other liabilities ⁽²⁾	18,427	2,980	15,447	—	—
Total	\$492,998	\$29,244	\$222,306	\$129,990	\$111,458

(1) In April 2026, the Company refinanced the operating loan facilities with their existing lenders and extended their maturities to April 8, 2031.

(2) At year-end, the Company had additional long-term liabilities of \$45.6 million which include defined benefit plan obligations, deferred income tax liabilities and asset retirement obligations. These liabilities have not been included as the timing and amount of the future payments are uncertain.

Post-Employment Benefits The Company sponsors defined benefit and defined contribution pension plans covering the majority of Canadian employees. The Company recorded net actuarial gains on defined benefit pension plans of \$2.5 million, net of income taxes in other comprehensive income. This compares to net actuarial gains on defined benefit pension plans of \$3.6 million in 2024 and \$5.8 million in 2023, net of income taxes in other comprehensive income. These gains in other comprehensive income were immediately recognized in retained earnings. Actuarial gains and losses occur primarily due to changes in the discount rate used to calculate pension liabilities and returns on pension plan assets.

In 2026, the Company will be not be required to contribute to the defined benefit pension plans. In addition to cash funding, a portion of the pension plan obligation may be settled by the issuance of a letter of credit in accordance with pension legislation. In 2025 and 2024, the Company's defined benefit pension plans were in a surplus position and there were no cash contributions required compared to \$0.8 million in 2023. The actual amount of the contribution may be different from the estimate based on actuarial valuations, plan investment performance, volatility in discount rates, regulatory requirements and other factors. The Company expects to contribute approximately \$7.8 million to the defined contribution pension plan and U.S. employees savings plan in 2026 compared to \$7.6 million in 2025 and \$7.4 million in 2024. Additional information regarding post-employment benefits is provided in Note 13 to the consolidated financial statements.

Director and Officer Indemnification Agreements The Company has agreements with its current and former directors, trustees and officers to indemnify them against charges, costs, expenses, amounts paid in settlement and damages incurred from any lawsuit or any judicial, administrative or investigative proceeding in which they are sued as a result of their service. Due to the nature of these agreements, the Company cannot make a reasonable estimate of the maximum amount it could be required to pay to counterparties. The Company has also purchased directors', trustees' and officers' liability insurance. No amount has been recorded in the consolidated financial statements regarding these indemnification agreements.

Other Indemnification Agreements The Company provides indemnification agreements to counterparties for events such as intellectual property rights infringement, loss or damage to property, claims that may arise while providing services, violation of laws or regulations, or as a result of litigation that might be suffered by the counterparties. The terms and nature of these agreements are based on the specific contract. The Company cannot make a reasonable estimate of the maximum amount it could be required to pay to counterparties. No amount has been recorded in the consolidated financial statements regarding these agreements.

Additional information on commitments, contingencies and guarantees is provided in Note 24 to the consolidated financial statements.

Related Parties The Company has a 50% ownership interest in a Canadian Arctic shipping company, Transport Nanuk Inc. and purchases freight handling and shipping services from Transport Nanuk Inc. and its subsidiaries. The purchases are based on market rates for these types of services in an arm's length transaction. Additional information on the Company's transactions with Transport Nanuk Inc. is included in Note 25 to the consolidated financial statements.

Letters of Credit In the normal course of business, the Company issues standby letters of credit in connection with defined benefit pension plans, purchase orders and performance guarantees. The aggregate potential liability related to letters of credit is \$18.5 million (January 31, 2025 - \$18.0 million).

Capital Structure The Company's capital management objectives are to deploy capital to provide an appropriate total return to shareholders while maintaining a capital structure that provides the flexibility to take advantage of growth opportunities, sustain existing assets, meet obligations and financial covenants and enhance shareholder value. The capital structure of the Company consists of bank advances, long-term debt and shareholders' equity. The Company manages capital to optimize efficiency through an appropriate balance of debt and equity. In order to maintain or adjust its capital structure, the Company may purchase shares for cancellation pursuant to normal course issuer bids, issue additional shares, borrow additional funds, adjust the amount of dividends paid or refinance debt at different terms and conditions.

The Company's capital structure over the past three years is summarized in the following graph:

On a consolidated basis, the Company had \$311.4 million in debt and \$822.8 million in equity at the end of the year and a debt-to-equity ratio of 0.38:1 compared to 0.37:1 last year. From 2023 to 2025, equity has increased \$117.1 million or 16.6% and debt has increased \$29.9 million or 10.6%. During this same period, the Company has made capital expenditures, including acquisitions and net of promissory note proceeds, of \$378.9 million and has paid dividends of \$226.5 million. This reflects the Company's balanced approach of investing to sustain and grow the business while providing shareholders with an annual cash return.

The debt outstanding at the end of the fiscal year is summarized as follows:

(CAD\$ in thousands at the end of the fiscal year)	2025	2024	2023
CAD\$ senior notes	\$ 100,000	\$ 100,000	\$ 100,000
US\$ senior notes	95,187	101,245	93,701
Canadian loan facilities	116,250	94,531	87,607
Promissory note payable	—	—	268
Total debt	\$ 311,437	\$ 295,776	\$ 281,576

Consolidated debt at the end of the year increased \$15.7 million or 5.3% to \$311.4 million compared to \$295.8 million in 2024, and was up \$29.9 million or 10.6% from \$281.6 million in 2023. The change in debt is substantially due to changes in amounts drawn on the revolving loan facilities and the impact of foreign exchange on the translation of U.S. denominated debt compared to 2024 and 2023. The Company has US\$70.0 million in debt at January 31, 2026 (January 31, 2025 - US\$70.0 million, January 31, 2024 - US\$70.2 million) that is exposed to changes in foreign exchange rates when translated into Canadian dollars. The exchange rate used to translate U.S. denominated debt into Canadian dollars at January 31, 2026 ("2025") was 1.3615 compared to 1.4485 at January 31, 2025 ("2024") and 1.3412 at January 31, 2024 ("2023"). The change in the foreign exchange rate resulted in a \$6.1 million decrease in debt compared to 2024 and a \$1.5 million increase compared to 2023. Average debt outstanding during the year excluding the foreign exchange impact increased \$3.1 million or 1.1% from 2024 but was down \$2.9 million or 1.0% compared to 2023.

Lease liabilities at the end of the fiscal year are summarized as follows:

(CAD\$ in thousands at the end of the fiscal year)	2025	2024	2023
Current portion of lease liability	\$ 20,408	\$ 20,848	\$ 19,408
Non-current lease liabilities	107,105	105,558	104,483
Total lease liabilities	\$ 127,513	\$ 126,406	\$ 123,891

Lease liabilities increased \$1.1 million or 0.9% to \$127.5 million compared to \$126.4 million in 2024 and were up \$3.6 million or 2.9% compared to \$123.9 million in 2023. The increase compared to 2024 and 2023 is due to new leases, net of lease payments. Further information on lease liabilities is provided in Note 8 to the consolidated financial statements.

Shareholders' Equity The Company has an unlimited number of authorized shares and had issued and outstanding shares at January 31, 2026 of 47,629,453 (January 31, 2025 - 47,871,258). The Company has a Share Option Plan that provides for the granting of options to certain officers and senior management. Each option is exercisable into one common share of the Company at a price specified in the option agreement. At January 31, 2026, there were 1,139,513 options outstanding representing 2.4% of the issued and outstanding shares. In addition to share options, there were 369,832 in Performance Share Units ("PSUs") that may be settled by the issuance of shares based on meeting certain performance criteria and 262,531 in Director Deferred Share Units ("DDSUs") that may be settled by the issuance of shares. Further information on share options, PSUs and DDSUs is provided in Note 15 to the consolidated financial statements.

Effective June 12, 2019, the Company amended the rights of its shares to align them with the Canada Transportation Act ("CTA"), as amended by the provisions of the Transportation Modernization Act (Canada). The purpose of these amendments is to increase the permitted level of foreign ownership allowed in respect of Canadian air service from 25% to 49%, subject to certain restrictions.

The Company's share capital is comprised of Variable Voting Shares and Common Voting Shares. The two classes of shares have equivalent rights as shareholders except for voting rights. Holders of Variable Voting Shares are entitled to one vote per share except where (i) the number of outstanding Variable Voting Shares exceeds 49% of the total number of all issued and outstanding Variable Voting Shares and Common Voting Shares, or (ii) the total number of votes cast by or on behalf of the holders of Variable Voting Shares at any meeting on any matter on which a vote is to be taken exceeds 49% of the total number of votes cast at such meeting.

If either of the above-noted thresholds is surpassed at any time, the vote attached to each Variable Voting Share will decrease automatically without further act or formality. Under the circumstances described in paragraph (i) above, the Variable Voting Shares as a class cannot carry more than 49% of the total voting rights attached to the aggregate number of issued and outstanding Variable Voting Shares and Common Voting Shares of the Company. Under the circumstances described in paragraph (ii) above, the Variable Voting Shares as a class cannot, for the given Shareholders' meeting, carry more than 49% of the total number of votes cast at the meeting.

Variable Voting Shares may only be held, beneficially owned or controlled, directly or indirectly, by persons who are not Canadians (within the meaning of the CTA). An issued and outstanding Variable Voting Share is converted into one Common Voting Share automatically and without any further act of the Company or the holder, if such Variable Voting Share becomes held, beneficially owned and controlled, directly or indirectly, otherwise than by way of security only, by a Canadian, as defined in the CTA. Further information on the Company's Variable Voting Shares and Common Voting Shares is provided in the 2026 Management Information Circular which is available on the Company's website at www.northwest.ca or on SEDAR+ at www.sedarplus.ca.

At January 31, 2026, there were 15,717,827 Variable Voting Shares, representing 33.0% of the total shares issued and outstanding. Further information on the Company's share capital is provided in Note 17 to the consolidated financial statements.

Book value per share attributable to shareholders, on a diluted basis, at the end of the year increased to \$16.42 per share compared to \$15.90 per share in 2024. Total shareholders' equity increased \$28.1 million or 3.5% compared to 2024 substantially due to an increase in retained earnings. Further information is provided in the consolidated statements of changes in shareholders' equity in the consolidated financial statements.

QUARTERLY FINANCIAL INFORMATION

Historically, the Company's first quarter sales are typically the lowest and fourth quarter sales are the highest, reflecting consumer buying patterns. Due to the remote location of many of the Company's stores, weather conditions are often more extreme compared to other retailers and can affect sales in any quarter. Net earnings generally follow higher sales, but can be dependent on changes in merchandise sales blend, promotional activity in key sales periods, variability in share-based compensation costs related to changes in the Company's share price and other factors which can affect net earnings.

The following is a summary of selected quarterly financial information:

(\$ thousands)	Q1 ⁽²⁾	Q2	Q3	Q4	Total ⁽²⁾
Sales					
2025	\$ 641,369	\$ 646,977	\$ 634,315	\$ 675,548	\$ 2,598,209
2024	\$ 617,519	\$ 646,487	\$ 637,452	\$ 674,886	\$ 2,576,344
EBITDA⁽¹⁾					
2025	\$ 70,063	\$ 85,152	\$ 88,881	\$ 88,548	\$ 332,644
2024	\$ 67,908	\$ 83,413	\$ 83,445	\$ 90,399	\$ 325,165
Earnings from operations (EBIT)

Net earnings per share - diluted	\$ 0.78	\$ 0.85	\$ 0.71

(1) See Non-GAAP Financial Measures section.

(2) All references to same store sales exclude the foreign exchange impact.

Consolidated Sales Sales for the fourth quarter increased 0.1% to \$675.5 million, which is on top of a 4.9% increase in sales in the fourth quarter last year, as an increase in International Operations sales was largely offset by lower sales in Canadian Operations which were negatively impacted by a decrease in the distribution of funding to individuals from First Nations Child and Family Services programs and a decrease in First Nations Drinking Water Settlement payments compared to last year. Excluding the foreign exchange impact, consolidated sales increased 0.5% with food sales increasing 1.0% and general merchandise and other sales decreasing 0.7% as a decrease in same store general merchandise sales was partially offset by higher airline revenue. Same store sales were up 0.5%⁽²⁾ compared to the fourth quarter last year, with Canadian Operations same stores sales down 2.8% and International Operations same store sales up 5.6% compared to last year. On a same store basis, food sales⁽²⁾ increased 1.1% and general merchandise sales⁽²⁾ decreased 2.7%.

Gross Profit Gross profit decreased 2.0% due to a 74 basis point decrease in gross profit rate compared to last year. The decrease in gross profit rate was mainly due to changes in sales blend, including changes in aircraft utilization in NSA compared to last year. Higher markdowns and inventory shrink in stores and the impact of higher maintenance costs in NSA were also factors. These factors were partially offset by the positive impact of Next 100 work including refinements of our merchandise assortment and procurement.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") decreased \$1.9 million or 1.1% compared to last year and were down 30 basis points as a percentage to sales. The decrease in Expenses is largely due to lower annual incentive plan costs, partially offset by an increase in share-based compensation costs and higher depreciation expense. The impact of \$1.3 million in Next 100 professional fees and one-time costs compared to \$1.0 million last year was also a factor. Excluding the impact of share-based compensation costs and the Next 100-related one-time costs, Expenses decreased \$4.9 million or 2.9% compared to last year and were down 76 basis points as a percentage to sales.

Earnings from operations and EBITDA⁽¹⁾ Earnings from operations or earnings before interest and taxes ("EBIT") decreased \$2.9 million or 4.8% to \$57.8 million compared to a 17.5% increase in EBIT to \$60.7 million last year and EBITDA⁽¹⁾ decreased \$1.9 million or 2.0% to \$88.5 million compared to a 14.2% increase in EBITDA to \$90.4 million last year due to the sales, gross profit and Expense factors previously noted. Adjusted EBITDA⁽¹⁾, which excludes share-based compensation costs and Next 100 one-time costs, increased \$1.2 million or 1.3% compared to last year and as a percentage to sales was 13.9% compared to 13.7% last year. The impact of the Next 100 one-time costs was more than offset by higher gross profit, labour productivity gains and other cost savings from the Next 100 initiatives.

Interest Expense Interest expense was flat to last year at \$4.7 million as the impact of lower average interest rates was offset by an increase in average long-term debt. Further information on debt is provided in Note 12 to the consolidated financial statements.

Income Tax Expense Income tax expense was \$13.6 million compared to \$13.2 million last year and the consolidated effective tax rate was 25.6% compared to 23.6% last year. The increase in the effective income tax rate was due to the blend of earnings across the various tax rate jurisdictions including an increase in global minimum tax expense and withholding tax. Further information on income tax expense is provided in Note 10 to the consolidated financial statements.

Net Earnings Consolidated net earnings decreased \$3.3 million or 7.7% to \$39.5 million compared to a very strong increase in net earnings in the fourth quarter last year that were up 18.9% to \$42.8 million. Net earnings attributable to shareholders were \$37.5 million and diluted earnings per share were \$0.78 per share compared to \$0.85 per share last year as earnings gains in International Operations were more than offset by lower earnings in Canadian Operations due to the factors previously noted. Adjusted net earnings⁽¹⁾, which excludes the impact of the after-tax share-based compensation costs and Next 100 one-time costs, decreased \$1.1 million or 2.5% compared to last year.

CANADIAN OPERATIONS FOURTH QUARTER

Canadian Operations results for the fourth quarter are summarized by the following key performance indicators:

Key Performance Indicators

(\$ in thousands)	2025	2024	2023
Sales	\$ 377,392	\$ 385,169	\$ 375,950
Same store sales % change			
Food	(1.8)%	7.6 %	4.4 %
General Merchandise	(6.6)%	3.4 %	1.4 %
Total	(2.8)%	6.7 %	3.7 %
EBITDA ⁽¹⁾	\$ 59,762	\$ 63,248	\$ 55,253
Earnings from operations	\$ 39,861	\$ 43,865	\$ 37,166

(1) See Non-GAAP Financial Measures section.

Sales Canadian Operations sales decreased 2.0% to \$377.4 million compared to \$385.2 million last year due to a 2.8% decrease in same store sales compared to strong same store sales gains of 6.7% in the fourth quarter last year. Food sales decreased 2.1% due to a 1.8% decrease in same store sales and lower wholesale food sales. General merchandise and other sales decreased 1.9% compared to last year as a 6.6% decrease in general merchandise same store sales was partially offset by higher airline revenue and pharmacy sales compared to the fourth quarter last year. Sales in the quarter were negatively impacted by a decrease in the distribution of funding to individuals from First Nations Child and Family Services programs, including the elimination of the Inuit Child First Initiative food voucher program and reduced distributions from Jordan's Principle programs. A decrease in payments to individuals from First Nations Drinking Water Claim Settlements compared to last year was also a factor. These factors were partially offset by the positive impact on consumer demand arising from Jordan's Principle Child in Care Settlement payments.

Gross Profit Gross profit decreased 2.4% due to lower sales and a decrease in gross profit rate largely related to changes in sales blend, including changes in aircraft utilization in NSA compared to last year. Higher maintenance costs in NSA and an increase in markdowns and inventory shrink in stores were also factors. These factors were partially offset by the positive impact of Next 100 work including refinements of our merchandise assortment and procurement.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") increased 0.4% and were up 68 basis points as a percentage to sales compared to the fourth quarter last year primarily due to an increase in share-based compensation costs and higher depreciation expense and the impact of the Next 100 professional fees and one-time costs previously noted. These factors were largely offset by lower annual incentive plan costs compared to last year.

Earnings from Operations (EBIT) and EBITDA⁽¹⁾ Canadian fourth quarter earnings from operations decreased \$4.0 million or 9.1% to \$39.9 million compared to very strong earnings gains last year which were up 18.0% to \$43.9 million last year and EBITDA⁽¹⁾ decreased \$3.5 million or 5.5% to \$59.8 million compared to a 14.5% increase to \$63.2 million in the fourth quarter last year due to the sales, gross profit and Expense factors previously noted. Adjusted EBITDA⁽¹⁾, which excludes the impact of share-based compensation costs and Next 100 one-time costs, decreased \$0.7 million or 1.1% compared to last year but was up \$4.9 million or 8.4% compared to 2023.

INTERNATIONAL OPERATIONS FOURTH QUARTER

(Stated in U.S. dollars)

International Operations results for the fourth quarter are summarized by the following key performance indicators:

Key Performance Indicators

(\$ in thousands)	2025	2024	2023
Sales	\$ 214,921	\$ 203,966	\$ 197,750
Same store sales % change			
Food	5.2 %	2.7 %	(0.9)%
General Merchandise	9.5 %	10.8 %	(11.2)%
Total	5.6 %	3.5 %	(2.0)%
EBITDA ⁽¹⁾	\$ 20,750	\$ 19,127	\$ 17,449
Earnings from operations	\$ 12,960	\$ 11,893	\$ 10,755

(1) See Non-GAAP Financial Measures section.

Sales International Operations fourth quarter sales increased 5.4% to \$214.9 million compared to \$204.0 million in the fourth quarter last year due to a 5.6% increase in same store sales, which is on top of a 3.5% increase in same store sales last year. The increase in same store sales was partially offset by lower wholesale sales. Food sales increased 5.2% and were up 5.2% on a same store basis compared to a 2.7% same store sales increase last year. General merchandise sales increased 7.5% and were up 9.5% on a same store basis compared to an increase in same store sales of 10.8% last year mainly due to higher motorsports sales driven by a strong in-stock position. Sales continue to be positively impacted by improved economic conditions in tourism-dependent markets in the Caribbean and market share gains in certain Alaska communities which more than offset the impact of weaker economic conditions in some markets in the South Pacific.

Gross Profit Gross profit increased 0.9% compared to last year as the impact of higher sales was largely offset by a lower gross profit rate compared to last year. The decrease in gross profit rate is largely due to changes in sales blend and higher markdowns and inventory shrink compared to last year.

Selling, Operating and Administrative Expenses Selling, operating and administrative expenses ("Expenses") decreased 1.1% compared to last year as store labour productivity gains from our Next 100 work and lower annual incentive plan costs were partially offset by higher share-based compensation costs.

Earnings From Operations ("EBIT") and EBITDA⁽¹⁾ Earnings from operations increased 9.0% to \$13.0 million on top of a 10.6% increase in EBIT to \$11.9 million last year and EBITDA⁽¹⁾ increased 8.5% to \$20.8 million on top of a 9.6% increase in EBITDA to \$19.1 million in the fourth quarter last year due to the sales, gross profit and Expense factors previously noted. Adjusted EBITDA⁽¹⁾, which excludes the impact of share-based compensation and Next 100 one-time costs, increased \$1.9 million or 9.4% compared to last year and was up \$3.6 million or 19.9% compared to 2023.

CONSOLIDATED CASH FLOWS FOURTH QUARTER

The following table summarizes the major components of the fourth quarter cash flow:

(\$ in thousands)	2025	2024	2023
Operating activities	\$ 126,934	\$ 108,282	\$ 90,481
Investing activities	(46,774)	(52,627)	(41,606)
Financing activities	(71,042)	(57,177)	(66,916)
Effect of foreign exchange	(1,775)	1,921	(1,450)
Net change in cash	7,343	399	(19,491)
Cash, beginning of period	83,031	66,986	72,850
Cash, end of period	\$ 90,374	\$ 67,385	\$ 53,359

Cash From Operating Activities

The following table summarizes the major components of the cash flow from operating activities in the fourth quarter:

(\$ in thousands)	2025	2024	2023
Net earnings for the period	\$ 39,512	\$ 42,806	\$ 36,011
Adjustments for:			
Amortization	30,707	29,658	27,439
Provision for income taxes	13,625	13,230	10,792
Interest expense	4,704	4,705	4,894
Equity settled share-based compensation	(708)	(249)	245
Taxes paid	(13,419)	(11,368)	(11,089)
(Gain) / Loss on disposal of property and equipment	(19)	257	1,185
Operating activities before change in non-cash working capital and other	74,402	79,039	69,477
Change in non-cash working capital	49,177	30,732	19,847
Change in other non-cash items	3,355	(1,489)	1,157
Cash from operating activities	\$ 126,934	\$ 108,282	\$ 90,481

Cash from Operating Activities Cash flow from operating activities increased \$18.7 million or 17.2% to \$126.9 million compared to \$108.3 million in the fourth quarter of 2024 and was up \$36.5 million or 40.3% compared to 2023. The increase compared to last year is substantially due to the change in non-cash working capital primarily related to changes in accounts receivable, inventories and accounts payable and accrued liabilities compared to the prior year. The change in other non-cash items mainly related to foreign exchange was also a factor.

Cash Used in Investing Activities

The following table summarizes the major components of the cash flow used in investing activities in the fourth quarter:

(\$ in thousands)	2025	2024	2023
Purchase of property and equipment	\$ (41,301)	\$ (49,200)	\$ (36,937)
Intangible asset additions	(5,503)	(3,437)	(4,731)
Proceeds from disposal of property and equipment	30	10	62
Cash used in investing activities	\$ (46,774)	\$ (52,627)	\$ (41,606)

Cash Used in Investing Activities Net cash used in the fourth quarter for investing activities was \$46.8 million compared to \$52.6 million in 2024 and \$41.6 million in 2023. Investing activities in the quarter largely related to store renovations and equipment replacements. The investments in intangible assets is related to software.

Cash Used in Financing Activities

The following table summarizes the major components of the cash flow used in financing activities in the fourth quarter:

(\$ in thousands)	2025	2024	2023
Net decrease in long-term debt	\$ (35,819)	\$ (27,330)	\$ (39,278)
Payment of lease liabilities, principal	(5,835)	(5,996)	(5,607)
Payment of lease liabilities, interest	(1,426)	(1,420)	(1,165)
Dividends	(19,556)	(19,148)	(18,607)
Interest paid	(2,898)	(3,283)	(3,126)
Issuance of common shares	—	—	867
Common shares purchased and cancelled	(5,508)	—	—
Cash used in financing activities	\$ (71,042)	\$ (57,177)	\$ (66,916)

Cash Used in Financing Activities Cash used in financing activities in the fourth quarter increased to \$71.0 million compared to \$57.2 million in 2024 and \$66.9 million in 2023. The change compared to the fourth quarter last year is substantially due to changes in long-term debt resulting from amounts drawn on revolving loan facilities compared to last year and share purchases under the normal course issuer bid ("NCIB").

DISCLOSURE CONTROLS

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that material information relating to the Company is reported to senior management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") on a timely basis so that decisions can be made regarding public disclosure. Based on an evaluation of the Company's disclosure controls and procedures, as required by National Instrument 52-109 (Certification of Disclosure in Issuers' Annual and Interim Filings), the Company's CEO and CFO have concluded that these controls and procedures were designed and operated effectively as of January 31, 2026.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

Management is also responsible for establishing and maintaining internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with International Financial Reporting Standards. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can only provide reasonable assurance with respect to financial reporting and may not prevent or detect misstatements. Projections of any evaluations of effectiveness to future periods are subject to the risk that controls may become ineffective because of changes in conditions or the degree of compliance with policies and procedures may deteriorate. Furthermore, management is required to use judgment in evaluating controls and procedures. Based on an evaluation of the Company's internal controls over financial reporting using the Internal Control - Integrated Framework published by The Committee of Sponsoring Organizations of the Treadway Commission ("COSO Framework"), 2013, the Company's CEO and CFO have concluded that the internal controls over financial reporting were designed and operated effectively as at January 31, 2026. There have been no changes in the internal controls over financial reporting for the year ended January 31, 2026 that have materially affected or are reasonably likely to materially affect the internal controls over financial reporting.

OUTLOOK

The near-term outlook continues to be influenced by the elimination of the Inuit Child First food voucher program, a reduction in funding for Jordan's Principle programs (collectively, "CFS Program Funding") and uncertainty related to the timing of First Nations Claim Settlement payments. Further information on these factors is provided in the sections below. In addition, there continues to be uncertainty related to the economy, including the impact of higher oil prices, increasing fuel costs and inflation, and the impact of changes in U.S. government policy regarding tariffs and income support programs for individuals including the Supplemental Nutrition Assistance Program ("SNAP") however, the resiliency of the Company's essential everyday product and service offering is expected to help mitigate some of this uncertainty. In addition, the near-term outlook is expected to be impacted by the following:

Next 100

The Next 100 is expected to deliver annualized incremental EBIT which will continue to ramp up through 2026 as the initiatives mature, with the full annualized EBIT run-rate expected to be achieved in 2027. During this ramp up phase, the Company will continue to incur one-time costs for professional fees and other expenses related to the Next 100 initiatives. These one-time costs are expected to be more than offset by the annualized incremental EBIT of the initiatives however, some of the costs may be incurred before the full annualized benefits are achieved. These one-time costs will continue to be incorporated into our adjusted earnings measures in our quarterly and annual reports. Further information on the Next 100 is provided in the Strategies section.

Long-term Reform of First Nations and Inuit Child and Family Services ("CFS Program Funding")

The impact of the decrease in CFS Program Funding for certain First Nations and Inuit children programs, including the elimination of the Inuit Child First Initiative food voucher program and reduced funding for Jordan's Principle programs that began late in the first quarter of 2025 is expected to negatively impact sales in Canadian Operations in the first quarter of 2026 on a year over year basis.

Beyond the first quarter of 2026, there is uncertainty regarding the amount and timing of CFS Program Funding that provides greater access to nutritious food until a long-term funding agreement is reached:

- On July 11, 2024, the Government of Canada announced an agreement in principle to provide \$47.8 billion to be disbursed over 10 years for the long-term reform of the First Nations Child and Family Services ("FNCFS") programs related to Jordan's Principle. This agreement is designed to provide predictable funding for services and benefits for Indigenous children, youth, young adults and families. The long-term reform of FNCFS is expected to benefit Indigenous peoples and communities the Company serves directly through programs and indirectly through investments in infrastructure and local employment. However, on October 17, 2024, members of the Assembly of First Nations rejected the \$47.8 billion agreement and instructed the Assembly of First Nations leadership to take a new approach to negotiating a different final agreement to address concerns raised. Accordingly, the funding for certain FNCFS Jordan's Principle programs is pending the finalization of an agreement.
- On February 26, 2025, the Chiefs of Ontario, Nishnawbe Aski Nation and the Government of Canada signed an \$8.5 billion agreement to reform the First Nations Child and Family Services Program in Ontario. The agreements on the long-term reform of the First Nations Child and Family Services Program is subject to final approvals and a motion before the Canadian Human Rights Tribunal to end its oversight over the First Nations Child and Family Services Program.

First Nations Claim Settlements

The Canadian Operations are expected to be impacted by consumer demand arising from the following First Nations Claim Settlement payments:

- On October 24, 2023, the Federal Court of Canada approved the final settlement agreement of \$23.3 billion in compensation to be paid to individuals impacted by First Nations Child and Family Services programs and other services ("Jordan's Principle Claim Settlement"). A portion of the Jordan's Principle Claim Settlement is expected to be paid to individuals living within approximately 63 First Nations communities the Company serves. Based on the information available, each claimant is expected to receive a minimum payment of approximately \$40,000 with additional amounts paid based on individual circumstances. The application window for the first two classes of claims, Removed Child Class and Removed Child Family Class, opened on March 10, 2025. The application process for the other seven classes has not opened. Currently, only applications from the Removed Child Class are being processed and the Claims Administrator has indicated that completed claims are expected to be processed for payment within 6 to 12 months of being received. The settlement payments for the Removed Child Class are expected to increase throughout 2026 as claims are adjudicated. The settlement payments are expected to extend a number of years beyond 2026 based on the requirement for individuals in the Removed Child Class to reach the age of majority before payments are issued combined with the anticipated opening of the claim application process and distribution of settlement payments for the other classes however, the timing and duration of these settlement payments is uncertain.
- The First Nations Drinking Water Settlement, which is comprised of approximately \$2.0 billion in payments to individuals and impacted First Nations and \$6.0 billion to support construction, upgrading, operation and maintenance of water infrastructure on First Nations land, impacts approximately 30 communities served by the Company's stores representing a portion of the total settlement. The Canadian Operations are expected to continue to be impacted by consumer demand arising from Drinking Water Settlement payments to individuals however, to a much lesser degree than in 2025. The amount and timing of these settlement payments to individuals in the communities served by the Company's stores is uncertain however, these settlement payments are expected to continue to decrease year over year through 2026.

Other Factors

- In 2026, the Company expects that capital expenditures will be in the \$150.0 million range (2025 - \$137.8 million). The timing and amount of store-based capital expenditures in 2026 are expected to continue to be impacted by the availability of skilled trades, in addition to other delays that can occur with remote location capital projects.

Beyond the previously noted factors impacting the near-term outlook, the medium and longer-term outlook for the Company is favourable based on the resiliency of our essential everyday product and service value offer and the upside expected from enhancing our core capabilities to deliver operational excellence and sustainable earnings growth aligned with our Next 100 work. The impact of Government of Canada transfer and settlement payments and higher infrastructure and services spending is also expected to benefit Indigenous people in the communities we serve.

RISK MANAGEMENT

The mandate of the Board of Directors includes ensuring that processes are in place to identify and manage the principle risks of the business, including environmental and climate-related risks, for which the Board has delegated primary responsibility to the Audit Committee. The North West Company maintains an Enterprise Risk Management ("ERM") program which assists in identifying, evaluating and managing risks that may reasonably have an impact on the Company. Management is accountable for completing an annual ERM assessment to evaluate risks and the potential impact that the risks may have on the Company's financial performance and ability to execute its strategies and achieve its objectives. The results of this annual assessment and quarterly updates are presented to the Audit Committee and reported to the Board of Directors. The principle risks, including environmental and climate-related risks, and the related mitigation strategies are incorporated into the Company's strategic planning process.

The North West Company is exposed to a number of risks in its business. The descriptions of the risks below are not the only ones facing the Company. Additional risks and uncertainties not presently known to the Company, or that the Company deems immaterial, may also impair the operations of the Company. If any of such risks actually occur, the business, financial condition, liquidity, results of operations and reputation of the Company could be materially adversely affected. Readers of this MD&A are also encouraged to refer to the Key Performance Drivers and Capabilities Required to Deliver Results and Outlook sections of this MD&A, as well as North West's Annual Information Form, which provides further information on the risk factors facing the Company and which is hereby incorporated by reference. While the Company employs strategies to minimize these risks, these strategies do not guarantee that events or circumstances will not occur that could negatively impact the Company's financial condition and performance.

Careful consideration should be given to the risk factors which include, but are not limited to, the following:

Employee Development and Retention Attracting, retaining and developing high caliber employees is essential to effectively managing our business, executing our strategies and meeting our objectives. Due to the vast geography, small size and remoteness of the Company's individual markets, there is an ongoing need for capable staffing, particularly at the store management level. The degree to which the Company is not successful in retaining and developing employees and establishing appropriate succession plans could lead to a lack of knowledge, skills and experience required to effectively run our operations and execute our strategies and could negatively affect financial performance. The Company's overall priority on building and sustaining store people capability reflects the importance of mitigating this risk. In addition to compensation programs and investments in staff housing that are designed to attract and retain qualified personnel, the Company also continues to implement and refine initiatives such as comprehensive store-based manager-in-training programs.

These risks also impact the Company's airline operations. Transport Canada has Canadian Airline Regulations ("CAR") with respect to pilot fatigue and flight duty times. These regulations have resulted in an increase in the number of pilots required by NSA which, combined with a Canada-wide shortage of pilots and aircraft mechanics, may result in higher recruitment and compensation costs and have a negative impact on the Company's financial performance. Changes to flight schedules, operating schedules, fatigue management systems and employee recruiting, compensation and training programs are expected to help mitigate the impacts of the new regulations and employee development and retention risk.

In addition to the foregoing, a pandemic could impact the health and wellness of the Company's employees, result in labour shortages or the temporary closure of stores, distribution facilities, airline or support offices.

Competition The Company has a leading market position in a large percentage of the markets it serves. Sustaining and growing this position depends on our ability to continually improve customer satisfaction while identifying and pursuing new sales opportunities. We actively monitor competitive activity and we are proactive in enhancing our value offer elements, ranging from in-stock position to service and pricing. To the extent that the Company is not effective in responding to consumer trends or enhancing its value offer, it could have a negative impact on the Company's financial performance and reputation. Furthermore, the entry of new competitors, an increase in competition, both local and outside the community, a significant expansion of E-Commerce, or the introduction of new products and services in the Company's markets could also negatively affect the Company's financial performance.

Cyber-security The Company relies on the integrity and continuous availability of its IT systems including networks, data hosting and processing facilities, cloud-based services and hardware. In the ordinary course of business, the Company collects, processes, transmits and retains confidential and personal information (collectively "Confidential Information") regarding the Company and its customers, employees and suppliers. The Company's IT systems are exposed to the risks of "cyber-attack", including viruses that can disrupt, paralyze or prevent access to IT systems or result in unauthorized access to Confidential Information.

The Company has security software and measures, including monitoring, testing and employee training, to prevent unauthorized access to its IT systems and Confidential Information, and to reduce the likelihood of disruptions, and continues to make investments in this area to mitigate cyber threats. Cyber-attacks are constantly evolving and are becoming more frequent and sophisticated in nature, especially with the expanded use of Artificial Intelligence ("AI") by bad actors and there is a risk that the Company's security measures or its third party service providers' security measures, may be breached or unauthorized access may not be detected on a timely basis. Furthermore, employee error, faulty password management or malfeasance may result in unauthorized access to IT systems and Confidential Information. Any prolonged failure relating to IT system availability, breaches of IT system security, a significant loss of data, an impairment of data integrity or unauthorized access to Confidential Information, could adversely affect the financial performance, operations and reputation of the Company and may result in regulatory enforcement actions or litigation.

Community Relations A portion of the Company's sales are derived from communities and regions that restrict commercial land ownership and usage by non-Indigenous or non-local owned businesses, or which have enacted policies and regulations to support locally-owned businesses. We successfully operate within these environments through initiatives that promote positive community and customer relations. These include store lease arrangements with community-based development organizations and initiatives to recruit local residents into management positions and to incorporate community stakeholder advice into our business at all levels. Further information on community relations is provided under Corporate Social Responsibility and Sustainability. To the extent the Company is not successful in maintaining these relations or is unable to renew lease agreements with community-based organizations, or is subject to punitive fees or operating restrictions, it could have an adverse effect on the Company's reputation and financial performance.

Climate Change, Natural Disasters and Fire The Company's operations are exposed to extreme weather conditions ranging from blizzards to hurricanes, typhoons and cyclones which can cause loss of life, damage to or destruction of key stores and facilities, or temporary business disruptions. The stores located in the South Pacific, Caribbean and coastal areas of Alaska are also at risk of earthquakes, volcano and tsunamis which can result in loss of life and destruction of assets. The destruction of assets and the impact on the local economy resulting from these types of extreme weather conditions, particularly where more than one location is impacted, could have a material adverse effect on the operations and financial condition and performance of the Company. Severe weather conditions can also have a negative impact on NSA's operations by disrupting the transportation of merchandise and passengers.

The impact of warmer ocean water temperatures has increased the risk of frequency, severity and duration of hurricanes and typhoons especially in the northeastern Caribbean. Collectively the stores in this region have sales of \$443.4 million and assets of \$207.6 million for the year-ended January 31, 2026. In 2017, islands in this region were devastated by two category five hurricanes which resulted in the destruction of the Company's CUL store in St. Thomas and three RTW stores and significantly damaged a CUL store in St. Maarten. Rebuilding has significantly increased resiliency to future hurricanes however, these markets remain exposed to this risk.

The Company completed a specific climate-related risk management assessment of its stores in the northeastern Caribbean and upgraded its most hurricane-vulnerable stores to improve the building construction to a category five hurricane resiliency level. These improvements help mitigate the impact of hurricanes on the Company's stores however, there can be no certainty that the damage from hurricanes will not include significant damage to or loss of stores and warehouses. In addition, hurricanes can result in significant damage to or destruction of important infrastructure, including residences, which in turn may result in people relocating from an island. Any prolonged reduction in population in the communities the Company operates in could have a material impact on the financial performance of the Company.

Longer-term global warming conditions would also have a more pronounced effect, both positive and negative, on the Company's most northern latitude stores. On the downside, global warming will result in rising sea levels, which will cause flooding, and melting permafrost which could damage or destroy the Company's stores, warehouses and housing. The Company operates in 72 communities in northern Canada and 20 communities in Alaska that are potentially exposed to changes in permafrost. Collectively, stores in these communities have sales of \$968.5 million and assets of \$507.3 million for the year ended January 31, 2026. Rising sea levels and melting permafrost would also have the same negative impact on our customers which, combined with the potential damage to our facilities, could have a material adverse effect on the Company's operations, financial condition and performance. The Company has in-depth knowledge of and expertise in construction in northern markets and continues to incorporate new engineering and construction techniques in designing buildings and facilities to help mitigate the impact of changing permafrost conditions and minimize damage to the permafrost.

The Company relies upon the availability of winter roads to 40 communities in northern Canada. Global warming conditions may shorten or eliminate the availability of winter roads which would result in higher transportation costs to these remote locations. To the extent that higher transportation costs cannot be offset by other cost reductions or passed on through higher prices, this may result in lower operating margins which may have an adverse effect on the Company's financial performance. This risk related to the availability of winter roads is partially mitigated by the utilization of the Company's wholly-owned airline to transport merchandise to its stores.

On the upside, global warming could result in higher economic growth in the Company's northern markets and would reduce some operating expenses such as utility costs and enable the Company to use lower-cost sealift year-round to transport merchandise to the Company's stores compared to higher cost air transportation.

The Company's stores in northern Canada and Alaska are exposed to the risk of wildfires and other fire related losses. In many of the Company's remote northern markets, there is limited fire fighting equipment and capability. In the event of a fire, there is a high risk of a complete loss of the building, equipment and inventory. 2025 was one of the worst wildfire seasons on record in northern Canada. While the Company did not sustain any significant damage to its assets, several communities that the Company serves had full or partial evacuations, including three communities that were evacuated for an extended period of time due to the destruction of hydro transmission lines. In 2023, the Company's store in Fox Lake, Alberta was destroyed by wildfire. In 2018, the Company also had three fires in northern Canada which destroyed one store and significantly damaged two other stores. Two of the fires were caused by electrical malfunction and one was arson-related. The Company was able to re-open the stores with reduced selling square footage and a limited merchandise assortment while reconstruction and repairs were being completed. The Company completed an independent review of its fire mitigation policies and procedures to identify opportunities to improve fire prevention in its northern Canada stores and has upgraded facilities to reduce the risk of fire-related losses.

In addition to the risk mitigation activities previously noted, the Company also maintains insurance to help mitigate the impact of losses however, there can be no assurance that one or more large claims or that any given loss will be mitigated in all circumstances. Further information on insurance risk is provided below.

Economic Environment External factors which affect customer demand and personal disposable income, and over which the Company exercises no influence, include government fiscal health, general economic growth, changes in commodity prices, inflation, tariffs, price increases from suppliers, unemployment rates, personal debt levels, levels of personal disposable income, interest rates and foreign exchange rates. Changes in inflation rates, commodity prices, tariffs, price increases from suppliers and foreign exchange rates are unpredictable and may impact the cost of merchandise and the prices charged to consumers which in turn could negatively impact the Company's reputation and financial results. A pandemic could result in an economic downturn, restrictions on travel and trade, disruptions to financial markets and negatively impact the availability and cost of capital, which in turn could have an adverse impact on the Company's financial results and condition.

Our largest customer segments derive most of their income directly or indirectly from government infrastructure spending or direct payment to individuals in the form of social assistance, child care benefits and old age security. While these tend to be stable sources of income, independent of economic cycles, a decrease in government income transfer payments to individuals, a recession or a significant and prolonged decline in consumer spending, could have an adverse effect on the Company's operations and financial performance.

Furthermore, customers in many of the Company's markets benefit from product cost subsidies through programs such as Nutrition North Canada ("NNC"), Jordan's Principle and Inuit Child First in Canadian Operations, and the U.S. Supplemental Nutrition Assistance Program ("SNAP") and Alaska by-pass mail system in International Operations, which contribute to lower living costs for eligible customers. If there are changes in government policy that result in a reduction in financial support for these programs, or if these subsidies and programs are not adjusted for cost inflation, there could be a negative impact on consumer demand for the Company's products and services which could have an adverse effect on the Company's operations, financial condition and reputation.

A major source of employment income in the remote markets where the Company operates is generated from local government and spending on public infrastructure. This includes housing, schools, health care facilities, military facilities, roads and sewers. Local employment levels will fluctuate from year-to-year depending on the degree of infrastructure activity and a community's overall fiscal health. A similar fluctuating source of income is employment related to tourism and natural resource development. A significant or prolonged reduction in government transfers, spending on infrastructure projects, natural resource development and tourism spending would have a negative impact on consumer income which in turn could result in a decrease in sales and gross profit, particularly for more discretionary general merchandise items.

Management regularly monitors economic conditions and considers factors which can affect customer demand in making operating decisions and the development of strategic initiatives and long-range plans however, changes in economic conditions may adversely impact consumer demand for the Company's products and services which could adversely affect the Company's financial performance, financial condition and reputation.

Logistics and Supply Chain The Company relies on a complex and elongated outbound supply chain due to the remoteness of the Company's stores. The delivery of merchandise to a substantial portion of the Company's stores involves multiple carriers and multiple modes of transportation including trucks, trains, aircraft, ships and barges through various ports and transportation hubs. The Company's reputation and financial performance can be negatively impacted by supply chain events or disruptions outside of the Company's control, including changes in foreign and domestic regulations which increase the cost of transportation; the quality of transportation infrastructure such as roads, ports and airports; labour disruptions at transportation companies; the impact of a pandemic, that reduces the availability of product or restricts transportation to distribution facilities or the communities the Company serves; the impact of severe weather; or the consolidation, financial difficulties or bankruptcy of transportation companies. To help mitigate these risks, the Company owns an airline, North Star Air Ltd., and has an investment in Transport Nanuk Inc., an arctic shipping company, which provides the Company with greater control over key components of our logistics network and service to our stores in northern Canada.

Business Model and Change Management The Company sells a broad range of products and services across geographically and culturally diverse markets within a high operating cost environment. Operational scale can be difficult to achieve across these remote geographies and the complexity of the Company's business model is higher compared to more narrowly-focused or larger retailers. Management continuously assesses the strength of its customer value offer to ensure that specific markets, products and services are financially attractive. The Company continues to focus on simplifying work across the business, with an emphasis on store processes. Certain Company initiatives may reduce the cost of operations and help ensure the Company has an efficient operating structure. These initiatives may include improving processes and generating efficiencies across the Company's administrative, store and distribution network. The success of strategic initiatives is dependent on effective leadership and change management to realize their intended benefits. Ineffective leadership or change management could result in a lack of integrated processes and procedures, decreased employee engagement, ineffective communication and training, a lack of requisite knowledge or may not achieve the benefits intended. Any of the foregoing could disrupt operations or increase the risk of customer dissatisfaction. To the extent the Company is not successful in developing and executing its strategies, it could have an adverse effect on the financial condition, reputation and financial performance of the Company.

Information Technology The Company relies on information technology ("IT") to support the current and future requirements of the business. A significant or prolonged disruption in the Company's current IT systems could negatively impact day-to-day operations of the business which could adversely affect the Company's financial performance and reputation. In 2026, the Company will continue with its implementation of a new Warehouse Management System ("WMS"), an inventory forecasting and replenishment application at store level and pricing and data analytics software. In addition, the Company will also be implementing a new payroll system and a new prepaid card in Canadian Operations which will require a change in network, processor and other-related applications.

The failure to successfully upgrade legacy systems, or to migrate from legacy systems to new IT systems, could have an adverse effect on the Company's operations, reputation and financial performance. There is also a risk that the anticipated benefits, cost savings or operating efficiencies related to upgrading or implementing new IT systems may not be realized which could adversely affect the Company's operations, financial performance or reputation. To help mitigate these risks, the Company uses a combination of specialized internal and external IT resources as well as a strong governance structure and disciplined project management.

The Company also depends on accurate and reliable information from its IT systems for decision-making and operating the business. As the volume of data and the complexity and integration of IT systems increases, there is a greater risk of errors in data or misinterpretation of the data which could negatively impact decision making and in turn, have an adverse effect on the Company's financial performance.

Environmental The Company owns and leases a large number of facilities and real estate, particularly in remote locations, and is subject to environmental risks associated with the contamination of such facilities and properties. The Company operates retail fuel outlets in a number of locations and uses fuel to heat stores and housing. The Company also has aviation fuel storage containers and operates aviation fuel dispensing equipment. Contamination resulting from gasoline, heating and aviation fuel is possible. The Company employs operating, training, monitoring and testing procedures to minimize the risk of contamination. The Company also operates refrigeration equipment in its stores and distribution centres which, if the equipment fails, could release gases that may be harmful to the environment. The Company has monitoring and preventative maintenance procedures to reduce the risk of this contamination occurring. Even with these risk mitigation policies and procedures, the Company could incur increased or unexpected costs related to environmental incidents and remediation activities, including litigation and regulatory compliance costs, all of which could have an adverse effect on the reputation and financial performance of the Company.

Laws, Regulations and Standards The Company is subject to various laws, regulations and standards administered by federal, provincial and foreign regulatory authorities, including but not limited to income, commodity and other taxes, securities laws, anti-trust and competition laws, NNC and SNAP regulations, duties, currency repatriation, health and safety, labour and employment standards, minimum wage laws, Payment Card Industry ("PCI") standards, anti-money laundering ("AML") regulations, licensing requirements, product packaging and labeling regulations, hazardous waste regulations and zoning laws. New accounting standards and pronouncements or changes in accounting standards may also impact the Company's financial results.

These laws, regulations and standards and their interpretation by various courts and agencies are subject to change. In the course of complying with such changes, the Company may incur significant costs. Failure by the Company to fully comply with applicable laws, regulations and standards could result in financial penalties, assessments, sanctions, loss of operating licenses or legal action that could have an adverse effect on the reputation, financial condition and financial performance of the Company.

The Company is also subject to various privacy laws and regulations regarding the protection of personal information of its customers and employees. Any failure in the protection of this information or non-compliance with laws or regulations could negatively affect the Company's reputation and financial performance.

A portion of the Company's sales and net earnings are derived from financial services and pharmacy operations, which are subject to additional laws, regulations and standards. Changes in legislation regarding financial services fees, including but not limited to ATM, pre-paid card and cheque-cashing fees and fees earned on customer accounts receivable, could have an adverse impact on the Company's financial performance if other fees or offsetting cost reductions cannot be implemented. In Canada, on-going prescription drug reform, changes in dispensing fees and the implementation of a national pharmacare system could have an adverse effect on the Company's financial performance if other fees or offsetting cost reductions cannot be implemented.

The airline industry is also subject to extensive legal, regulatory and administrative controls and oversight, including airline safety standards. Failure by the Company to comply with these laws, regulations and standards could result in the loss of operating licenses and could have an adverse effect on the Company's financial performance and reputation.

Furthermore, changes in legislation, including costs associated with recycling and disposal of consumer goods packaging and food waste, hazardous waste regulation, carbon taxes and the implementation of other greenhouse gas reduction initiatives and regulations related to transitioning to a low-carbon and more climate resilient future, could result in additional costs which could have a negative impact on the Company's financial performance if the Company is not able to fully pass on these additional costs to its customers or identify other offsetting cost reductions and efficiencies. In addition, failure to comply with these laws, standards and regulations could have an adverse effect on the Company's financial performance, financial condition and reputation.

Fuel and Utility Costs Compared to other retailers, the Company is more exposed to fluctuations in the price of energy, particularly oil. Due to the vast geography and remoteness of the store network, expenses related to aviation fuel, bunker fuel for ships, diesel, diesel-generated electricity and heating fuel costs are a more significant component of the Company's and its customers' expenses. To the extent that escalating fuel and utility costs cannot be offset by alternative energy sources, energy conservation practices or offsetting productivity gains, this may result in higher retail prices or lower operating margins which may affect the Company's financial performance and reputation. In this scenario, consumer retail spending could also be negatively affected by higher household energy-related expenses which could have an adverse effect on the Company's financial performance.

Food, Drug, Product and Service Safety The Company is exposed to risks associated with food and drug safety, product packaging, labelling, handling, storage and distribution, and general merchandise product defects. The Company also operates pharmacies and provides tele-pharmacy services and is subject to risks associated with the distribution of prescription drugs, errors made through medication dispensing or patient services and consultation. Food sales represent approximately 77% of total Company sales. A significant outbreak of a food-borne illness or food safety issues including food tampering or contamination, or increased public concerns with certain food products could have an adverse effect on the reputation and financial performance of the Company and could lead to unforeseen liabilities from legal claims. The Company has food preparation, handling, dispensing and storage procedures which help mitigate these risks.

The Company also has product recall procedures in place in the event of a food-borne illness outbreak or product defect. The existence of these procedures does not eliminate the underlying risks and the ability of these procedures to mitigate risk in the event of a food-borne illness or product recall is dependent on their successful execution.

Social Social and political issues raise public awareness, perspectives and actions through protests and/or media campaigns. Issues that may relate to the Company's business include, but are not limited to food security, minimum wages, Indigenous rights, diversity and inclusion, local and ethical sourcing, nutritional labelling, the environment and climate change. Ineffective action or inaction on these matters, including perceived failure to adequately address these matters, could adversely affect the Company's reputation or financial performance.

Insurance The Company manages its exposure to certain risks through an integrated insurance program which combines an appropriate level of self-insurance and the purchase of various insurance policies. The Company's insurance program is based on various lines and limits of coverage and is arranged with financially stable insurance companies as rated by professional rating agencies. Global insurance market conditions continue to be challenging as insurance companies limit their capacity for underwriting risks in certain geographic areas such as the Caribbean and northern Canada or in sectors such as aviation. Insurance companies that do provide coverage in these areas are requiring significantly higher insurance premiums and higher self-insured retention levels from companies. These factors may result in higher insurance costs and changes in self-insured retention levels which could result in greater earnings volatility in the event of future losses. There can be no assurance that the Company's insurance program will be sufficient to cover one or more large claims, or that any given risk will be mitigated in all circumstances. There can also be no assurance that the Company will be able to continue to purchase insurance coverage at reasonable rates or maintain its self-insured retention levels. To the extent that the Company's insurance policies do not provide sufficient coverage for a loss, it could have an adverse impact on the Company's operating results and financial condition.

Vendor and Third Party Service Partner Management The Company relies on a broad base of manufacturers, suppliers and operators of distribution facilities to provide goods and services. Events, such as a pandemic, or disruptions affecting these suppliers outside of the Company's control could in turn result in delays in the delivery of merchandise to the stores and therefore negatively impact the Company's reputation and financial performance. A portion of the merchandise the Company sells may be sourced from less developed countries which increases certain risks to the Company including risks associated with product safety, general merchandise product defects and products that do not meet the required standards. Additionally, products sourced from less developed countries may have an increased risk of non-compliance with human rights, forced labour, child labour and ethical and safe business practices which could negatively impact the Company's reputation. The Company uses offshore consolidators and sourcing agents to monitor product quality and ethical sourcing standards however, the Company does not have any direct influence over how these vendors and service partners are managed and there is no certainty that these risks can be completely mitigated in all circumstances.

NSA also relies upon suppliers and third party service partners for specialized aviation parts and aircraft maintenance services. A prolonged disruption affecting the supply of parts or provision of maintenance services could negatively impact the availability of aircraft to service the Company's stores and customers, or result in higher than anticipated costs, which could have an adverse effect on the Company's financial performance and reputation.

Ethical Business Conduct The Company has a Code of Business Conduct and Ethics policy which governs both employees and Directors. The Company also has a Whistleblower Policy that provides direct access to members of the Board of Directors. Unethical business conduct could negatively impact the Company's reputation and relationship with its customers, investors and employees, which in turn could have an adverse effect on the financial performance of the Company.

Income Taxes In the ordinary course of business, the Company is subject to audits by tax authorities. The Company regularly reviews its compliance with tax legislation, filing positions, the adequacy of its tax provisions and the potential for adverse outcomes. While the Company believes that its tax filing positions are appropriate and supportable, the possibility exists that certain matters may be reviewed and challenged by the tax authorities. If the final outcome differs materially from the tax provisions, the Company's income tax expense and its earnings could be affected positively or negatively in the period in which the outcome is determined.

Litigation and Casualty Losses In the normal course of business, the Company is involved in and potentially subject to claims and legal proceedings that may involve its customers, suppliers and others. The potential outcomes of claims and legal proceedings is uncertain. The Company records a provision for litigation claims if management believes the Company has liability for such claim or legal action. If management's assessment of liability or the amount of any such claim is incorrect, any difference between the final judgment amount and the provision would become an expense or a recovery in the period such claim was resolved. If the Company is unsuccessful in defending its position, the resolution of claims could have an adverse effect on the Company's financial results, financial condition and reputation.

In February 2025, two Statements of Claims for putative class action proceedings were filed in the Manitoba Court of King's Bench against The North West Company Inc. and certain Canadian subsidiaries: Kusugak et al (the "Kusugak Claim") and Muskego et al (the "Muskego Claim", collectively with the Kusugak Claim, the "Claims"). The Claims allege that the Company misrepresented the amount of federal subsidy it passed through to consumers through the Nutrition North Canada subsidy program (the "Subsidies") between April 1, 2011 and the present. The Claims are brought by individuals who allegedly purchased subsidized goods at the Company's stores and seek damages, including, for alleged negligent misrepresentation and unjust enrichment as well as breach of contract, the *Competition Act* and certain provincial and territorial consumer protection acts. These actions are at an early stage and have not been certified as class proceedings. The Company believes these Claims are without merit and maintains that its practices regarding the Subsidies were fully compliant with the Government of Canada agreements and plans to actively defend these actions. In September 2025, the Kusugak Claim was amended to add additional plaintiffs, and in November 2025, the Muskego Claim was discontinued. The Company has brought a motion to strike the Kusugak Claim, which was heard in December 2025 and the judgment remains under reserve.

Consistent with risks inherent in the aviation industry, NSA could be subject to large liability claims arising out of major accidents or disasters involving aircraft which can result in serious injury, death or destruction of property. Accidents and disasters may occur from factors outside of the Company's control such as severe weather, lightning strikes, wind shear and bird strikes. Any such accident or disaster could have a material adverse effect on the Company's reputation, results from operations and financial condition.

Management of Inventory Success in the retail industry depends on being able to select the right merchandise, in the correct quantities in proportion to the demand for such merchandise. A miscalculation of consumer demand for merchandise could result in having excess inventory for some products and missed sales opportunities for others which could have an adverse effect on the Company's operations, financial performance and reputation. Excess inventory may also result in higher markdowns or inventory shrinkage all of which could have an adverse effect on the financial performance of the Company. In 2026, the Company will continue to implement a new IT application for inventory forecasting and replenishment at store level and a warehouse management system in International Operations. The failure to successfully implement these applications and the applicable processes and change management requirements, may increase the risks associated with inventory management.

Post-Employment Benefits The Company engages professional investment advisors to manage the assets in the defined benefit pension plans. The performance of the Company's pension plans and the plan funding requirements are impacted by the returns on plan assets, changes in the discount rate and regulatory funding requirements. If capital market returns are below the level estimated by management or if the discount rate used to value the liabilities of the plans decreases, the Company may be required to make contributions to its defined benefit pension plans in excess of those currently contemplated, which may have an adverse effect on the Company's financial performance.

The Company regularly monitors and assesses the performance of the pension plan assets and the impact of changes in capital markets, changes in plan member demographics, and other economic factors that may impact funding requirements, benefit plan expenses and actuarial assumptions. The Company makes cash contributions to the pension plan as required and also uses letters of credit to satisfy a portion of its funding obligations. Effective January 1, 2011, the Company entered into an amended and restated staff pension plan and added a defined contribution plan. Under the amended pension plan, all members who did not meet a qualifying threshold based on number of years in the pension plan and age were transitioned to the defined contribution pension plan effective January 1, 2011 and no longer accumulate years of service under the defined benefit pension plan. Effective January 1, 2022, the defined benefit pension plan for Canadian-based executives was closed to new members however, members prior to the closure will continue to accumulate service in the plan until the end of their employment. All of the Company's defined benefit pension plans are closed to new members and all new eligible employees will participate in the staff defined contribution plan. Further information on post-employment benefits is provided on page 35 and in Note 13 to the consolidated financial statements.

Geopolitical Changes in the domestic or international political environment may impact the Company's ability to source and provide products and services. Acts of terrorism, riots and political instability could have an adverse effect on the financial performance of the Company.

Dependence on Key Facilities There are five major distribution centres which are located in Winnipeg, Manitoba; Anchorage, Alaska; San Leandro, California; Port of Tacoma, Washington; and a third party managed facility in Fort Lauderdale, Florida. In addition, the Company's Canadian Operations support office is located in Winnipeg, Manitoba, NSA's support office is located in Thunder Bay, Ontario and the International Operations has support offices in Anchorage, Alaska and Boca Raton, Florida. A significant or prolonged disruption at any of these facilities due to fire, severe weather conditions, natural disasters, or otherwise could have a material adverse effect on the financial performance of the Company.

Financial Risks In the normal course of business, the Company is exposed to financial risks that have the potential to negatively impact its financial performance. The Company manages financial risk with oversight provided by the Board of Directors, who also approve specific financial transactions. The Company uses derivative financial instruments only to hedge exposures arising in respect of underlying business requirements and not for speculative purposes. These risks and the actions taken to minimize the risks are described below. Further information on the Company's financial instruments and associated risks are provided in Note 16 to the consolidated financial statements.

Interest Rate Risk Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk primarily through its long-term borrowings. The Company manages exposure to interest rate risk through a combination of fixed and floating interest rate debt and may use interest rate swaps. Further information on long-term debt is provided in Note 12 to the consolidated financial statements. As at January 31, 2026, the Company had no outstanding interest rate swaps.

Credit Risk Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is exposed to credit risk primarily in relation to individual and commercial accounts receivable. The Company manages credit risk by performing regular credit assessments of its customers and provides allowances for potentially uncollectible accounts receivable. The Company has an unsecured, non-interest bearing promissory note receivable of \$12.5 million for contingent consideration arising from the sale of 36 stores to Giant Tiger Stores Limited on July 5, 2020 classified as accounts receivable. Based on the financial measures achieved in 2024 and 2025, the \$12.5 million contingent consideration recorded in accounts receivable is past due. The Company does not have any other individual customer accounts greater than 10% of total accounts receivable.

The Company has filed a Statement of Claim against Giant Tiger Stores Limited for breach of the asset purchase agreement for failing to pay the contingent cash consideration when due. The Company's Claim seeks \$7.5 million in respect of the 2024 contingent consideration. The Company has also brought a motion to amend its Claim to seek an additional \$10.6 million in respect of the 2025 contingent consideration plus damages. Giant Tiger Stores Limited has filed a Statement of Defence and Counterclaim seeking rectification of the asset purchase agreement, and has further denied that any contingent cash consideration is owing. Further information on the promissory note is included in Note 26 to the consolidated financial statements.

Liquidity Risk Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due or can do so only at excessive cost. The Company manages liquidity risk by maintaining adequate credit facilities to fund operating requirements, pension plan contributions and planned sustaining and growth-related capital expenditures, and regularly monitoring actual and forecasted cash flow and debt levels. At January 31, 2026, the Company had undrawn committed revolving loan facilities available of \$408.0 million (January 31, 2025 - \$438.8 million). The undrawn capacity on existing loan facilities and the extension of the maturity dates of these facilities to April 2031 helps reduce liquidity risk. Further information on liquidity is provided in the Consolidated Liquidity and Capital Resources section.

Currency Risk Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to currency risk, primarily the U.S. dollar, through its net investment in International Operations and its U.S. dollar denominated borrowings. The Company manages its exposure to currency risk by hedging the net investment in foreign operations with a portion of U.S. dollar denominated borrowings as described in the Sources of Liquidity section. At January 31, 2026, the Company had US\$70.0 million in U.S. denominated debt compared to US\$70.0 million at January 31, 2025 and US\$70.2 million at January 31, 2024. Further information on the impact of foreign exchange rates on the translation of U.S. denominated debt is provided in the Capital Structure section.

The Company is also exposed to currency risk relating to the translation of International Operations earnings to Canadian dollars. In 2025, the average exchange rate used to translate U.S. denominated earnings from the International Operations was 1.3920 compared to 1.3775 last year. The Canadian dollar's depreciation in 2025 compared to the U.S. dollar in 2024 positively impacted consolidated net earnings by \$0.6 million. In 2024, the average exchange rate was 1.3775 compared to 1.3504 in 2023 which resulted in an increase in 2024 consolidated net earnings of \$1.0 million compared to 2023.

CORPORATE SOCIAL RESPONSIBILITY & SUSTAINABILITY

The North West Company opened its first store in 1668 as a trading post in the Cree Nation of Waskaganish in northern Canada and many of our stores in northern Canada and Alaska have been in operation for over 200 years.

Our ESG¹ Strategy is informed by our unique business model dedicated to supporting underserved communities in remote geographical locations. Through our shared-value approach, our framework helps us identify ESG risks and opportunities that are important to our business and partners. At its heart is our vision to enrich the experiences of both the communities we serve and our employees.

We aim to build trust with our community partners by delivering vital products and services that enhance health, nutrition and overall quality of life. Equally, we foster a diverse, equitable and inclusive workplace that empowers employees to develop their skills and advance their careers. Our ambitions are anchored in three strategic pillars: **People**, **Planet** and **Partnerships**.

People Support employees and local communities to advance towards a healthier, inclusive and equitable future.

Planet Improve the management of waste, emissions and energy.

Partnerships Maintain trust with our partners.

ESG matters have the potential to impact business operations, regulatory compliance, reputation and financial outcomes and therefore, ESG objectives are managed in the context of our business strategy while also taking into consideration the feedback and interests of our partners. Starting in 2023, North West began including ESG as part of the criteria for the Company's short-term incentive program, linking sustainability-related activities to compensation beginning with executive and senior leadership.

The Board of Directors are accountable for overseeing the Company's Corporate Social Responsibility and Sustainability² initiatives which are integrated within the Company's risk management and strategic planning process. In addition to the information provided on climate change and environmental risk factors previously noted under Risk Management, further information on the Sustainability Report and the report on Fighting Against Forced Labour and Child Labour in Supply Chains Act ("Modern Slavery") are available on the Company's website at www.northwest.ca.

¹At North West, we define ESG as a framework to identify, assess and manage environmental, social and governance risks and opportunities that are important to our business and our partners.

²At North West, sustainability refers to the process of increasing business value by implementing strategic and operational actions that consider environmental, social and economic factors.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with IFRS requires management to make estimates, assumptions and judgments that affect the application of accounting policies and the reported amounts and disclosures made in the consolidated financial statements and accompanying notes. Judgment has been used in the application of accounting policy and to determine if a transaction should be recognized or disclosed in the consolidated financial statements, while estimates and assumptions have been used to measure balances recognized or disclosed. These estimates, assumptions and judgments are based on management's historical experience, knowledge of current events, expectations of future outcomes and other factors that management considers reasonable under the circumstances. Certain of these estimates and assumptions require subjective or complex judgments by management about matters that are uncertain and changes in these estimates could materially impact the consolidated financial statements and disclosures. Management regularly evaluates the estimates and assumptions it uses and revisions are recognized in the period in which the estimates are reviewed and in any future periods affected. The areas that management believes involve a higher degree of judgment or complexity, or areas where the estimates and assumptions may have the most significant impact on the amounts recognized in the consolidated financial statements include the following:

Valuation of Accounts Receivable The Company records an allowance for doubtful accounts related to trade accounts receivable that may potentially be impaired. The Company recognizes loss allowances for expected credit losses ("ECL's") on accounts receivable. The change in ECL's is recognized in net earnings and reflected as an allowance against accounts receivable. The Company uses historical trends, timing of recoveries and management's judgment as to whether current economic and credit conditions are such that actual losses are likely to differ from historical trends. A significant change in one or more of these factors could impact the estimated allowances for doubtful accounts recorded in the consolidated balance sheets and the provisions for debt loss recorded in the consolidated statements of earnings. Additional information on the valuation of accounts receivable is provided in Note 5 and the Credit Risk section in Note 16 to the consolidated financial statements.

Valuation of Inventories Inventories are stated at the lower of cost and net realizable value. Significant estimation is required in: (1) the determination of margin factors used to convert inventory to cost; (2) recognizing merchandise for which the customer's perception of value has declined and appropriately marking the retail value of the merchandise down to the perceived value; and (3) estimating inventory losses, or shrinkage, occurring between the last physical count and the balance sheet date.

Inventory shrinkage is estimated as a percentage of sales for the period from the date of the last physical inventory count to the balance sheet date. The estimate is based on historical experience and the most recent physical inventory results. To the extent that actual losses experienced vary from those estimated, both inventories and cost of sales may be impacted.

Changes or differences in these estimates may result in changes to inventories on the consolidated balance sheets and a charge or credit to cost of sales in the consolidated statements of earnings. Additional information regarding inventories is provided in Note 6 to the consolidated financial statements.

Post-Employment Benefits The defined benefit plan obligations are accrued based on actuarial valuations which are dependent on assumptions determined by management. These assumptions include the discount rate used to calculate benefit plan obligations, the rate of compensation increase, retirement ages and mortality rates. These assumptions are reviewed by management and the Company's actuaries.

The discount rate used to calculate benefit plan obligations and the rate of compensation increase are the most significant assumptions. The discount rate used to calculate benefit plan obligations and plan asset returns is based on market interest rates, as at the Company's measurement date of January 31, 2026 on a portfolio of Corporate AA bonds with terms to maturity that, on average, matches the terms of the defined benefit plan obligations. The discount rate used to measure the benefit plan obligations for fiscal 2025 was 4.85% compared to 4.62% in 2024 and 4.88% in 2023. Management assumed a rate of compensation increase of 4.0% for fiscal 2025, 2024 and 2023.

These assumptions may change in the future and may result in material changes in the defined benefit plan obligation on the Company's consolidated balance sheets, the defined benefit plan expense on the consolidated statements of earnings and the net actuarial gains or losses recognized in comprehensive income and retained earnings. Changes in financial market returns and interest rates could also result in changes to the funding requirements of the Company's defined benefit pension plans. Additional information regarding the Company's post-employment benefits, including the sensitivity of a 100 basis point change in the discount rate, is provided in Note 13 to the consolidated financial statements.

Amortization of Long-lived Assets and Right-of-Use Assets The Company makes estimates about the expected useful lives of long-lived assets, including right-of-use assets and aircraft, the expected residual values of the assets and the most appropriate method to reflect the realization of the assets future economic benefit. This includes using judgment to determine which asset components constitute a significant cost in relation to the total cost of an asset. Changes to these estimates, which can be significant, could be caused by a variety of factors, including changes in expected useful lives or residual values, changes to maintenance programs and changes in utilization of the aircraft. Estimates and assumptions are evaluated at least annually and any adjustments are accounted for as a change in estimate, on a prospective basis, through amortization expense in the Company's consolidated statements of earnings.

Business Combinations The Company accounts for business combinations using the acquisition method of accounting which requires the acquired assets and assumed liabilities to be recorded at their estimated fair values. Judgment is required to determine the fair value of the assets and liabilities with the most significant judgment and assumptions required to determine the estimated fair values of intangible assets, particularly trade names.

The Company uses the royalty relief method to determine the fair value of the trade name intangible assets. This technique values the intangible assets based on the present value of the expected after-tax royalty cash flow stream using a hypothetical licensing arrangement. Significant assumptions include, among others, the determination of projected revenues, royalty rate, discount rates and anticipated average income tax rates.

Impairment of Long-lived Assets The Company assesses the recoverability of values assigned to long-lived assets after considering potential impairment indicated by such factors as business and market trends, future prospects, current market value and other economic factors. Judgment is used to determine if a triggering event has occurred requiring an impairment test to be completed. If there is an indication of impairment, the recoverable amount of the asset, which is the higher of its fair value less costs of disposal and its value in use, is estimated in order to determine the extent of the impairment loss. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. For tangible and intangible assets excluding goodwill, judgment is required to determine the CGU based on the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. To the extent that the carrying value exceeds the estimated recoverable amount, an impairment charge is recognized in the consolidated statements of earnings in the period in which it occurs.

Various assumptions and estimates are used to determine the recoverable amount of a CGU. The Company determines fair value less costs of disposal using estimates such as market rental rates for comparable properties, property appraisals and capitalization rates. The Company determines value in use based on estimates and assumptions regarding future financial performance. The underlying estimates for cash flows include estimates for future sales, gross margin rates and store expenses, and are based upon the stores' past and expected future performance. Changes which may impact future cash flows include, but are not limited to, competition, general economic conditions and increases in operating costs that cannot be offset by other productivity improvements. To the extent that management's estimates are not realized, future assessments could result in impairment charges that may have a significant impact on the Company's consolidated balance sheets and consolidated statements of earnings.

Goodwill Goodwill is not amortized but is subject to an impairment test annually or whenever indicators of impairment are detected. Judgment is required to determine the appropriate grouping of CGUs for the purpose of testing for impairment. Judgment is also required in evaluating indicators of impairment which would require an impairment test to be completed. Goodwill is allocated to CGUs that are expected to benefit from the synergies of the related business combination and represents the lowest level within the Company at which goodwill is monitored for internal management purposes, which is both the Company's Canadian Operations and International Operations segments before aggregation.

The value of the goodwill was tested by means of comparing the recoverable amount of the operating segment to its carrying value. The recoverable amount is the greater of its value in use or its fair value less costs of disposal. The operating segment's recoverable amount was based on fair value less costs of disposal. A range of fair values was estimated by inferring enterprise values from the product of financial performance and comparable trading multiples. Values assigned to the key assumptions represent management's best estimates and have been based on data from both external and internal sources. Key assumptions used in the estimation of enterprise value include: budgeted financial performance, selection of market trading multiples and costs to sell. To the extent that management's estimates are not realized, future assessments could result in impairment charges that may have a significant impact on the Company's consolidated balance sheets and consolidated statements of earnings.

The Company performed the annual goodwill impairment test in 2025 and determined that the recoverable amount exceeded its carrying value. No goodwill impairment was identified and management considers any reasonably foreseeable changes in key assumptions unlikely to produce a goodwill impairment.

Income and Other Taxes Deferred tax assets and liabilities are recognized for the future income tax consequences attributable to temporary differences between the financial statement carrying values of assets and liabilities and their respective income tax bases. Deferred income tax assets or liabilities are measured using enacted or substantively enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The calculation of current and deferred income taxes requires management to use judgment regarding the interpretation and application of tax legislation in the various jurisdictions in which the Company operates. The calculation of deferred income tax assets and liabilities is also impacted by estimates of future financial results, expectations regarding the timing of reversal of temporary differences and assessing the possible outcome of audits of tax filings by the regulatory agencies.

Changes or differences in these estimates or assumptions may result in changes to the current or deferred income tax balances on the consolidated balance sheets, a charge or credit to income tax expense in the consolidated statements of earnings and may result in cash payments or receipts. Additional information on income taxes is provided in Note 10 to the consolidated financial statements.

Leases The values of right-of-use assets and lease liabilities are measured based on whether renewal options are reasonably certain of being exercised and an estimate of the incremental borrowing rate specific to each leased asset if the interest rate in the lease is not readily determined. The incremental borrowing rate for the Canadian and International Operations is determined based on the applicable corporate bond yield curve with an adjustment that reflects the security.

Promissory Note Receivable This financial asset includes management's estimate of the fair value of contingent consideration receivable for the sale of its Giant Tiger stores. The amount of contingent consideration was dependent on achieving certain financial measures. Based on the financial measures achieved, \$7.5 million of the promissory note receivable was due in 2024 and a further \$5.0 million was due in 2025. The Company has filed a Statement of Claim against Giant Tiger Stores Limited for breach of the asset purchase agreement for failing to pay the contingent cash consideration when due. Additional information on the promissory note receivable is included in Note 5, Note 16 and Note 26 to the consolidated financial statements.

FUTURE ACCOUNTING STANDARDS

In April 2024, the IASB issued IFRS 18 - *Presentation and Disclosure in Financial Statements* to improve the comparability of the financial performance of similar entities. The standard replaces IAS 1 and primarily impacts the statements of earnings where companies will be required to present separate categories of income and expense for operating, investing and financing activities. IFRS 18 will also require management-defined performance measures to be explained and included in a separate note within the consolidated financial statements. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements, and requires retrospective application. The Company is assessing the impact of the new standard.

In May 2024, amendments to IFRS 9 - *Financial Instruments* and IFRS 7 - *Financial Instruments: Disclosures* were issued. These amendments clarify the timing of recognition and derecognition of a financial asset or financial liability. Also included in the amendments are clarifications regarding the classification of financial assets, including those with features linked to environmental, social and corporate governance. The amendments also introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date. The amendments require additional disclosure for financial instruments with contingent features and investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted. The adoption is not expected to have a material impact on the Company's consolidated financial statements.

There are no further IFRS Accounting Standards or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company's consolidated financial statements.

NON-GAAP FINANCIAL MEASURES

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies and should not be construed as an alternative to the other financial measures determined in accordance with IFRS.

(1) Earnings Before Interest, Income Taxes, Depreciation and Amortization (EBITDA), Adjusted EBITDA and Adjusted Net Earnings are not recognized measures under IFRS. Management uses these non-GAAP financial measures to exclude the impact of certain income and expenses that must be recognized under IFRS. The excluded amounts are either subject to volatility in the Company's share price or may not necessarily be reflective of the Company's underlying operating performance. These factors can make comparisons of the Company's financial performance between periods more difficult. The Company may exclude additional items if it believes that doing so will result in a more effective analysis and explanation of the underlying financial performance. The exclusion of these items does not imply that they are non-recurring.

Reconciliation of earnings from operations to EBITDA and adjusted EBITDA

(\$ in thousands)	Consolidated					
	Fourth Quarter			Year-to-date		
	2025	2024	2023	2025	2024	2023

⁽¹⁾ The Next 100 one-time costs include professional fees and other non-recurring expenses incurred in the implementation of the Next 100 work outlined in the Strategies section.

⁽²⁾ On May 5, 2023, the Company's store in Fox Lake, Alberta was destroyed by wildfire which resulted in a write-off of assets.

Reconciliation of consolidated net earnings to adjusted net earnings:

(\$ in thousands)	Fourth Quarter			Year-to-Date		
	2025	2024	2023	2025	2024	2023
Net earnings	\$ 39,512	\$ 42,806	\$ 36,011	\$ 145,929	\$ 143,253	\$ 134,291
Share-based compensation expense, net of tax	3,079	1,074	3,523	9,550	10,818	10,177
The Next 100 one-time costs, net of tax ⁽¹⁾	876	720	—	4,558	720	—
Fox Lake wildfire asset write-off, net of tax ⁽²⁾	—	—	—	—	—	2,551
Adjusted Net Earnings	\$ 43,467	\$ 44,600	\$ 39,534	\$ 160,037	\$ 154,791	\$ 147,019

⁽¹⁾ The Next 100 one-time costs include professional fees and other non-recurring expenses incurred in the implementation of the Next 100 work outlined in the Strategies section.

⁽²⁾ On May 5, 2023, the Company's store in Fox Lake, Alberta was destroyed by wildfire which resulted in a write-off of assets.

Certain share-based compensation costs are presented as liabilities on the Company's consolidated balance sheets. The Company is exposed to market price fluctuations in its share price through these share-based compensation costs. These liabilities are recorded at fair value at each reporting date based on the market price of the Company's shares at the end of each reporting period with the changes in fair value recorded in selling, operating and administrative expenses. Further information on share-based compensation is provided in Note 15 and Note 19 to the consolidated financial statements.

(2) Return on Net Assets (RONA) is not a recognized measure under IFRS. Management believes that RONA is a useful measure to evaluate the financial return on the net assets used in the business. RONA is calculated as earnings from operations (EBIT) for the year divided by average monthly net assets. The following table reconciles net assets used in the RONA calculation to IFRS measures reported in the consolidated financial statements as at January 31 for the following fiscal years:

(\$ in millions)	2025	2024	2023
Total assets	\$ 1,567.1	\$ 1,527.5	\$ 1,396.0
Less: Total liabilities	(744.2)	(732.8)	(690.2)
Add: Total debt and lease liabilities	439.0	422.2	405.5
Net Assets Employed	\$ 1,261.9	\$ 1,216.9	\$ 1,111.3

(3) Return on Average Equity (ROE) is not a recognized measure under IFRS. Management believes that ROE is a useful measure to evaluate the financial return on the amount invested by shareholders. ROE is calculated by dividing net earnings for the year by average monthly total shareholders' equity. There is no directly comparable IFRS measure for return on equity.

GLOSSARY OF TERMS & ABBREVIATIONS

AC Alaska Commercial Company store banner.

Basic earnings per share Net earnings attributable to shareholders of The North West Company Inc. divided by the weighted-average number of shares outstanding during the period.

Basis point A unit of measure that is equal to 1/100th of one percent.

Book value per share Equity attributable to shareholders of The North West Company Inc. divided by the number of shares, basic or diluted, outstanding at the end of the year.

B-to-B Business to business sales.

B-to-C Business to consumer sales.

Compound Annual Growth Rate ("CAGR") The compound annual growth rate is the year-over-year percentage growth rate over a given period of time.

CUL Cost-U-Less store banner.

Debt covenants Restrictions written into banking facilities, senior notes and loan agreements that prohibit the Company from taking actions that may negatively impact the interests of the lenders.

Debt loss An expense resulting from the estimated loss on potentially uncollectible accounts receivable.

Debt-to-equity ratio Provides information on the proportion of debt and equity the Company is using to finance its operations and is calculated as total debt divided by shareholders' equity.

Diluted earnings per share The amount of net earnings for the period attributable to shareholders of The North West Company Inc. divided by the weighted-average number of shares outstanding during the period including the impact of all potential dilutive outstanding shares at the end of the period.

EBIT (Earnings From Operations) Net earnings before interest and income taxes provides an indication of the Company's performance prior to interest expense and income taxes.

EBIT margin EBIT divided by sales.

EBITDA Net earnings before interest, income taxes, depreciation and amortization provides an indication of the Company's operational performance before allocating the cost of interest, income taxes and capital investments. See Non-GAAP Financial Measures section.

EBITDA margin EBITDA divided by sales.

ESG Environmental, social and governance.

Fair value The amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act.

Gross profit Sales less cost of goods sold and inventory shrinkage.

Gross profit rate Gross profit divided by sales.

GT Giant Tiger store banner.

Hedge A risk management technique used to manage interest rate, foreign currency exchange or other exposures arising from business transactions.

Interest coverage Net earnings before interest and income taxes divided by interest expense.

Next 100 The Company's strategy focused on driving operational excellence, expanding our capabilities and pursuing value for our customers, our employees and our shareholders. The initiatives within the Next 100 program leverage the power of data through new tools and analytics, and will be enabled by investments in technology and training, which will help sustain the benefits of this work in the years to come. Further information on the Next 100 strategy and work priorities is provided in the Strategies section.

NSA North Star Air Ltd., a regional airline providing cargo and passenger services in northern Canada.

Return on Average Equity ("ROE") Net earnings divided by average shareholders' equity. See Non-GAAP Financial Measures section.

Return on Net Assets ("RONA") Net earnings before interest and income taxes divided by average net assets employed (total assets less accounts payable and accrued liabilities, income taxes payable, defined benefit plan obligations, deferred tax liabilities, and other long-term liabilities). See Non-GAAP Financial Measures section.

RTW Roadtown Wholesale Trading Ltd. collectively consisting of the Riteway Food Markets banner and a significant wholesale operation.

Same store sales Is a supplementary financial measure of retail food and general merchandise sales performance from stores that have been open more than 52 weeks in the periods being compared, excluding the impact of foreign exchange and the estimated impact of the extra day of sales due to February 29th. Total same store sales consists of retail food and general merchandise sales and excludes other sales.

SOFR Secured Overnight Financing Rate.

WMS Means warehouse management system.

Working capital Total current assets less total current liabilities.

Year The fiscal year ends on January 31. Each fiscal year has 365 days of operations with the exception of a "leap year" which has 366 days of operations as a result of February 29. The following table summarizes the fiscal year:

Fiscal Year	Year-ended	Fiscal Year	Year-ended
2025	January 31, 2026	2019	January 31, 2020
2024*	January 31, 2025	2018	January 31, 2019
2023	January 31, 2024	2017	January 31, 2018
2022	January 31, 2023	2016*	January 31, 2017
2021	January 31, 2022	2015	January 31, 2016
2020*	January 31, 2021	2014	January 31, 2015

* Indicates years that had 366 days of operations due to February 29th.

Eleven-Year Financial Summary

Fiscal Year (\$ in thousands)	2025	2024	2023	2022	2021
Consolidated Statements of Earnings					
Sales - Canadian Operations	\$1,468,863	\$ 1,475,039	\$ 1,418,961	\$1,323,185	\$1,291,139
Sales - International Operations	1,129,346	1,101,305	1,052,717	1,029,575	957,657

(4) At January 31, 2026, accounts receivable includes \$12,500 of the promissory note receivable (January 31, 2025 - \$12,500). See Note 26 to the consolidated financial statements for additional information.

Management's Responsibility for Financial Statements

The management of The North West Company Inc. is responsible for the preparation, presentation and integrity of the accompanying consolidated financial statements and all other information in the annual report. The consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and include certain amounts that are based on reasonable estimates and judgment by management.

In order to meet its responsibility and ensure integrity of financial information, management has established a code of business ethics, and maintains appropriate internal controls and accounting systems. An internal audit function is maintained that is designed to provide reasonable assurance that assets are safeguarded, transactions are authorized and recorded and that the financial records are reliable.

Ultimate responsibility for financial reporting to shareholders rests with the Board of Directors. The Audit Committee of the Board of Directors, consisting of independent Directors, meets periodically with management and with the internal and external auditors to review the audit results, internal controls and the selection and consistent application of appropriate accounting policies. Internal and external auditors have unlimited access to the Audit Committee. The Audit Committee meets separately with management and the external auditors to review the consolidated financial statements and other contents of the annual report and recommend approval by the Board of Directors. The Audit Committee also recommends the independent auditor for appointment by the shareholders.

PricewaterhouseCoopers LLP, an independent firm of auditors appointed by the shareholders, have completed their audit in accordance with Canadian generally accepted audited standards and submitted their report as follows.

Daniel G. McConnell
PRESIDENT & CEO
THE NORTH WEST COMPANY INC.

John D. King, CPA, CA, CMA
EXECUTIVE VICE-PRESIDENT &
CHIEF FINANCIAL OFFICER
THE NORTH WEST COMPANY INC.

April 8, 2026

Independent auditor's report

To the Shareholders of The North West Company Inc.

Our opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of The North West Company Inc. and its subsidiaries (together, the Company) as at January 31, 2026 and 2025, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

What we have audited

The Company's consolidated financial statements comprise:

- the consolidated balance sheets as at January 31, 2026 and 2025;
- the consolidated statements of earnings for the years then ended;
- the consolidated statements of comprehensive income for the years then ended;
- the consolidated statements of changes in shareholders' equity for the years then ended;
- the consolidated statements of cash flows for the years then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended January 31, 2026. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Inventories</p> <p>Refer to note 3 – Material accounting policies and note 6 – Inventories to the consolidated financial statements.</p> <p>As at January 31, 2026, the Company held inventories of \$340.5 million at warehouses, stores and hangars. Inventories are valued at the lower of cost and net realizable value. The cost of warehouse inventories is determined using the weighted-average cost method. The cost of retail inventories is determined using the retail method of accounting for general merchandise inventories and the weighted-average cost method for food inventories. Net realizable value is estimated based on the amount at which inventories are expected to be</p>	<p>Our approach to addressing the matter included the following procedures, among others:</p> <ul style="list-style-type: none">• Tested the operating effectiveness of relevant controls relating to the physical inventory count process for a sample of stores, warehouses and hangars during the year and performed independent test counts.• Tested the operating effectiveness of relevant controls relating to the inventory valuation process, including management's estimate of the inventory provision.• For a sample of inventory items at year-end, tested the underlying data to purchase invoices.• For a sample of general merchandise inventory items valued using the retail method of accounting at year-end,

Key audit matter	How our audit addressed the key audit matter
<p>sold, taking into consideration decreases in retail prices due to obsolescence, damage or seasonality.</p> <p>Valuing inventories requires management to use judgment and estimates related to the determination of margin factors used to convert inventory to cost, future retail sales prices and reductions, inventory losses or shrinkage during periods between the last physical inventory count and the balance sheet date.</p> <p>We considered this a key audit matter due to the magnitude of the inventories balance, the judgment by management in determining the value of inventories, and the audit effort involved in testing the inventories balance at year-end.</p>	<p>tested the underlying data to most recent retail selling prices.</p> <ul style="list-style-type: none"> • For a sample of general merchandise inventory items valued using the retail method of accounting at year-end, tested the underlying data used by management and evaluated the reasonableness of the margin factors applied to convert inventories to cost. • Tested that inventories at year-end were recorded at the lower of cost and net realizable value by comparing a sample of inventory items to the most recent retail selling prices of the inventory items. • Tested that inventories at year-end were recorded in the correct period by comparing a sample of inventory purchases before and after year-end to receiving documents and purchase invoices. • Tested how management estimated the inventory provision at year-end; evaluated the appropriateness of management's inventory provisioning method; tested the underlying data; and evaluated the reasonableness of the assumptions used by management by assessing the percentage of shrinkage based on actual results from the physical inventory counts performed during the year and historical percentage of shrinkage.

Other information

Management is responsible for the other information. The other information comprises the Management's Discussion and Analysis and the information, other than the consolidated financial statements and our auditor's report thereon, included in the annual report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Company as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Desiree Paulsen.

Notes to Consolidated Financial Statements

(\$ IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)
JANUARY 31, 2026 AND 2025

1. ORGANIZATION

The North West Company Inc. ("NWC" or "the Company") is a corporation amalgamated under the Canada Business Corporations Act ("CBCA") and governed by the laws of Canada. The Company, through its subsidiaries, is a leading retailer to rural and remote communities in the following regions: northern Canada, rural Alaska, the South Pacific and the Caribbean. These regions comprise two reportable operating segments: Canadian Operations and International Operations.

The address of its registered office is 77 Main Street, Winnipeg, Manitoba. These consolidated financial statements have been approved for issue by the Board of Directors of the Company on April 8, 2026.

2. BASIS OF PREPARATION

(A) Statement of Compliance The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

(B) Basis of Measurement The consolidated financial statements have been prepared on a going concern basis, under the historical cost convention, except for the following which are measured at fair value, as applicable:

- Liabilities for share-based payment plans (Note 15)
- Defined benefit pension plan (Note 13)
- Assets and liabilities acquired in a business combination

The methods used to measure fair values are discussed further in the notes to these consolidated financial statements.

(C) Functional and Presentation Currency The presentation currency of the consolidated financial statements is Canadian dollars, which is the Company's functional currency. All financial information is presented in Canadian dollars, unless otherwise stated, and has been rounded to the nearest thousand.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies set out below have been applied to all years presented in these consolidated financial statements, and have been applied consistently by both the Company and its subsidiaries using uniform accounting policies for like transactions and other events in similar circumstances.

(A) Basis of Consolidation Subsidiaries are entities controlled, either directly or indirectly, by the Company. Control is established when the Company has rights to an entity's variable returns, and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company until the date that control ceases. The Company assesses control on an ongoing basis.

Net earnings or loss and each component of other comprehensive income are attributed to the shareholders of the Company and to the non-controlling interests. Total comprehensive income is attributed to the shareholders of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance on consolidation.

A joint arrangement can take the form of a joint operation or a joint venture. Joint ventures are those entities over which the Company has joint control of the rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. The Company's 50% interest in Transport Nanuk Inc. has been classified as a joint venture. Its results are included in the consolidated statements of earnings using the equity method of accounting. The consolidated financial statements include the Company's share of both earnings and other comprehensive income from the date that significant influence or joint control commences until the date that it ceases. Joint ventures are carried in the consolidated balance sheets at cost plus post-acquisition changes in the Company's share of net assets of the entity, less any impairment in value.

All significant inter-company amounts and transactions have been eliminated.

(B) Business Combinations Business combinations are accounted for using the acquisition method of accounting. The consideration transferred is measured at the fair value of the assets given, equity instruments issued and liabilities assumed at the date of exchange. Acquisition costs incurred are expensed and included in selling, operating and administrative expenses. Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognized in either net earnings or as a change to other comprehensive income ("OCI"). If the contingent consideration is classified as equity, it will not be remeasured and settlement is accounted for within equity.

Identifiable assets acquired, and liabilities and contingent liabilities assumed in a business combination, are measured initially at their fair values at the acquisition date irrespective of the extent of any non-controlling interest. The excess of the cost of the acquisition over the fair value of the Company's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statements of earnings.

Non-controlling interests are measured either at fair value or their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

(C) Revenue Recognition Revenue on the sale of goods and services is recorded at the time the sale is made or service is rendered to the customer. Sales are presented net of tax, returns and discounts and are measured at the fair value of the consideration received or receivable from the customer for the products sold or services supplied. Service charges on customer account receivables are accrued each month on balances outstanding at each account's billing date.

(D) Inventories Inventories are valued at the lower of cost and net realizable value. The cost of warehouse inventories is determined using the weighted-average cost method. The cost of retail inventories is determined using the retail method of accounting for general merchandise inventories and the weighted-average cost method for food inventories. Cost includes the cost to purchase goods net of vendor rebates plus other costs incurred in bringing inventories to their present location and condition. Net realizable value is estimated based on the amount at which inventories are expected to be sold, taking into consideration decreases in retail prices due to obsolescence, damage or seasonality.

Inventories are written down to net realizable value if net realizable value declines below carrying amount. When circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in selling price, the amount of the write-down previously recorded is reversed.

Aviation-related inventories are valued at the lower of cost and net realizable value.

(E) Vendor Rebates Consideration received from vendors related to the purchase of merchandise is recorded on an accrual basis as a reduction in the cost of the vendor's products and reflected as a reduction of cost of sales and related inventory when it is probable they will be received and the amount can be reliably estimated.

(F) Property and Equipment Property and equipment are stated at cost less accumulated amortization and any impairment losses. Cost includes any directly attributable costs, borrowing costs on qualifying construction projects, and the costs of dismantling and removing the items and restoring the site on which they are located. When major components of an item of property and equipment have different useful lives, they are accounted for as separate items. Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. Assets under construction and land are not amortized. Amortization is calculated from the dates assets are available for use using the straight-line method to allocate the cost of assets less their residual values over their estimated useful lives.

Estimated useful lives of property and equipment are as follows:

Buildings	3% – 8%
Leasehold improvements	3% – 20%
Aircraft	3% – 20%
Fixtures and equipment	8% – 20%
Computer equipment	12% – 33%

Major aircraft maintenance overhaul expenditures, including labour, are capitalized and depreciated over the expected life of the maintenance cycle. Any remaining carrying value, if any, is derecognized when the major maintenance overhaul occurs. All other costs associated with maintenance of aircraft fleet assets are charged to the consolidated statements of earnings as incurred.

(G) Impairment of Non-financial Assets Tangible assets and definite life intangible assets are reviewed at each balance sheet date to determine whether events or conditions indicate that their carrying amount may not be recoverable. If any such indication exists, the recoverable amount of the asset, which is the higher of its fair value less costs of disposal and its value in use, is estimated in order to determine the extent of the impairment loss. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. For tangible and intangible assets excluding goodwill, the CGU is the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. CGUs may comprise individual stores or groups of stores.

Goodwill and indefinite life intangible assets are not amortized but are subject to an impairment test annually and whenever indicators of impairment are detected. Goodwill is allocated to CGUs that are expected to benefit from the synergies of the related business combination and represents the lowest level within the Company at which goodwill is monitored for internal management purposes.

Any impairment charge is recognized in the consolidated statements of earnings in the period in which it occurs, to the extent that the carrying value exceeds its recoverable amount. Where an impairment loss other than an impairment loss on goodwill subsequently reverses due to a change in the original estimate, the carrying amount of the asset is increased to the revised estimate of its recoverable amount. Impairment charges on goodwill are not reversed.

All impairment losses are recognized in the consolidated statements of earnings. An impairment loss, except an impairment loss related to goodwill, is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

(H) Leases At contract inception, the Company assesses whether a contract is, or contains a lease and recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove or restore the underlying asset, less any lease incentives received.

Subsequent to initial measurement, the Company applies the cost model. Right-of-use assets are subsequently amortized using the straight-line method from the lease commencement date to the earlier of the end of their useful life or the end of the lease term. The estimated useful lives of right-of-use assets are determined based on the shorter of the lease term and the useful life of the underlying asset. Right-of-use assets may also be reduced by impairment losses and adjusted for remeasurements of the lease liability, as applicable.

The lease liability is initially measured at the present value of the lease payments unpaid at the commencement date using the interest rate implicit in the lease or the Company's incremental borrowing rate. Lease payments are comprised of fixed payments including in-substance fixed payments, variable lease payments based on an index or rate, amounts expected to be payable under residual value guarantees and the exercise price under a purchase option that the Company is reasonably certain to exercise and certain early termination costs. The period over which the lease payments are discounted is the reasonably certain lease term, which may include lease renewal options. Generally, the Company uses its incremental borrowing rate as the discount rate.

Each lease payment is apportioned between the repayment of the lease liability and a finance cost. The finance cost is recognized in interest expense in the consolidated statements of earnings using the effective interest rate method. The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, a change in lease term, a change in the assessment of an option to purchase the right-of-use asset or a change in an expected residual value guarantee.

The Company has elected not to recognize right-of-use assets and lease liabilities for certain short-term leases that have a lease term of 12 months or less and leases of low-value assets. Variable lease payments that do not depend on an index or rate are also expensed as incurred. The Company recognizes these lease payments as an expense in the consolidated statements of earnings.

- (I) **Borrowing Costs** Borrowing costs directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of the respective asset until it is ready for its intended use. Qualifying assets are those assets that necessarily take a substantial period of time to prepare for their intended use. Borrowing costs are capitalized based on the Company's weighted-average cost of borrowing. All other borrowing costs are expensed as incurred.
- (J) **Goodwill** Goodwill represents the excess of the consideration transferred over the fair value of the identifiable assets, including intangible assets, and liabilities of the acquiree at the date of acquisition. Goodwill is not amortized but is subject to an impairment test annually and whenever indicators of impairment are detected. Goodwill is carried at cost less accumulated impairment losses.
- (K) **Intangible Assets** Intangible assets with finite lives are carried at cost less accumulated amortization and any impairment loss. Amortization is recorded on a straight-line basis over the term of the estimated useful life of the asset as follows:

Software	3 – 7 years
Non-compete agreements	3 – 5 years
Other	5 – 10 years

Intangible assets with indefinite lives comprise the Cost-U-Less and Riteway Food Markets banners. These assets are not amortized but instead tested for impairment annually or more frequently if indicators of impairment are identified.

(L) Share-based Payment Transactions

Equity settled plans Certain stock options and certain performance share units settled in common shares are equity settled share-based payment plans. The grant date fair values of these benefits are recognized as an employee expense over the vesting period, with corresponding increases in equity.

The fair value of these plans is determined using an option pricing model. Market conditions attached to certain equity-settled share-based payments are taken into account when estimating the fair value of the equity instruments granted. Upon exercise or settlement of equity-based instruments, consideration received, if any, together with amounts previously recorded in contributed surplus are recorded as an increase to share capital.

Cash settled plans Certain stock options, certain performance share units, the executive deferred share unit plan and the director deferred share unit plan are cash settled, share-based payments. These plans are measured at fair value at each balance sheet date and a charge or recovery is recognized through the consolidated statements of earnings over the vesting period. A corresponding adjustment is reflected in accounts payable and accrued liabilities or other long-term liabilities.

Estimates related to vesting conditions are reviewed regularly and the value of the charges under both cash settled and equity settled plans are adjusted in the consolidated statements of earnings to reflect expected and actual levels of benefits vesting.

- (M) **Foreign Currency Translation** The accounts of foreign operations have been translated into the presentation currency, Canadian dollars. Assets and liabilities are translated at the period-end exchange rate, and revenues and expenses at the average rate for the period. Foreign exchange gains or losses arising from the translation of the net investment in foreign operations and the portion of the U.S. denominated borrowings designated as a hedge against this investment are recorded in equity as other comprehensive income. Foreign exchange gains or losses recorded in accumulated other comprehensive income ("AOCI") are recognized in net earnings when there is a reduction in the net investment in foreign operations.

Items included in the consolidated financial statements of the Company and its subsidiaries are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). Transactions in foreign currencies are translated to the respective functional currencies at exchange rates approximating the rates in effect at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate ruling at that date.

(N) Income Taxes Income tax expense includes taxes payable on current earnings and changes in deferred tax balances. Current income tax expense is the expected tax payable on taxable income for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous periods.

The Company accounts for deferred income taxes using the liability method of tax allocation. Under the liability method, deferred income tax assets and liabilities are determined based on the temporary differences between the financial statement carrying values and tax bases of assets and liabilities, and are measured using substantively enacted tax rates and laws that are expected to be in effect in the periods in which the deferred income tax assets or liabilities are expected to be realized or settled. The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects to settle the carrying amount of its assets and liabilities. A deferred tax asset is recognized to the extent that it is probable that future taxable earnings will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and there is a legally enforceable right to offset the amounts.

Income tax expense is recognized in the consolidated statements of earnings, except to the extent that it relates to items recognized directly in other comprehensive income or in equity, in which case the related income tax expense is also recognized in other comprehensive income or in equity respectively.

(O) Employee Benefits The Company maintains either a defined benefit or defined contribution pension plan for the majority of its Canadian employees, and an employee savings plan for its U.S. employees. Other benefits include employee bonuses, employee share purchase plans and termination benefits.

Defined Benefit Pension Plan The actuarial determination of the defined benefit obligations for pension benefits uses the projected unit credit method prorated on services which incorporates management's best estimate of the discount rate, salary escalation, retirement rates, termination rates and retirement ages of employees. The discount rate used to value the defined benefit obligation is derived from a portfolio of high quality Corporate AA bonds denominated in the same currency in which the benefits are expected to be paid and with terms to maturity that, on average, match the terms of the defined benefit plan obligations. Bonds included in the curve are denominated in the currency in which the benefits will be paid that have terms to maturity approximating the terms of the related pension liability.

The amount recognized in the consolidated balance sheets at each reporting date represents the present value of the defined benefit obligation, and is reduced by the fair value of plan assets. Any recognized asset or surplus is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions. To the extent that there is uncertainty regarding entitlement to the surplus, no asset is recorded. The Company's funding policy is in compliance with statutory regulations and amounts funded are deductible for income tax purposes.

The actuarially determined expense for current service is recognized annually in the consolidated statements of earnings. The actuarially determined net interest costs on the net defined benefit plan obligation are recognized in interest expense.

All actuarial remeasurements arising from defined benefit plans are recognized in full in the period in which they arise in the consolidated statements of comprehensive income, and are immediately recognized in retained earnings. The effect of the asset ceiling is also recognized in other comprehensive income.

Defined Contribution Pension Plans The Company sponsors defined contribution pension plans for eligible employees where fixed contributions are paid into a registered plan. There is no obligation for the Company to pay any additional amounts into these plans. Contributions to the defined contribution pension plans are expensed as incurred.

Short-term Benefits An undiscounted liability is recognized for the amount expected to be paid under short-term incentive plans or employee share purchase plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Termination Benefits Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If the effect is material, benefits are discounted to present value.

(P) Provisions A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Asset retirement obligations ("ARO") provisions arise from legal or constructive obligations associated with leasehold site remediations and restoration. ARO provisions are measured using an expected value approach of management's best estimate of future cash flows required to settle the obligation and are discounted to present value.

(Q) Financial Instruments

Recognition and derecognition The Company initially recognizes financial instruments on the trade date at which it becomes a party to the contractual provisions of the instrument. Financial instruments are initially measured at fair value. For financial assets or financial liabilities not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability are included in the initial fair value.

Financial assets are derecognized when the contractual rights to receive cash flows and benefits related from the financial asset expire, or the Company transfers the control or substantially all the risks and rewards of ownership of the financial asset to another party. Financial liabilities are derecognized when obligations under the contract expire, are discharged or cancelled. Financial assets and liabilities are offset and the net amount presented in the consolidated balance sheets when the Company has a legal right to offset the amounts and intends to either settle on a net basis or realize the asset and settle the liability simultaneously.

Financial assets On initial recognition, all financial assets are classified to be subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit and loss. The Company's financial assets comprised of cash, accounts receivable, promissory note receivable and other financial assets are classified as amortized cost. Interest revenue, consisting primarily of service charge income on customer accounts receivable and interest imputed on promissory note receivable are included in sales in the consolidated statements of earnings. The Company has no material assets measured at fair value.

The Company recognizes loss allowances for expected credit losses ("ECL's") on accounts receivable and the promissory note receivable. The change in ECL's is recognized in net earnings and reflected as an allowance against accounts receivable. The Company uses historical trends, timing of recoveries and management's judgment as to whether current economic and credit conditions are such that actual losses are likely to differ from historical trends.

Financial liabilities On initial recognition, financial liabilities are classified to be subsequently measured at amortized cost or fair value. The Company's financial liabilities comprised of long-term debt, accounts payable, accrued liabilities, lease liabilities and certain other liabilities are classified as amortized cost. Interest expense is recorded using the effective interest rate method and included in the consolidated statements of earnings as interest expense. The Company has no material liabilities measured at fair value.

Hedging The Company is exposed to financial risks associated with movements in foreign exchange rates. The Company uses a net investment hedge to counterbalance gains and losses arising on the retranslation of foreign operations with gains and losses on a financial liability. The Company has designated certain U.S. denominated debt as a hedge of its net investment in International Operations.

To the extent that the hedging relationship is effective, the foreign exchange gains and losses arising from translation of this debt are included in other comprehensive income and presented within shareholders' equity as accumulated other comprehensive income. These gains and losses are fully or partially reclassified to earnings on disposal or partial disposal of foreign operations. Any ineffective portion of the changes in fair value of the hedging item is recognized immediately in earnings.

To qualify for hedge accounting, the Company documents its risk management strategy, the relationship between the hedging instrument and the hedged item and the nature of the risks being hedged. The Company also documents the assessment of the effectiveness of the hedging relationship to show that the hedge has been and will likely be highly effective on an ongoing basis.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognized in accumulated other comprehensive income is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in other comprehensive income is transferred to the consolidated statements of earnings for the period.

(R) Cash Cash comprises cash on hand and balances with banks.

(S) Net Earnings Per Share Basic net earnings per share are calculated by dividing the net earnings attributable to shareholders of The North West Company Inc. by the weighted-average number of common shares outstanding during the period. Diluted net earnings per share is determined by adjusting these net earnings and the weighted-average number of common shares outstanding for the effects of all potentially dilutive shares, which comprise potential shares issued under the Share Option Plan, Performance Share Unit Plan and Director Deferred Share Unit Plan.

(T) Dividends Dividends declared and payable to the Company's shareholders are recognized as a liability in the consolidated balance sheets in the period in which distributions are declared.

(U) Use of Estimates, Assumptions & Judgment The preparation of consolidated financial statements in conformity with IFRS Accounting Standards requires management to make estimates, assumptions and judgments that affect the application of accounting policies, the reported amounts of revenues and expenses during the reporting period and disclosure of contingent assets and liabilities in the consolidated financial statements and notes. Judgment has been used in the application of accounting policy and to determine if a transaction should be recognized or disclosed in these consolidated financial statements, while estimates and assumptions have been used to measure balances recognized or disclosed.

Estimates, assumptions and judgments are based on management's historical experience, best knowledge of current events, conditions and actions that the Company may undertake in the future and other factors that management believes are reasonable under the circumstances. Estimates and underlying assumptions are reviewed on an ongoing basis. Certain of these estimates require subjective or complex judgments by management about matters that are uncertain and changes in these estimates could materially impact the consolidated financial statements and notes. Revisions to accounting estimates are recognized in the period in which the estimates are reviewed and in any future periods affected.

The areas that management believes involve a higher degree of judgment or complexity, or areas where the estimates and assumptions may have the most material impact on the amounts recognized in the consolidated financial statements include the following:

- Allowance for doubtful accounts is estimated based on an expected credit loss impairment model based on historical trends, timing of recoveries and management's judgment as to whether current economic and credit conditions are such that actual losses are likely to differ from historical trends (Notes 5, 16)
- Inventories are remeasured based on the lower of cost and net realizable value (Note 6)
- Amortization methods for property and equipment, including aircraft and right-of-use assets, are based on management's estimate of the most appropriate method to reflect the pattern of an asset's future economic benefit. This includes judgment of what asset components constitute a material cost in relation to the total cost of an asset (Notes 7, 8)
- Impairment of long-lived assets is influenced by judgment in determining indicators of impairment and estimates used to measure impairment losses, if any (Note 7)

- Goodwill and indefinite life intangible asset impairment is dependent on judgment used to identify indicators of impairment and estimates used to measure impairment losses, if any (Note 9)
- Income taxes have judgment applied to determine when tax losses, credits and provisions are recognized based on tax rules in various jurisdictions (Note 10)
- Defined benefit pension plan obligation and expense depends on assumptions used in the actuarial valuation (Note 13)
- Leases require assumptions and estimates in order to determine the value of the right-of-use assets and lease liabilities, the implicit and incremental borrowing rates, as applicable, and whether renewal options are reasonably certain of being exercised (Note 8)
- Promissory note receivable includes management's estimate of the fair value of contingent consideration receivable for the sale of its Giant Tiger stores (Note 26)

(V) Share capital Common shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity, net of any tax effects. Share repurchases are deducted from share capital at their historical average cost and the excess between the repurchase price and historical average cost charged to retained earnings.

(W) Government Grants and Subsidies The Company recognizes government grants for expenses incurred in the consolidated statements of earnings on a systematic basis in the periods in which the associated expenses are recognized, provided the Company will comply with the program conditions and there is reasonable assurance they will be received.

(X) Future Standards and Amendments In April 2024, the IASB issued IFRS 18 - *Presentation and Disclosure in Financial Statements* to improve the comparability of the financial performance of similar entities. The standard replaces IAS 1 and primarily impacts the statements of earnings where companies will be required to present separate categories of income and expense for operating, investing and financing activities. IFRS 18 will also require management-defined performance measures to be explained and included in a separate note within the consolidated financial statements. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements, and requires retrospective application. The Company is assessing the impact of the new standard.

In May 2024, amendments to IFRS 9 - *Financial Instruments* and IFRS 7 - *Financial Instruments: Disclosures* were issued. These amendments clarify the timing of recognition and derecognition of a financial asset or financial liability. Also included in the amendments are clarifications regarding the classification of financial assets, including those with features linked to environmental, social and corporate governance. The amendments also introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date. The amendments also require additional disclosure for financial instruments with contingent features and investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted. The adoption is not expected to have a material impact on the Company's consolidated financial statements.

There are no further IFRS Accounting Standards or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company's consolidated financial statements.

4. SEGMENTED INFORMATION

The Company is a retailer of food and everyday products and services in two geographical segments, Canadian and International. The Canadian segment consists of subsidiaries operating retail stores and complimentary businesses to serve northern Canada. The International segment consists of subsidiaries operating in the continental United States, Caribbean and South Pacific. Financial information for these business segments is regularly reviewed by the Company's President and Chief Executive Officer to assess performance and make decisions about the allocation of resources. The following key information is presented by geographic segment:

Consolidated Statements of Earnings		
Year Ended	January 31, 2026	January 31, 2025
Sales		
Canadian		
Food	\$ 979,266	\$ 988,323
General merchandise and other	489,597	486,716
Canadian	\$ 1,468,863	\$ 1,475,039
International		
Food	\$ 1,033,218	\$ 1,001,050
General merchandise and other	96,128	100,255
International	\$ 1,129,346	\$ 1,101,305
Consolidated	\$ 2,598,209	\$ 2,576,344
Earnings before amortization, interest and income taxes		
Canadian	\$ 224,262	\$ 223,546
International	108,382	101,619
Consolidated	\$ 332,644	\$ 325,165
Earnings from operations		
Canadian	\$ 145,968	\$ 146,875
International	66,068	62,671
Consolidated	\$ 212,036	\$ 209,546

Supplemental Information		
	January 31, 2026	January 31, 2025
Assets		
Canadian ⁽¹⁾	\$ 963,417	\$ 914,178
International ⁽¹⁾	603,663	613,327
Consolidated	\$ 1,567,080	\$ 1,527,505

Year Ended	January 31, 2026		January 31, 2025	
	Canadian	Int'l	Canadian	Int'l
Purchase of property and equipment	\$ 89,803	\$36,208	\$ 98,149	\$ 42,061
Total amortization	\$ 78,294	\$42,314	\$ 76,671	\$ 38,948

(1) Canadian total assets includes goodwill of \$11,025 (January 31, 2025 – \$11,025). International total assets includes goodwill of \$40,092 (January 31, 2025 – \$42,654).

5. ACCOUNTS RECEIVABLE

	January 31, 2026	January 31, 2025
Trade accounts receivable	\$ 83,395	\$ 88,161
Corporate and other accounts receivable ⁽¹⁾	36,508	43,537
Less: allowance for doubtful accounts	(11,077)	(12,675)
	\$ 108,826	\$ 119,023

(1) At January 31, 2026, corporate and other accounts receivable includes a \$12,500 promissory note receivable (January 31, 2025 - \$12,500). See Note 26.

The carrying values of accounts receivable are a reasonable approximation of their fair values. The maximum exposure to credit risk at the reporting date is the carrying value of each class of receivable mentioned above. Credit risk for trade accounts receivable is discussed in Note 16. Corporate and other accounts receivable have a lower risk profile relative to trade accounts receivable because they are largely due from government or corporate entities.

Movements in the allowance for doubtful accounts for customer and commercial accounts receivables are as follows:

	January 31, 2026	January 31, 2025
Balance, beginning of year	\$ (12,675)	\$ (12,709)
Net charge	(10,909)	(10,631)
Written off	12,507	10,665
Balance, end of year	\$ (11,077)	\$ (12,675)

6. INVENTORIES

Inventories are valued at the lower of cost and net realizable value. Valuing inventories requires the Company to use estimates related to: the determination of margin factors used to convert inventory to cost; future retail sales prices and reductions, inventory losses or shrinkage during periods between the last physical count and the balance sheet date; and vendor rebates based on the volume of purchases during a period of time, product remaining in closing inventory and the probability that funds will be collected from vendors. Included in cost of sales for the year ended January 31, 2026, the Company recorded \$1,863 (January 31, 2025 – \$2,047) for the write-down of inventories as a result of net realizable value being lower than cost. There was no reversal of inventories written down previously that are no longer estimated to sell below cost during the year ended January 31, 2026 or 2025.

Inventories include aviation-related parts of \$10,698 (January 31, 2025 – \$10,591).

7. PROPERTY & EQUIPMENT

The Company reviews its property and equipment for indicators of impairment. No assets were identified as impaired for the years ended January 31, 2026 and January 31, 2025.

Interest capitalized

Interest attributable to the construction of qualifying assets was capitalized using an average rate of 3.9% and 4.5% for the years ended January 31, 2026 and 2025 respectively. Interest capitalized in additions amounted to \$382 (January 31, 2025 – \$711). Accumulated interest capitalized in the cost total above amounted to \$4,756 (January 31, 2025 – \$4,374).

8. RIGHT-OF-USE ASSETS & LEASE LIABILITIES

Right-of-use assets								
January 31, 2026	Land & buildings		Fixtures & equipment		Aircraft	Total

Total January 31, 2025	\$	137,003	\$	6,710	\$	406	\$	144,119
Net book value January 31, 2025	\$	111,520	\$	5,619	\$	1,055	\$	118,194

Lease liabilities

The total current and long-term lease liability is \$20,408 (January 31, 2025 – \$20,848) and \$107,105 (January 31, 2025 – \$105,558) respectively. The Company's lease liabilities are discounted at its incremental borrowing rate, generally calculated from applicable Canadian and U.S. corporate bond yields. At January 31, 2026, lease liabilities reflect a weighted-average risk-free rate of 4.4% (January 31, 2025 – 4.4%) and weighted-average remaining lease term of 9.5 years (January 31, 2025 – 9.9 years).

Maturity analysis - contractual undiscounted cash flows

	January 31, 2026
0-1 year	\$ 26,264
2-3 years	42,956
4-5 years	29,990
6 years+	63,805
Total undiscounted cash flows	\$ 163,015

Variable Lease Expense

Some property leases contain variable payment terms that are linked to sales generated from a store. For individual stores, up to 100% of lease payments are on the basis of variable payment terms. Variable payment terms are used for a variety of reasons, including minimizing the fixed costs base for newly established stores. Variable lease payments that depend on sales are recognized in net earnings in the period in which the condition that triggers those payments occurs. Some aircraft leases also contain variable payment terms based on usage and are recognized as operating expenses. The Company had variable lease expense not included in lease liabilities of \$6,968 (January 31, 2025 – \$6,652).

Extension Options

Some store leases contain extension options exercisable by the Company up to one year before the end of the non-cancellable contract period. Where practicable, the Company seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Company and not by the lessors. The Company assesses at lease commencement whether it is reasonably certain to exercise the extension options. The extension options included by the Company do not extend the lease beyond ten years. The Company reassesses whether it is reasonably certain to exercise the options if there is a significant event or significant change in circumstances within its control.

Other leases

Short-term and low value lease payments are not material.

9. GOODWILL & INTANGIBLE ASSETS

Goodwill

	January 31, 2026	January 31, 2025
Balance, beginning of year	\$ 53,679	\$ 50,519
Effect of movements in foreign exchange	(2,562)	3,160
Balance, end of year	\$ 51,117	\$ 53,679

Goodwill represents the excess of the consideration transferred to acquire businesses over the fair value of their identifiable assets.

Goodwill Impairment Testing

A goodwill asset balance of \$40,092 (January 31, 2025 – \$42,654) relates to acquisition of subsidiaries by the Company's International Operations. A goodwill asset balance of \$11,025 (January 31, 2025 – \$11,025) relates to acquisitions by the Company's Canadian Operations. These balances were tested by means of comparing the recoverable amount of the operating segment to its carrying value. The recoverable amount was based on its fair value less costs to sell.

The recoverable amount was estimated from the product of financial performance and trading multiples observed for both the Company and other publicly traded retail companies. Values assigned to the key assumptions represent management's best estimates and have been based on data from both external and internal sources. This fair value measurement was categorized as a Level 3 fair value measurement based on the inputs in the valuation technique used. Key assumptions used in the estimation of enterprise value are as follows:

- Financial performance was measured with actual and budgeted earnings based on sales and expense growth specific to each store and the Company's administrative offices. Financial budgets and forecasts are approved by senior management and consider historical sales volume and price growth;
- The ratio of enterprise value to financial performance was determined using a range of market trading multiples from the Company and other public retail companies; and
- Costs to sell have been estimated as a fixed percentage of enterprise value. This is consistent with the approach of an independent market participant.

No impairment has been identified on goodwill, and management considers reasonably foreseeable changes in key assumptions are unlikely to produce a goodwill impairment.

Intangible assets

January 31, 2026	Software	Store banners	Non-Compete and Other	Total
Cost				
Balance, beginning of year	\$ 76,586	\$ 11,141	\$ 16,631	\$ 104,358

Total January 31, 2025	\$ 62,789	\$ —	\$ 13,343	\$ 76,132
Net book value January 31, 2025	\$ 13,797	\$ 11,141	\$ 3,288	\$ 28,226

Work in process

As at January 31, 2026, the Company had incurred \$7,564 (January 31, 2025 – \$146) for intangible assets that were not yet available for use, and therefore not subject to amortization.

Intangible Asset Impairment Testing

The Company determines the fair value of the store banners using the Relief from Royalty approach. This method requires management to make long-term assumptions about future sales, terminal growth rates, royalty rates and discount rates. Sales forecasts for the following financial year together with medium and terminal growth rates ranging from 2% to 5% are used to estimate future sales, to which a royalty rate of 0.5% is applied. The present value of this royalty stream is compared to the carrying value of the asset. No impairment has been identified on intangible assets and management considers reasonably foreseeable changes in key assumptions are unlikely to produce an intangible asset impairment.

10. INCOME TAXES

The following are the major components of income tax expense:

Year Ended	January 31, 2026	January 31, 2025
Current tax expense:		
Current tax on earnings for the year	\$ 57,589	\$ 51,019
Withholding taxes	804	105
Over provision in prior years	(415)	(94)
	\$ 57,978	\$ 51,030
Deferred tax expense:		
Origination and reversal of temporary differences	\$ (9,390)	\$ (3,886)
Impact of change in tax rates	3	14
Under provision in prior years	59	834
	\$ (9,328)	\$ (3,038)
Income taxes	\$ 48,650	\$ 47,992

Income tax expense varies from the amounts that would be computed by applying the statutory income tax rate to earnings before taxes for the following reasons:

Year Ended	January 31, 2026	January 31, 2025
Earnings before income taxes	\$194,579	\$191,245
Combined statutory income tax rate	22.8 %	24.9 %
Expected income tax expense	\$ 44,323	\$47,662
Increase (decrease) in income taxes resulting from:		
Non-deductible expenses	\$ 539	\$ 1,285
Utilization of previously unrecognized losses	364	(3,245)
Withholding taxes	804	105
Impact of change in tax rates	3	14
GMTA - Pillar 2 tax ⁽¹⁾	2,641	1,420
Under/(over) provision in prior years	(356)	740
Other	332	11
Provision for income taxes	\$ 48,650	\$47,992
Income tax rate	25.0 %	25.1 %

(1) The Company is subject to the Organization for Economic Cooperation and Development's ("OECD's") Pillar Two global minimum tax regime, effective January 1, 2024, as a result of the enactment of the Global Minimum Tax Act ("GMTA") in Canada. For the year-ended January 31, 2026, the Company recognized current tax expense of \$2,641 (January 31, 2025 – \$1,420) related to the top-up tax on the profits of the Company's retail operations in the Cayman Islands, Barbados and the British Virgin Islands.

Changes in the combined statutory income tax rate primarily reflect changes in earnings of the Company's subsidiaries across various tax jurisdictions.

Deferred tax assets of \$2,191 (January 31, 2025 – \$1,869) arising from certain foreign income tax losses were not recognized on the consolidated balance sheets. The income tax losses expire from 2028 – 2034.

Deferred income tax charged (credited) to other comprehensive income during the year is as follows:

Year Ended	January 31, 2026	January 31, 2025
Net investment hedge:		
Origination and reversal of temporary difference	\$ 819	\$ (1,008)
Defined benefit plan actuarial gain:		
Origination and reversal of temporary difference	\$ 935	\$ 1,321
Impact of change in tax rates	—	4
	\$ 935	\$ 1,325

Income tax effects of temporary differences that give rise to significant portions of deferred income tax assets and liabilities are as follows:

	February 1, 2025	Taxes (charged) credited to net earnings	Taxes charged to OCI	Other adjustments	January 31, 2026
Deferred tax assets:					
Property & equipment	\$ 14,760	\$ 1,970	\$ —	\$ (146)	\$ 16,584
Lease obligation	30,237	2,054	—	(831)	31,460
Inventory	5,828	181	—	(165)	5,844
Share-based compensation and long-term incentive plans	6,611	393	—	(78)	6,926
Defined benefit plan obligation	1,303	434	(935)	—	802
Accrued liabilities	4,181	(48)	—	(147)	3,986
Deferred limited partnership earnings	—	383	—	—	383
Unrealized foreign exchange loss	883	—	(819)	—	64
Other	1,529	896	—	(117)	2,308
	\$ 65,332	\$ 6,263	\$ (1,754)	\$ (1,484)	\$ 68,357
Deferred tax liabilities:					
Goodwill & intangible assets	\$ (1,590)	\$ (63)	\$ —	\$ 97	\$ (1,556)
Property & equipment	(15,163)	(59)	—	334	(14,888)
Right-of-use assets	(28,481)	(1,875)	—	777	(29,579)
Investment in joint venture	(2,313)	(83)	—	—	(2,396)
Deferred limited partnership earnings	(4,769)	4,769	—	—	—
Other	(6,933)	376	—	277	(6,280)
	\$ (59,249)	\$ 3,065	\$ —	\$ 1,485	\$ (54,699)
	\$ 6,083	\$ 9,328	\$ (1,754)	\$ 1	\$ 13,658

As presented on consolidated balance sheets:

	January 31, 2026	January 31, 2025
Deferred tax assets	\$ 26,934	\$ 19,055

In assessing the recovery of deferred income tax assets, management considers whether it is probable that the deferred income tax assets will be realized. The recognition and measurement of the current and deferred tax assets and liabilities involves dealing with uncertainties in the application of complex tax regulations and in the assessment of the recoverability of deferred tax assets. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences are deductible.

Actual income taxes could vary from these estimates as a result of future events, including changes in income tax laws or the outcome of tax reviews by tax authorities and related appeals. To the extent the final outcome is different from the amounts initially recorded, such differences, which could be significant, will impact the tax provision in the period in which the outcome is determined.

No deferred tax has been recognized in respect of temporary differences between the carrying value and tax value of investments in subsidiaries. The Company is in a position to control the timing and reversal of these differences and believes it is probable that they will not reverse in the foreseeable future. The temporary differences associated with the Company's foreign subsidiaries are approximately \$359,282 at January 31, 2026 (January 31, 2025 – \$337,135).

11. OTHER ASSETS

	January 31, 2026	January 31, 2025
Defined benefit plan asset (Note 13)	\$ 21,244	\$ 19,060
Investment in joint venture (Note 25)	17,750	17,140
Other	1,931	2,112
Total	\$ 40,925	\$ 38,312

12. LONG-TERM DEBT

	January 31, 2026	January 31, 2025
Current:	\$ —	\$ —
Non-current:		
Revolving loan facility ⁽¹⁾	\$ —	\$ —
Revolving loan facilities ⁽²⁾	—	—
Revolving loan facilities ⁽³⁾	116,250	94,531
Senior notes ⁽⁴⁾	95,187	101,245
Senior notes ⁽⁵⁾	100,000	100,000
	\$ 311,437	\$ 295,776
Total	\$ 311,437	\$ 295,776

(1) The committed, revolving U.S. loan facility provides the International Operations with up to US\$50,000 for working capital requirements and general business purposes. This facility matures January 25, 2028, bears a floating rate of interest based on SOFR plus a spread and is secured by certain accounts receivable and inventories of the International Operations. At January 31, 2026, the International Operations had drawn US\$NIL (January 31, 2025 – US\$NIL) on this facility.

(2) The US\$52,000 loan facilities mature March 1, 2027 and bear interest at SOFR plus a spread. These committed loan facilities are secured by certain assets of the Company and rank *pari passu* with the \$100,000 senior notes, the US\$70,000 senior notes due in 2027 and 2032, and the \$400,000 Canadian Operations loan facilities. At January 31, 2026, the Company had drawn US\$NIL (January 31, 2025 – US\$NIL) on these facilities. See Note 27, Subsequent Event.

(3) These committed, revolving loan facilities provide the Company's Canadian Operations with up to \$400,000 for working capital and general business purposes. These facilities are secured by certain assets of the Company and rank *pari passu* with the \$100,000 senior notes, the US\$70,000 senior notes due in 2027 and 2032 and the US\$52,000 loan facilities. These facilities mature March 1, 2027 and bear a floating interest rate based on the Canadian Overnight Repo Rate or the Canadian prime interest rate. See Note 27, Subsequent Event.

(4) These US\$70,000 senior notes comprise US\$35,000 due June 16, 2027 with a fixed interest rate of 2.88% and US\$35,000 due June 16, 2032 with a fixed interest rate of 3.09%. The senior notes are secured by certain assets of the Company and rank *pari passu* with the \$400,000 Canadian Operations loan facilities, the \$100,000 senior notes and the US\$52,000 loan facilities.

(5) The \$100,000 senior notes mature September 26, 2029, have a fixed interest rate of 3.74%, are secured by certain assets of the Company and rank *pari passu* with the \$400,000 Canadian Operations loan facilities, the US\$70,000 senior notes due in 2027 and 2032 and the US\$52,000 loan facilities.

13. POST-EMPLOYMENT BENEFITS

The Company sponsors defined benefit and defined contribution pension plans covering the majority of Canadian employees. Effective January 1, 2011, the Company entered into an amended and restated staff pension plan, which incorporated legislated changes, administrative practice, and added a defined contribution provision (the "Amended Plan"). Under the Amended Plan, all members as of December 31, 2010 who did not meet a qualifying threshold based on number of years in the pension plan and age were transitioned to the defined contribution pension plan effective January 1, 2011 and no longer accumulate years of service under the defined benefit pension plan. The defined benefit pension previously earned by members transitioned to the defined contribution plan, will continue to accrue in accordance with the terms of the plan based on the member's current pensionable earnings. Members who met the qualifying threshold on January 1, 2011, elected between accruing a defined contribution benefit and continuing to accrue a defined benefit pension in accordance with the provisions of the Amended Plan. All of the Company's defined benefit pension plans are closed to new members.

The defined benefit pension plans are based on years of service and final average salary. The Company uses actuarial reports prepared by independent actuaries for accounting purposes as at January 31, 2026 and January 31, 2025. The accrued pension benefits and funding requirements were last determined by actuarial valuation as at December 31, 2024. The next actuarial valuation is required as at December 31, 2027. The Company also sponsors an employee savings plan covering certain U.S. employees with at least six months of service. Under the terms of the plan, the Company is obligated to make contributions that range between 3% and 5% of eligible compensation.

During the year ended January 31, 2026, the Company's funded pension plans were in a surplus position and no cash contributions were required (January 31, 2025 – \$NIL). During the year ended January 31, 2026, the Company contributed \$7,615 to its defined contribution pension plans and U.S. employees savings plans (January 31, 2025 – \$7,367). There are no funding obligations for the defined benefit pension plans for the year commencing February 1, 2026. The actual amount paid may vary from the estimate based on actuarial valuations being completed, investment performance, volatility in discount rates, regulatory requirements and other factors.

Movement in plan assets and defined benefit obligation

Information on the Company's defined benefit plans, in aggregate, is as follows:

	January 31, 2026	January 31, 2025
Plan assets:		
Fair value, beginning of year	\$ 107,837	\$ 99,302
Accrued interest on assets	4,878	4,739
Benefits paid	(5,162)	(4,917)
Plan administration costs	(664)	(483)
Employee contributions	2	1
Return on assets greater than discount rate	245	9,195
Fair value, end of year	\$ 107,136	\$ 107,837
Plan obligations:		
Defined benefit obligation, beginning of year	\$ (109,632)	\$ (104,662)
Current service costs	(1,560)	(1,452)
Employee contributions	(2)	(1)
Interest on plan liabilities	(4,943)	(4,980)
Benefits paid	5,915	5,744
Actuarial remeasurement due to:		
Plan experience	144	(632)
Financial assumptions	3,086	(3,649)
Defined benefit obligation, end of year	\$ (106,992)	\$ (109,632)
Plan surplus/(deficit)	\$ 144	\$ (1,795)

As presented on consolidated balance sheets:

	January 31, 2026	January 31, 2025
Other assets (Note 11)	\$ 21,244	\$ 19,060
Defined benefit plan obligation	(21,100)	(20,855)
Plan surplus/(deficit)	\$ 144	\$ (1,795)

Registered plans are funded in accordance with the applicable statutory funding rules and regulations governing the particular plans.

Defined benefit obligation

The following actuarial assumptions were employed to measure the plan:

	January 31, 2026	January 31, 2025
Discount rate on plan liabilities	4.85 %	4.62 %
Rate of compensation increase	4.00 %	4.00 %
Discount rate on plan expense	4.62 %	4.88 %
Inflation assumption	2.00 %	2.00 %

The assumptions used are the best estimates chosen from a range of possible actuarial assumptions, which may not necessarily be borne out in practice. The weighted-average duration of the defined benefit obligation at the end of the reporting period is 12.4 years (January 31, 2025 – 13.0 years).

The average life expectancy in years of a member who reaches normal retirement age of 65 is as follows:

	January 31, 2026	January 31, 2025
Average life expectancies at age 65 for current pensioners:		
Male	21.8	21.7
Female	24.2	24.2
Average life expectancies at age 65 for current members aged 45:		
Male	22.9	22.9
Female	25.3	25.3

Assumptions regarding future mortality experience are set based on actuarial advice in accordance with published statistics and experience. For the years ended January 31, 2026 and 2025, mortality assumptions have been estimated at 106% of the base mortality rates in the CPM2014PRIV table based on pension size and industry classification.

Sensitivity of key assumption

The following table outlines the sensitivity of a 1% change in the discount rate used to measure the defined benefit plan obligation and cost for the defined benefit pension plans. The table reflects the impact on both the current service and interest cost expense components.

The sensitivity analysis provided in the key assumption table is hypothetical and should be used with caution. The sensitivities have been calculated independently of any changes in other assumptions. Actual experience may result in changes in a number of key assumptions simultaneously. Changes in one factor may result in changes in another, which could amplify or reduce the impact of such assumptions.

	January 31, 2026	January 31, 2025
Define benefit plan obligation		
Impact of:		
1% increase	\$ (11,996)	\$ (12,814)
1% decrease	14,519	15,572
Benefit plan cost		
Impact of:		
1% increase	\$ (1,067)	\$ (1,154)
1% decrease	568	700

Plan assets

The major categories of plan assets as a percentage of total plan assets are listed below. The pension plans have no direct investment in the shares of the Company.

	January 31, 2026	January 31, 2025
Plan assets:		
Canadian equities (pooled)	21.3 %	20.1 %
Global equities (pooled)	37.1 %	39.8 %
Real estate equities (pooled)	8.6 %	8.3 %
Debt securities	33.0 %	31.8 %
Total	100.0 %	100.0 %

Governance and plan management

The Company's Pension Committees oversee the pension plans. These committees are responsible for assisting the Board of Directors to fulfill its governance responsibilities for the plans. The committees assist with plan administration, regulatory compliance, pension investment and monitoring responsibilities.

Plan assets are subject to the risk that changes in market prices, such as interest rates, foreign exchange and equity prices will affect their value. A Statement of Investment Policy and Procedures ("SIPP") guides the investing activity of the defined benefit pension plans to mitigate market risk. Assets are expected to achieve, over moving three to four-year periods, a return at least equal to a composite benchmark made up of passive investments in appropriate market indices. These indices are consistent with the policy allocation in the SIPP.

Periodically, an Asset-Liability Modeling study is done to update the policy allocation between liability hedging assets and return seeking assets. This is consistent with managing both the funded status of the defined benefit pension plans and the Company's long-term costs. It assists with adequately securing benefits and mitigating year-to-year fluctuations in the Company's cash contributions and pension expense. The defined benefit plans are subject to, and actively manage, the following specific market risks:

Interest rate risk: is managed by allocating a portion of plan investments to liability hedging assets, comprised of a passive long bond fund.

Currency risk: is managed through asset allocation. A significant portion of plan assets are denominated in the same currency as plan obligations.

Equity price risk: The defined benefit pension plans are directly exposed to equity price risk on return seeking assets. Fair value or future cash flows will fluctuate due to changes in market prices because they may not be offset by changes in obligations. Investment management of plan assets is outsourced to independent managers.

Statements of earnings and comprehensive income

The following pension expenses have been charged to the consolidated statements of earnings:

Year ended	January 31, 2026	January 31, 2025
Employee costs (Note 19)		
Defined benefit pension plan, current service costs included in post-employment benefits	\$ 1,560	\$ 1,452
Plan administration costs	664	483
Defined contribution pension plan	5,500	5,460
Savings plan for U.S. employees	2,115	1,907
Total	\$ 9,839	\$ 9,302
Interest expense (Note 20)		
Accrued interest on assets	\$ (4,878)	\$ (4,739)
Interest on plan liabilities	4,943	4,980
Total	\$ 65	\$ 241

The following amounts have been included in other comprehensive income:

Year ended	January 31, 2026	January 31, 2025
Current Year:		
Return on assets greater than discount rate	\$ 245	\$ 9,195
Actuarial rereasurement due to:		
Plan experience	144	(632)
Financial assumptions	3,086	(3,649)
Taxes on actuarial rereasurement in OCI	(935)	(1,325)
Net actuarial rereasurement recognized in OCI	\$ 2,540	\$ 3,589
Cumulative gains/(losses) recognized in AOCI:		
Cumulative gross actuarial rereasurement in AOCI	\$ 31,044	\$ 27,569
Taxes on cumulative actuarial rereasurement in AOCI	(10,434)	(9,499)
Total actuarial rereasurement recognized in AOCI, net	\$ 20,610	\$ 18,070

The actual return on the plans assets is summarized as follows:

Year ended	January 31, 2026	January 31, 2025
Accrued interest on assets	\$ 4,878	\$ 4,739
Return on assets greater than discount rate	245	9,195
Actual return on plan assets	\$ 5,123	\$ 13,934

14. OTHER LONG-TERM LIABILITIES

	January 31, 2026	January 31, 2025
Director deferred share unit liability (Note 15)	\$ 12,762	\$ 10,500
Asset retirement obligations	9,428	7,449
Other	4,488	4,827
Total	\$ 26,678	\$ 22,776

Asset retirement obligations ("ARO") are recognized where there are legal or constructive obligations associated with leasehold site remediations and site restoration. ARO provisions are measured at the present value of management's best estimate of future cash flows required to settle the obligation.

Actual costs are uncertain and estimates may vary as a result of changes to relevant laws and regulations, operating experiences, prices and closure plans. The estimated timing of future decommissioning and restoration may change due to various factors, including closure plans. Changes to estimates related to future expected costs, discount rates, inflation assumptions and timing may have a material impact on the amounts presented.

15. SHARE-BASED COMPENSATION

The Company offers the following share-based payment plans: Performance Share Units (PSUs); Share Options; Director Deferred Share Units (DDSUs); Executive Deferred Share Units (EDSUs) and an Employee Share Purchase Plan. The purpose of these plans is to directly align the interests of the participants and the shareholders of the Company by providing compensation that is dependent on the performance of the Company's common shares.

The total expense relating to share-based payment plans for the year ended January 31, 2026 was \$12,702 (January 31, 2025 – \$14,250). The carrying amount of the Company's share-based compensation arrangements including PSU, share option, DDSU and EDSU plans are recorded on the consolidated balance sheets as follows:

	January 31, 2026	January 31, 2025
Accounts payable and accrued liabilities	\$ 2,980	\$ 2,750
Other long-term liabilities	15,447	14,476
Contributed surplus	10,216	9,901
Total	\$ 28,643	\$ 27,127

Performance Share Units

The Company has granted PSUs to officers and senior management. Each PSU entitles the participant to receive either a cash payment equal to the market value of the number of notional units granted or one share of the Company for each notional unit granted at the end of the vesting period based on the achievement of specific performance based criteria. The PSU account for each participant includes the value of dividends from the Company as if reinvested in additional PSUs. PSU awards vest with the employee on the third fiscal year following the date of the grant to which the award relates. Compensation expense is measured based on the grant date fair market value of the award and recognized over the vesting period based on the estimated total compensation to be paid. Compensation costs related to the PSUs for the year ended January 31, 2026 are \$7,660 (January 31, 2025 – \$7,654). Equity settled PSUs are redeemed with shares transferred from a trust established for this plan or by issuing shares from treasury. There were 94,157 PSUs (January 31, 2025 – 174,389) partially settled by releasing 46,262 shares (January 31, 2025 – 85,618) from the employee trust during the year ended January 31, 2026. There were 3,349 PSUs (January 31, 2025 - 13,631) partially settled by releasing 3,349 shares issued from treasury (January 31, 2025 - 6,743). The total number of PSUs outstanding at January 31, 2026 that may be settled in treasury shares is 369,832 (January 31, 2025 – 329,143).

Director Deferred Share Unit Plan

This Plan is available for independent Directors. Participants are credited with deferred share units for the amount of the annual equity retainer, and for the portion of the annual cash retainer and fees each participant elects to allocate to the DDSU plan. Each deferred share unit entitles the holder to receive either a cash payment equal to the market value of the number of DDSUs granted or one share of the Company. The DDSUs are exercisable by the holder at any time after they cease to be a Director, but no later than December 31 of the first calendar year commencing after they leave the Company. A participant may elect at the time of exercise of any DDSUs, subject to the consent of the Company, to have the Company pay an amount in cash equal to the aggregate current

market value of the shares, determined based on the closing price of the shares on the TSX on the trading day preceding the exercise date. This cash payment is in consideration for the surrender by the participant to the Company the right to receive shares from exercising the DDSUs. Effective December 2016, the Plan was amended for those DDSUs credited to participants for the portion of the annual cash retainer and fees each participant elects to allocate to the Plan. The holder of these DDSUs is entitled to receive at the time of exercise, an amount in cash equal to the aggregate current market value of the shares, determined based on the closing price of the shares on the TSX on the trading day preceding the exercise date.

Compensation expense is initially measured at the time of the grant. Subsequent changes in the fair value of the DDSUs based on changes in the market value of the Company's shares are recognized at each reporting date. The DDSU plan compensation costs for the year ended January 31, 2026 are \$2,447 (January 31, 2025 – \$3,352). The total number of deferred share units outstanding at January 31, 2026 is 262,531 (January 31, 2025 – 242,874). There were 16,893 DDSUs exercised during the year ended January 31, 2026 (January 31, 2025 – 60,007), all of which were settled in cash (January 31, 2025 – 60,007 DDSUs settled in cash).

Executive Deferred Share Unit Plan

The EDSU plan was implemented to assist executive management to meet the Company's minimum share ownership guidelines. This plan provides for the granting of deferred share units to those executives who elect to receive a portion of their annual short-term incentive payment in EDSUs, subject to plan limits. Effective April 2016, participants are credited with EDSUs based on the amount of their annual short-term incentive payment allocated to the plan and the fair market value of the Company's shares. The EDSU account for each participant includes the value of dividends from the Company as if reinvested in additional EDSUs. The EDSUs are exercisable at any time after the executive ceases to be an employee of the Company, but no later than December 31 of the first calendar year commencing after the holder ceased to be an employee. Each EDSU entitles the holder to a cash payment equal to the market value of the equivalent number of the Company's shares, determined based on their closing price on the TSX on the trading day preceding the exercise date.

Total compensation expense is measured at the time of the grant. Subsequent changes in the fair value of the EDSUs based on changes in the market value of the Company's shares are recognized at each reporting date. The EDSU plan compensation costs for the year ended January 31, 2026 are \$73 (January 31, 2025 – \$185).

Share Option Plan

The Company has a Share Option Plan (the "Plan") that provides for the granting of options to certain officers and senior management. Options are granted at fair market value based on the volume weighted-average closing price of the Company's shares for the five trading days preceding the grant date. Effective June 14, 2011, the Plan was amended and restated. The amendments afford the Board of Directors the discretion to award options giving the holder the choice, upon exercise, to either deduct a portion of all dividends declared after the grant date from the options exercise price or to exercise the option at the strike price specified at the grant date ("Declining Strike Price Options"). No Declining Strike Price Options have been issued since 2017 and all options issued subsequently are standard options ("Standard Options"). Each option is exercisable into one share of the Company at the price specified in the terms of the option. Declining Strike Price options allow the employee to acquire shares or receive a cash payment based on the excess of the fair market value of the Company's shares over the exercise price.

The fair value of the Declining Strike Price Options is remeasured at the reporting date and recognized both in net earnings and as a liability over the vesting period. The grant date fair value of the Standard Options is recognized in net earnings and contributed surplus over the vesting period.

The maximum number of shares available for issuance under the Plan is a fixed number set at 4,354,020, representing 9.1% of the Company's issued and outstanding shares at January 31, 2026. Fair

value of the Company's options is determined using an option pricing model. Share options granted vest on a graduated basis over four years and are exercisable over a period of seven years. The share option compensation costs for the year ended January 31, 2026 are \$1,567 (January 31, 2025 – \$1,988). The fair values for options issued during the year were calculated based on the following assumptions:

	January 31, 2026		January 31, 2025	
Fair value of options granted	\$	10.31	\$	7.24
Exercise price	\$	54.39	\$	39.04
Dividend yield		3.4 %		4.0 %
Annual risk-free interest rate		2.7 %		3.5 %
Expected share price volatility		26.4 %		26.1 %

There were no Declining Share Price Options outstanding for the years ended January 31, 2026 or January 31, 2025.

The expected dividend yield is estimated based on the quarterly dividend rate and the closing share price on the date the options are granted. The expected share price volatility is estimated based on the Company's historical volatility over a period consistent with the expected life of the options. The risk-free interest rate is estimated based on the Government of Canada bond yield for a term to maturity equal to the expected life of the options.

The following continuity schedules reconcile the movement in outstanding options during the year:

Number of options outstanding	Declining Strike Price Options		Standard Options	
	January 31, 2026	January 31, 2025	January 31, 2026	January 31, 2025
Outstanding options, beginning of year	—	50,558	1,128,718	1,351,692
Granted	—	—	161,329	231,870
Exercised	—	(50,558)	(150,534)	(451,294)
Forfeited or cancelled	—	—	—	(3,550)
Outstanding options, end of year	—	—	1,139,513	1,128,718
Exercisable at end of year	—	—	644,978	559,821

The weighted-average share price on the dates options were exercised during the year was \$52.74 (January 31, 2025 – \$45.86).

Weighted-average exercise price	Declining Strike Price Options		Standard Options	
	January 31, 2026	January 31, 2025	January 31, 2026	January 31, 2025
Outstanding options, beginning of year	\$ —	\$ 27.24	\$ 34.97	\$ 32.80
Granted	—	—	54.39	39.18
Exercised	—	27.05	30.09	30.63
Forfeited or cancelled	—	—	—	35.66
Outstanding options, end of year	\$ —	\$ —	\$ 38.36	\$ 34.97
Exercisable at end of year	\$ —	\$ —	\$ 34.26	\$ 31.91

Summary of options outstanding by grant year

Grant year	Range of exercise price	Outstanding			Exercisable		
		Number outstanding	Weighted-average remaining contractual years	Weighted-average exercise price	Options exercisable	Weighted-average exercise price

Employee Share Purchase Plan

The Employee Share Purchase Plan provides participants with the opportunity to acquire an ownership interest in the Company. The Company contributes an additional 33% of the amount invested, subject to a maximum annual contribution of 2% of the participants' base salary. The plan is administered by a trustee who uses the funds received to purchase shares on the TSX on behalf of the participating employees. These shares are registered in the name of the plan trustee on behalf of the participants.

The Company's contribution to the plan is recorded as compensation expense. The employee share purchase plan compensation costs for the year ended January 31, 2026 are \$955 (January 31, 2025 – \$1,071).

16. FINANCIAL INSTRUMENTS

The Company's activities expose it to a variety of financial risks including liquidity risk, credit risk and market risk. The Company's overall risk management program focuses on minimizing potential adverse effects on financial performance.

The Company manages funding and financial risk management with oversight provided by the Board of Directors, who also approve specific financial transactions. The Company uses derivative financial instruments only to hedge exposures arising in respect of underlying business requirements and not for speculative purposes.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due or can do so only at excessive cost. The Company's operational cash flow is reasonably stable and predictable. This reflects the business risk profile of the majority of markets in which the Company operates and its product mix. Cash flow forecasts are produced regularly and reviewed against the Company's debt portfolio capacity and maturity profile to assist management in identifying future liquidity requirements. The Company's funding strategy is to ensure a mix of funding sources offering flexibility and cost effectiveness to match the business requirements.

The Company is financed by a combination of cash flow from operating activities, bank advances, senior notes and committed revolving loan facilities. At January 31, 2026, the Company had undrawn committed revolving loan facilities available of \$408,017 (January 31, 2025 – \$438,796) which mature in 2027 and 2028 (Note 12). The undrawn available capacity is net of the aggregate potential liability for letters of credit of \$18,475 (January 31, 2025 – \$18,188).

The following table analyzes the Company's financial liabilities into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows or an estimation in respect of floating interest rate liabilities, and as a result may not agree to the amounts disclosed on the balance sheet.

	2026	2027	2028	2029	2030	2031+	Total
Accounts payable and accrued liabilities	\$ 239,843	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 239,843
Long-term debt (Note 12)	10,856	169,961	5,212	103,911	1,472	49,684	341,096
Total	\$ 250,699	\$ 169,961	\$ 5,212	\$ 103,911	\$ 1,472	\$ 49,684	\$ 580,939

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposures to credit risk arise primarily from holdings of cash, customer and commercial accounts receivable and promissory note receivable.

To mitigate credit risk, the Company maintains deposits with financial institutions with minimum equivalent short-term credit ratings of "A1". The maximum exposure on cash is equal to the carrying amount of these instruments.

It is the Company's policy that customers who wish to trade on credit terms are subject to credit verification procedures including policies governing: credit approvals, limits, collections and fraud prevention. The Company provides impairment allowances for potentially uncollectible accounts receivable. Receivable balances are comprised of approximately forty thousand customers spread across a wide geography, substantially reducing the Company's risk through the diversity of its customer base. Further, receivables are centrally monitored on an ongoing basis with the result that the Company's exposure to individual customers is generally not

significant. The maximum exposure net of impairment allowances is \$108,826 (January 31, 2025 – \$119,023). At January 31, 2026, the Company's gross maximum credit risk exposure is \$119,903 (January 31, 2025 – \$131,698). Of this amount, \$24,016 (January 31, 2025 – \$21,523) is more than 60 days past due. The Company has recorded an allowance against its maximum exposure to credit risk of \$11,077 (January 31, 2025 – \$12,675) which is based on expected credit losses for similar financial assets.

The Company has an unsecured, non-interest bearing promissory note receivable of \$12,500 (January 31, 2025 – \$12,500) from Giant Tiger Stores Limited that has been classified as accounts receivable (Note 26). The Company does not have any other individual customers greater than 10% of total accounts receivable.

As at January 31, 2026 and 2025, the Company has no significant credit risk related to derivative financial instruments.

Market risk

(a) *Currency risk* The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the U.S. dollar. Foreign exchange risk arises from U.S. dollar denominated borrowings and net investments in foreign operations.

Management is responsible for managing foreign currency risk. The Company's U.S. dollar net investment is exposed to foreign currency translation risk. The Company has hedged US\$70,000 of this risk with U.S. dollar denominated borrowings. No ineffectiveness was recognized from the net investment hedge.

In respect of recognized foreign currency assets and liabilities, the Company has limited exposure. Procurement and related borrowing activity are generally conducted in currencies matching cash flows generated by underlying operations, providing an economic hedge without sophisticated treasury management. Short-term imbalances in foreign currency holdings are rectified by buying or selling at spot rates when necessary.

Management considers a 10% variation in the Canadian dollar relative to the U.S. dollar reasonably possible. Considering all major exposures to the U.S. dollar as described above, a 10% appreciation of the Canadian dollar against the U.S. dollar in the year-end rate would cause net earnings to decrease by approximately \$100 (January 31, 2025 - \$100). A 10% depreciation of the Canadian dollar against the U.S. dollar year-end rate would cause net earnings to increase by approximately \$100 (January 31, 2025 – \$100).

The Company may use derivative financial instruments to manage market risk. These transactions are approved by the Board of Directors. The derivatives are entered into with financial institution counter parties rated AA-.

(b) *Interest rate risk* Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk primarily through its long-term borrowings.

The Company manages exposure to interest rate risk by monitoring its blend of fixed and floating interest rates, and may modify this blend using interest rate swaps. The goal of management is to manage the trade-off between obtaining the most beneficial effective rates of interest, while minimizing the impact of interest rate volatility on earnings.

Management considers a 100 basis point change in interest rates reasonably possible. Considering all major exposures to interest rates as described above, based on floating rate borrowings outstanding at January 31, 2026, a 100 basis point increase in the risk-free rate would cause net earnings to decrease by approximately \$851 (January 31, 2025 – \$692). A 100 basis point decrease would cause net earnings to increase by approximately \$851 (January 31, 2025 – \$692).

(c) *Accounting classifications and fair value estimation* The following table comprises the carrying amounts of the Company's financial instruments. Financial instruments are either carried at amortized cost using the effective interest rate method or fair value.

The Company uses a three-level hierarchy to categorize financial instruments carried at fair value as follows:

- Level 1 – Fair values measured using quoted prices (unadjusted) in active markets for identical instruments
- Level 2 – Fair values measured using directly or indirectly observable inputs, other than those included in Level 1
- Level 3 – Fair values measured using inputs that are not based on observable market data

These amounts represent point-in-time estimates and may not reflect fair value in the future. These calculations are subjective in nature, involve uncertainties and are a matter of significant judgment.

January 31, 2026	Assets (Liabilities) carried at amortized cost		
	Maturity	Carrying amount	Fair value
Cash	Short-term	\$ 90,374	\$ 90,374
Accounts receivable ⁽¹⁾	Short-term	108,826	108,826
Other financial assets	Long-term	1,852	1,852
Accounts payable and accrued liabilities	Short-term	(236,863)	(236,863)
Long-term debt	Long-term	(311,437)	(300,447)

(1) At January 31, 2026, \$12,500 of the promissory note receivable is included in accounts receivable (January 31, 2025 – \$12,500). See Note 26.

January 31, 2025	Assets (Liabilities) carried at amortized cost		
	Maturity	Carrying amount	Fair value
Cash	Short-term	\$ 67,385	\$ 67,385
Accounts receivable	Short-term	119,023	119,023
Other financial assets	Long-term	1,989	1,989
Accounts payable and accrued liabilities	Short-term	(247,425)	(247,425)
Long-term debt	Long-term	(295,776)	(280,336)

The methods and assumptions used in estimating the fair value of the Company's financial instruments are as follows:

- The fair value of short-term financial instruments approximates their carrying values due to their immediate or short-term period to maturity. Any differences between fair value and book values of short-term financial instruments are considered to be insignificant.
- The fair value of long-term debt with fixed interest rates is estimated by discounting the expected future cash flows using the current risk-free interest rate on an instrument with similar terms adjusted for an appropriate risk premium. This is considered a level 2 fair value estimate.

Capital management

The Company's objectives in managing capital are to deploy capital to provide an appropriate total return to shareholders while taking into consideration key risks. Management maintains a capital structure that provides the flexibility to take advantage of the growth opportunities of the business, maintain existing assets, meet obligations and financial covenants and enhance shareholder value. The capital structure of the Company consists of bank advances, long-term debt, lease liabilities and shareholders' equity. The Company manages capital to optimize efficiency through an appropriate balance of debt and equity. In order to maintain or adjust its capital structure, the Company may purchase shares for cancellation pursuant to normal course issuer bids, issue additional shares, borrow additional funds, adjust discretionary capital spending and adjust the amount of dividends paid or refinance debt at different terms and conditions, all subject to market conditions and the terms of any underlying agreements.

The Company's process and policies for managing capital are monitored by management and are reflected in the following measures:

- (a) *Debt-to-equity ratio* At January 31, 2026, the debt-to-equity ratio was 0.38 compared to 0.37 last year. The debt-to-equity ratio is within the Company's objectives. The debt-to-equity ratio is calculated as follows:

	January 31, 2026	January 31, 2025
Current portion of long-term debt (Note 12)	\$ —	\$ —
Long-term debt (Note 12)	311,437	295,776
Total debt	\$ 311,437	\$ 295,776
Total equity	\$ 822,833	\$ 794,714
Debt-to-equity ratio	0.38	0.37

- (b) *Financial covenants* As a result of borrowing agreements entered into by the Company, there are certain financial covenants that must be maintained. Financial covenants include an interest coverage ratio and a leverage test. Compliance with financial covenants is reported quarterly to the Board of Directors. During the years ended January 31, 2026 and 2025, the Company is in compliance with all financial covenants. Other than the requirements imposed by these borrowing agreements and solvency tests imposed by the CBCA, the Company is not subject to any externally imposed capital requirements.

Capital management objectives are reviewed on an annual basis. The capital management objectives were substantially unchanged for the year ended January 31, 2026.

17. SHARE CAPITAL

Authorized – The Company has an unlimited number of Common Voting Shares and Variable Voting Shares.

	Shares	Consideration
Balance at January 31, 2025	47,871,258	\$ 180,254
Purchased and cancelled ⁽¹⁾	(309,564)	(1,150)
Issued under share-based compensation plans (Note 15)	67,759	598
Balance at January 31, 2026	47,629,453	\$ 179,702
Shares held in trust, January 31, 2025	(123,834)	(435)
Purchased for future settlement of PSUs	(115,000)	(454)
Released for settlement of PSUs (Note 15)	46,262	167
Shares held in trust, January 31, 2026	(192,572)	\$ (722)
Issued and outstanding, net of shares held in trust, January 31, 2026	47,436,881	\$ 178,980

Balance at January 31, 2024	47,711,467	\$ 178,409
Issued under share-based compensation plans (Note 15)	159,791	1,845
Balance at January 31, 2025	47,871,258	\$ 180,254
Shares held in trust, January 31, 2024	(129,452)	(458)
Purchased for future settlement of PSUs	(80,000)	(301)
Released for settlement of PSUs (Note 15)	85,618	324
Shares held in trust, January 31, 2025	(123,834)	\$ (435)
Issued and outstanding, net of shares held in trust, January 31, 2025	47,747,424	\$ 179,819

(1) Variable voting shares and common voting shares purchased pursuant to NCIB program. The Company records shares repurchased on a transaction date basis.

Voting rights

The Company's share capital is comprised of Variable Voting Shares and Common Voting Shares. The two classes of shares have equivalent rights as shareholders except for voting rights. Holders of Variable Voting Shares are entitled to one vote per share except where (i) the number of outstanding Variable Voting Shares exceeds 49% of the total number of all issued and outstanding Variable Voting Shares and Common Voting Shares, or (ii) the total number of votes cast by or on behalf of the holders of Variable Voting Shares at any meeting on any matter on which a vote is to be taken exceeds 49% of the total number of votes cast at such meeting.

If either of the above-noted thresholds is surpassed at any time, the vote attached to each Variable Voting Share will decrease automatically without further act or formality. Under the circumstances described in paragraph (i) above, the Variable Voting Shares as a class cannot carry more than 49% of the total voting rights attached to the aggregate number of issued and outstanding Variable Voting Shares and Common Voting Shares of the Company. Under the circumstances described in paragraph (ii) above, the Variable Voting Shares as a class cannot, for the given Shareholders' meeting, carry more than 49% of the total number of votes cast at the meeting.

Variable Voting Shares may only be held, beneficially owned or controlled, directly or indirectly, by persons who are not Canadians (within the meaning of the Canada Transportation Act). An issued and outstanding Variable Voting Share is converted into one Common Voting Share automatically and without any further act of the Company or the holder, if such Variable Voting Share becomes held, beneficially owned and controlled, directly or indirectly, otherwise than by way of security only, by a Canadian, as defined in the Canada Transportation Act ("CTA").

At January 31, 2026, shares outstanding of 47,629,453 included 15,717,827 (January 31, 2025 – 16,749,614) Variable Voting Shares, representing 33.0% (January 31, 2025 – 35.0%) of the total shares issued and outstanding.

Normal Course Issuer Bid

On November 20, 2025, the Company renewed its Normal Course Issuer Bid ("NCIB"). Under the NCIB, the Company may acquire up to a maximum of 4,752,020 of its shares, or approximately 10% of its float for cancellation over the following 12 months. During the year ended January 31, 2026, the Company purchased 309,564 common shares having a book value of \$1,150 for cash consideration of \$14,984. The excess of the purchase price over the book value of the shares of \$13,834 was charged to retained earnings. All shares purchased were cancelled. During the year ended January 31, 2025, the Company purchased no common shares.

In connection with the NCIB, the Company has established an automatic securities purchase plan with its designated broker to facilitate the purchase of shares under the NCIB at times when the Company would ordinarily not be permitted to purchase its shares due to regulatory restrictions or self-imposed blackout periods. Under the plan, before entering a self-imposed blackout period, the Company may, but is not required to, ask the designated broker to make purchases under the NCIB within specific parameters.

18. EXPENSES BY NATURE

Year Ended	January 31, 2026	January 31, 2025
Employee costs (Note 19)	\$ 385,035	\$ 380,043
Amortization	120,608	115,619
Operating lease rentals	5,207	5,116

19. EMPLOYEE COSTS

Year Ended	January 31, 2026	January 31, 2025
Wages, salaries and benefits including bonus	\$ 362,494	\$ 356,491
Post-employment benefits (Note 13)	9,839	9,302
Share-based compensation (Note 15)	12,702	14,250
Total	385,035	380,043

Included in the above are the following amounts in respect of key management compensation:

Wages, salaries and benefits including bonus	\$ 7,237	\$ 7,478
Post-employment benefit expense	834	701
Share-based compensation	7,665	8,418

Key management personnel are those individuals who have the authority and responsibility for planning, directing and controlling the activities of the Company. The Company's key management personnel are comprised of the Board of Directors, Chief Executive Officer and the senior officers of the Company.

20. INTEREST EXPENSE

Year Ended	January 31, 2026	January 31, 2025
Interest on long-term debt	\$ 12,724	\$ 13,759
Interest on lease liabilities	5,598	5,458
Net interest on defined benefit plan obligation (Note 13)	65	241
Other interest income	(548)	(446)
Interest capitalized (Note 7)	(382)	(711)
Total	\$ 17,457	\$ 18,301

21. DIVIDENDS

The following is a summary of the dividends recorded in shareholders' equity and paid in cash:

Year Ended	January 31, 2026	January 31, 2025
Dividends recorded in equity and paid in cash	\$ 81,829	\$ 81,601
Less: Dividends paid to non-controlling interests	(4,369)	(6,076)
Shareholder dividends	\$ 77,460	\$ 75,525
Dividends per share	\$ 1.62	\$ 1.58

The payment of dividends on the Company's common shares is subject to the approval of the Board of Directors and is based upon, among other factors, the financial performance of the Company, its current and anticipated future business needs, and the satisfaction of solvency tests imposed by the CBCA for the declaration of dividends. Dividends are recognized as a liability in the consolidated financial statements in the year in which the dividends are approved by the Board of Directors.

On April 8, 2026, the Board of Directors declared a dividend of \$0.41 per common share to be paid on April 24, 2026 to shareholders of record as of the close of business on April 15, 2026.

22. CHANGE IN NON-CASH WORKING CAPITAL

The changes in non-cash working capital were as follows:

Year Ended	January 31, 2026	January 31, 2025
Change in:		
Accounts receivable	\$ 8,921	\$ (5,925)
Inventories	(7,367)	(17,667)
Prepaid expenses	3,868	(6,588)
Accounts payable and accrued liabilities	(4,733)	14,255
Other	4,493	1,649
Total	\$ 5,182	\$ (14,276)

23. NET EARNINGS PER SHARE

Basic net earnings per share is calculated based on the weighted-average shares outstanding during the year. The diluted net earnings per share takes into account the dilutive effect of all potential ordinary shares. The average market value of the Company's shares for purposes of calculating the dilutive effect of share options is based on quoted market prices for the period that the options were outstanding.

(\$ and shares in thousands, except earnings per share)

Year Ended	January 31, 2026	January 31, 2025
Diluted earnings per share calculation:		
Net earnings attributable to shareholders for the year (numerator for diluted earnings per share)	\$ 139,485	\$ 137,296
Weighted-average shares outstanding (denominator for basic earnings per share)	47,831	47,788
Dilutive effect of share-based compensation	846	770
Denominator for diluted earnings per share	48,677	48,558
Basic earnings per share	\$ 2.92	\$ 2.87
Diluted earnings per share	\$ 2.87	\$ 2.83

24. COMMITMENTS, CONTINGENCIES AND GUARANTEES

Contingencies

In the ordinary course of business, the Company is subject to audits by taxation authorities. While the Company believes that its filing positions are appropriate and supportable, the possibility exists that certain matters may be reviewed and challenged by the taxation authorities. The Company regularly reviews the potential for adverse outcomes and the adequacy of its tax provisions. The Company believes that it has adequately provided for these matters. If the final outcome differs materially from the provisions, the Company's income tax expense and its earnings could be affected positively or negatively in the period in which the matters are resolved.

The Company is involved in various legal proceedings arising in the normal course of business. It is not currently possible to predict the outcome of the Company's legal proceedings with certainty and the amounts that may ultimately be assessed against the Company. Management regularly assesses the adequacy of provisions for such proceedings and adjusts any provisions accordingly.

The following is a description of the Company's significant legal proceedings:

In February 2025, two Statements of Claims for putative class action proceedings were filed in the Manitoba Court of King's Bench against The North West Company Inc. and certain Canadian subsidiaries: Kusugak et al (the "Kusugak Claim") and Muskego et al (the "Muskego Claim", collectively with the Kusugak Claim, the "Claims"). The Claims allege that the Company misrepresented the amount of federal subsidy it passed through to consumers through the Nutrition North Canada subsidy program (the "Subsidies") between April 1, 2011 and the present. The Claims are brought by individuals who allegedly purchased subsidized goods at the Company's stores and seek damages including, for alleged negligent misrepresentation and unjust enrichment as well as breach of contract, the Competition Act and certain provincial and territorial consumer protection acts. These actions are at an early stage and have not been certified as class proceedings. The Company believes these Claims are without merit and maintains that its practices

regarding the Subsidies were fully compliant with the Government of Canada agreements and plans to actively defend these actions. In September 2025, the Kusugak Claim was amended to add additional plaintiffs, and in November 2025, the Muskego Claim was discontinued. The Company has brought a motion to strike the Kusugak Claim, which was heard in December 2025 and the judgment remains under reserve. The Company does not currently have any accruals or provisions for these Claims recorded in these consolidated financial statements.

Guarantees

The Company has provided the following guarantees to third parties:

The Company has entered into indemnification agreements with its current and former directors and officers to indemnify them, to the extent permitted by law, against any and all charges, costs, expenses, amounts paid in settlement and damages incurred by the directors and officers as a result of any lawsuit or any judicial, administrative or investigative proceeding in which the directors and officers are sued as a result of their service. These indemnification claims will be subject to any statutory or other legal limitation period. The nature of the indemnification agreements prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to counterparties. The Company has purchased director and officer liability insurance. No amount has been recorded in the consolidated financial statements with respect to these indemnification agreements.

In the normal course of operations, the Company provides indemnification agreements to counterparties for various events such as intellectual property right infringement, loss or damages to property, claims that may arise while providing services, violation of laws or regulations, or as a result of litigation that might be suffered by the counterparties. The terms and nature of these indemnification agreements prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay to counterparties. No amount has been recorded in the consolidated financial statements with respect to these indemnification agreements.

25. SUBSIDIARIES AND JOINT VENTURES

The Company's principal operating subsidiaries are set out below:

	Activity	Country of Organization	Proportion of voting rights held by:	
			Company	Subsidiary
NWC GP Inc.	General Partner	Canada	100 %	
North West Company Holdings Inc.	Holding Company	Canada	100 %	
The North West Company LP	Retailing	Canada	100 %	(less one unit)
NWC (U.S.) Holdings Inc.	Holding Company	United States		100 %
The North West Company (International) Inc.	Retailing	United States		100 %
Roadtown Wholesale Trading Ltd.	Retailing	British Virgin Islands		77 %
North Star Air Ltd.	Airline	Canada		100 %

The investment in joint venture comprises a 50% interest in a Canadian Arctic shipping company, Transport Nanuk Inc. At January 31, 2026, the Company's share of the net assets of its joint venture amount to \$17,750 (January 31, 2025 – \$17,140) comprised assets of \$19,786 (January 31, 2025 - \$18,383) and liabilities of \$2,036 (January 31, 2025 – \$1,243). During the year ended January 31, 2026, the Company purchased freight handling and shipping services from Transport Nanuk Inc. and its subsidiaries of \$9,367 (January 31, 2025 – \$11,500).

26. PROMISSORY NOTE RECEIVABLE

On July 5, 2020, the Company sold 36 of its 46 Giant Tiger stores to Giant Tiger Stores Limited for cash consideration of \$45,000, subject to working capital adjustments, and additional contingent consideration payable of up to \$22,500 based on the achievement of financial measures in 2024 and 2025. The estimated consideration was recorded as an unsecured, non-interest bearing promissory note. \$45,000 in cash consideration has been received with the final cash consideration installment of \$15,000 received during the period ended January 31, 2025.

At the time of the transaction, additional contingent consideration was included in the fair value of the promissory note, discounted using an interest rate specific to the counterparty. The promissory note receivable has an estimated fair value of \$12,500 (January 31, 2025 – \$12,500) and has been recorded as accounts receivable. Based on the financial measures achieved in 2024 and 2025, the \$12,500 contingent cash consideration recorded in accounts receivable is past due.

The Company has filed a Statement of Claim against Giant Tiger Stores Limited seeking damages for breach of the asset purchase agreement for failing to pay the contingent cash consideration when due. The Company's Claim seeks \$7,500 in respect of the 2024 contingent consideration. The Company has also brought a motion to amend its Claim to seek an additional \$10,571 in respect of the 2025 contingent consideration plus damages. Giant Tiger Stores Limited has filed a Statement of Defence and Counterclaim seeking rectification of the asset purchase agreement, and has further denied that any contingent cash consideration is owing.

27. SUBSEQUENT EVENT

On April 8, 2026, the Company refinanced its CAD\$400,000 and US\$52,000 million loan facilities originally maturing March 1, 2027. These committed revolving loan facilities, refinanced with the existing lenders, provide the Company with up to CAD\$400,000 and US\$52,000 for working capital and general corporate purposes. The Canadian dollar facilities have a floating interest rate based on the Canadian Overnight Repo Rate plus a spread, or the Canadian prime interest rate. The U.S. dollar facilities have a floating interest rate based on SOFR plus a spread. These loan facilities mature April 8, 2031 and rank *pari passu* with the \$100,000 and US\$70,000 senior notes.

Nor'Westers are associated with the vision, perseverance, and enterprising spirit of the original North West Company and Canada's early fur trade. We trace our roots to 1668, and the establishment of one of North America's early trading posts at Waskaganish on James Bay. Today, we continue to embrace this pioneering culture as true "frontier merchants."
